CANADA LIFE U.S. VALUE FUND

Annual Management Report of Fund Performance

For the Year Ended March 31, 2023

This Annual Management Report of Fund Performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You may obtain a copy of the annual financial statements, at no cost, by contacting us using one of the methods noted under Fund Formation and Series Information or by visiting our website at www.canadalifeinvest.ca or the SEDAR website at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure. For more information, please refer to the Fund's Simplified Prospectus and Fund Facts, which may also be obtained, at no cost, using any of the methods outlined above.

For the Fund's current net asset values per security and for more recent information on general market events, please visit our website.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Canada Life Investment Management Ltd. to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

Management Discussion of Fund Performance

June 5, 2023

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments that have affected the performance and outlook of Canada Life U.S. Value Fund (the "Fund") in the financial year ended March 31, 2023 (the "period"). If the Fund was established during the period, "period" represents the period since inception.

In this report, "CLIML" and "the Manager" refer to Canada Life Investment Management Ltd., which is wholly owned by The Canada Life Assurance Company ("Canada Life"). The Manager has entered into a fund administration agreement with Mackenzie Financial Corporation ("Mackenzie"), an affiliate of the Manager and Canada Life, for administrative services. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

Please read *A Note on Forward-Looking Statements* on the first page of this document.

Investment Objective and Strategies

The Fund seeks above-average total return by investing primarily in U.S. equities, usually of large companies. The Fund may invest up to 15% of its assets in non-U.S. equities.

Risk

The risks of the Fund remain as discussed in the Fund's Simplified Prospectus.

The Fund is suitable for medium- to long-term investors looking for a U.S. equity fund to hold as part of their portfolio, who can handle the volatility of stock markets and who have a medium tolerance for risk.

Results of Operations

Investment Performance

The performance of all series in the current and previous periods is shown in the *Past Performance* section of the report. Performance will vary by series primarily because fees and expenses differ between series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Fund Formation and Series Information* section of this report for the varying management and administration fees payable by each series. The following comparison to market indices is intended to help investors understand the Fund's performance relative to the general performance of the markets. However, the Fund's mandate may be different from that of the indices shown.

During the period, the Fund's A Series securities returned 3.8% (after deducting fees and expenses paid by the series). This compares with a return of –0.1% for the Fund's broad-based index, the S&P 500 Index, and a return of 1.8% for the Fund's narrow index, the Russell 1000 Value Index. All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in the index returns.

Over the period, U.S. equities fell as economic forecasts weakened, although currency movements boosted returns in Canadian dollar terms. Employment remained strong and high inflation persisted. In response, the U.S. Federal Reserve increased the federal funds rate significantly. Large-capitalization value stocks outperformed growth stocks as bond yields rose. Higher interest rates contributed to a crisis in the U.S. banking system in March.

Within the Russell 1000 Value Index, energy, consumer staples and industrials were the strongest sectors in Canadian dollar terms, while real estate, financials and information technology were the weakest.

The Fund outperformed the broad-based index because of the Fund's focus on value stocks, which outperformed the broader equity market over the period. Given the Fund's mandate, the return of the narrow index is a more meaningful comparison.

The Fund outperformed the narrow index, with stock selection in the health care and communication services sectors contributing to performance. Holdings in the United Kingdom also contributed to performance. Conversely, stock selection in the industrials sector detracted from performance.

Over the period, neither portfolio activity nor market developments significantly changed the positioning of the Fund. Changes to the portfolio included a new position in Meta Platforms Inc. and the elimination of the position in Johnson & Johnson.

Net Assets

The Fund's net assets increased by 12.7% during the period to $209.7 million. This change was composed primarily of $8.7 million in net income (including any interest and/or dividend income) from investment performance, after deducting fees and expenses, and an increase of $14.9 million due to net securityholder activity (including sales, redemptions and cash distributions). The securityholder activity includes an inflow of $34.6 million relating to fund merger activity (see *Recent Developments*).

Fees and Expenses

The management expense ratio ("MER") for each series during the year ended March 31, 2023, was generally similar to the MER for the year ended March 31, 2022. Total expenses paid vary from period to period mainly as a result of changes in average assets in each series. The MERs for F Series and F5 Series decreased due to a decrease in the management fee rates effective July 22, 2022, as noted in the *Fund Formation and Series Information* section of the report. The MER for W8 Series decreased due to changes in its applicable Harmonized Sales Tax rate. The MERs for all series are presented in the *Financial Highlights* section of this report.

Recent Developments

Effective July 22, 2022, the annual management fee rate for F Series and F5 Series was reduced to 0.70% from 1.00%.

Effective July 22, 2022, the minimum initial investment amount for each of the high net worth series (N Series, N5 Series, N8 Series, QFW Series, QFW5 Series, W Series, W5 Series and W8 Series, as applicable) was reduced from $100,000 to $500 to align with the minimum initial investment amount for all retail series. The $500,000 minimum total holdings amount for high net worth series was unchanged.

Effective July 22, 2022, the management fee rate reduction program for F Series, F5 Series and F8 Series was eliminated for total holdings between $100,000 and $499,999 due to the lowering of management fee rates for these series. A new management fee rate reduction program was implemented for F Series, F5 Series, F8 Series, QFW Series, QFW5 Series, W Series, W5 Series and W8 Series (as applicable) based on an investor's total holdings above $2.5 million, at the following rates: 0.05% ($2,500,000 to $4,999,999); 0.10% ($5,000,000 to $9,999,999); and 0.15% ($10,000,000 or higher).

Effective September 16, 2022, FW Series and FW5 Series were redesignated as F Series and F5 Series, respectively.

Effective February 1, 2023, I Series securities were created for the Fund.

The merger of Canada Life U.S. Low Volatility Fund into the Fund was approved by investors on January 18, 2023, and took effect on February 3, 2023.

Following the approval of the Canada Life Funds' Independent Review Committee, Canada Life Pathways US Equity Fund was merged into the Fund on February 3, 2023.

Effective March 31, 2023, KPMG LLP was appointed as the auditor of the Fund.

Related Party Transactions

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to the Manager at the annual rates specified under *Fund Formation and Series Information* in this report and as more fully described in the Prospectus. The Manager paid the administration fees to Mackenzie for providing day-to-day administration services, including financial reporting, communications to investors and securityholder reporting, maintaining the books and records of the Fund, NAV calculations and processing orders for securities of the Fund. In return for the administration fees, Mackenzie pays all costs and expenses (other than certain specified fund costs) required to operate the Fund that are not included in management fees. See also *Management Fees*.

Other Related Party Transactions

Certain other investment funds managed by CLIML and segregated fund policies issued by Canada Life may invest in the Fund on a prospectus-exempt basis in accordance with the investment objectives of those funds. At March 31, 2023, these other investment funds and segregated funds owned 54.9% of the Fund's NAV. All related party transactions are based on the NAV per security on each transaction day. As a result of these investments, the Fund may be subject to large transaction risk as discussed in the Prospectus. CLIML manages this risk to reduce the possibility of any adverse effect on the Fund or on its investors, through such processes as requiring advance notice of large redemptions.

At March 31, 2023, Canada Life had an investment of $3.2 million in the Fund (1.5% of the Fund's NAV).

The Manager relied on a positive recommendation provided by the Canada Life Funds' Independent Review Committee to merge Canada Life U.S. Low Volatility Fund into the Fund, effective February 3, 2023.

The Manager relied on an approval provided by the Canada Life Funds' Independent Review Committee to merge Canada Life Pathways US Equity Fund into the Fund, effective February 3, 2023.

The Manager relied on an approval provided by the Canada Life Funds' Independent Review Committee to appoint KPMG LLP as the auditor of the Fund, effective March 31, 2023.

Past Performance

The Fund's past performance information is presented in the following charts and table. It assumes all distributions made by the Fund in the periods presented are reinvested in additional securities of the relevant series of the Fund. The charts and table do not take into account sales, redemption, distribution or optional charges, or income taxes payable by any investor that would have reduced returns. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes whether paid to you in cash or reinvested in additional securities of the Fund. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

Year-by-Year Returns

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Fund Formation and Series Information*.

Annual Compound Returns

The following table compares the historical annual compound total returns for each series of the Fund with the relevant index or indices shown below for each of the periods ended March 31, 2023. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in these performance figures.

All index returns are calculated in Canadian dollars on a total return basis, meaning that all dividend payments, interest income accruals and interest payments are reinvested.

Percentage Return:[1]	**1 Yr**	**3 Yr**	**5 Yr**	**10 Yr**	**Since Inception**[2]
A Series	3.8	16.9	8.7	n/a	9.1

S&P 500 Index*	–0.1	17.0	12.3	n/a	Note 3
Russell 1000 Value Index	1.8	16.3	8.6	n/a	Note 4

* *Broad-based index*

The S&P 500 Index is a market capitalization weighted index of 500 widely held securities, designed to measure broad U.S. equity performance.

The Russell 1000 Value Index measures the performance of those companies in the Russell 1000 Index with lower price-to-book ratios and lower expected growth values. The Russell 1000 Index measures the performance of the 1,000 largest U.S. companies based on total market capitalization.

(1) The percentage return differs for each series because the management fee rate and expenses differ for each series.

(2) The return since inception for each series will differ when the inception date differs and is only provided when a series has been active for a period of less than 10 years.

(3) The return of the S&P 500 Index since inception for each applicable series is as follows: A Series 12.7%, F Series 12.7%, F5 Series 12.7%, GA Series 0.6%, GF Series 0.6%, GN Series 0.6%, GQF Series 0.6%, GQFW Series 0.6%, GW Series 0.6%, I Series 1.8%, N Series 12.7%, N5 Series 12.7%, N8 Series 12.7%, QF Series 12.7%, QF5 Series 12.7%, QFW Series 10.9%, QFW5 Series 10.9%, Series R 12.4%, Series S 1.8%, T5 Series 12.7%, T8 Series 12.7%, W Series 12.7%, W5 Series 12.7%, W8 Series 12.7%.

(4) The return of the Russell 1000 Value Index since inception for each applicable series is as follows: A Series 8.7%, F Series 8.7%, F5 Series 8.7%, GA Series –3.5%, GF Series –3.5%, GN Series –3.5%, GQF Series –3.5%, GQFW Series –3.5%, GW Series –3.5%, I Series –2.9%, N Series 8.7%, N5 Series 8.7%, N8 Series 8.7%, QF Series 8.7%, QF5 Series 8.7%, QFW Series 7.6%, QFW5 Series 7.6%, Series R 8.9%, Series S –2.9%, T5 Series 8.7%, T8 Series 8.7%, W Series 8.7%, W5 Series 8.7%, W8 Series 8.7%.

The investments and percentages may have changed since March 31, 2023, due to the ongoing portfolio transactions of the Fund. Quarterly updates of holdings are available within 60 days of the end of each quarter except for March 31, the Fund's fiscal year-end, when they are available within 90 days. The quarterly updates are available by visiting www.canadalifeinvest.ca.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for each of the fiscal periods presented below. If during the period a fund or series was established or reinstated, "period" represents the period from inception or reinstatement to the end of that fiscal period. Series inception or reinstatement dates can be found under *Fund Formation and Series Information*.

Net assets, end of period	n/a	13.24	11.96	8.65	9.56

(1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences, if any, can be found in the *Notes to Financial Statements*.

(2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.

(3) Distributions were paid in cash/reinvested in additional securities of the Fund, or both.

(4) Effective September 16, 2022, FW Series and FW5 Series were redesignated as F Series and F5 Series, respectively.

(1) This information is provided as at the end of the fiscal period shown.

(2) Management expense ratio ("MER") is based on total expenses, excluding commissions and other portfolio transaction costs, income taxes and withholding taxes, for the stated period and is expressed as an annualized percentage of daily average net assets during the period, except as noted. In the period a series is established, the MER is annualized from the date of inception to the end of the period. Where the Fund directly invests in securities of another fund (including exchange-traded funds or "ETFs"), the MERs presented for the Fund include the portion of MERs of the other fund(s) attributable to this investment. Any income distributions received from ETFs managed by affiliates of the Manager, with the intention of offsetting fees paid within those ETFs but which are not considered to be duplicative fees under regulatory requirements, are treated as waived expenses for MER purposes. The Manager may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.

(3) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of daily average net assets during the period. Where the Fund invests in securities of another fund (including ETFs), the TERs presented for the Fund include the portion of TERs of the other fund(s) attributable to this investment.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher the Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

(5) Effective September 16, 2022, FW Series and FW5 Series were redesignated as F Series and F5 Series, respectively.

Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by the Manager in part to pay The Putnam Advisory Company LLC, an affiliate of the Manager, for investment advisory services, including managing the investment portfolio of the Fund and/or the underlying fund(s), as applicable, including providing investment analysis and recommendations, making investment decisions and making brokerage arrangements for the purchase and sale of the investment portfolio.

The Manager is responsible for paying certain administrative costs and all sales commissions, trailing commissions and any other compensation (collectively, "distribution-related payments") to registered dealers whose clients invest in the Fund. As the principal distributor for the Fund, Quadrus Investment Services Ltd. ("Quadrus"), an affiliate of the Manager, is paid trailing commissions out of the management fees.

The Manager used approximately 37% of the total management fee revenues received from all Canada Life Mutual Funds during the period to fund distribution-related payments to Quadrus and Quadrus-authorized dealers. In comparison, such distribution-related payments for the Fund represented on average 39% of the management fees paid by all applicable series of the Fund during the period. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions and sales commissions paid for that series. The higher proportion of distribution-related payments is primarily attributable to sales commissions related to gross sales of redemption charge securities of the Fund.

Fund Formation and Series Information

The Fund may have undergone a number of changes, such as a reorganization or a change in manager, mandate or name. A history of the major changes affecting the Fund in the last 10 years can be found in the Fund's Simplified Prospectus.

Date of Formation: June 26, 2015

The Fund may issue an unlimited number of securities of each series. The number of issued and outstanding securities of each series is disclosed under *Financial Highlights.*

Series Distributed by Quadrus Investment Services Ltd. *(255 Dufferin Ave., London, Ontario, N6A 4K1; 1-888-532-3322; www.canadalifeinvest.ca)*

A Series, T5 Series and T8 Series securities are offered to investors investing a minimum of $500. Investors in T5 Series and T8 Series securities also want to receive a monthly cash flow of 5% or 8% per year, respectively.

F Series and F5 Series securities are offered to investors investing a minimum of $500, who are enrolled in a Quadrus-sponsored fee-for-service or wrap program and who are subject to an asset-based fee. Investors in F5 Series securities also want to receive a monthly cash flow of 5% per year.

GA Series, GF Series, GN Series, GQF Series, GQFW Series and GW Series securities were created specifically for the purpose of implementing mergers affecting the Fund and are not available for sale.

I Series securities are offered to investors investing a minimum of $25,000, who are participating in the Canada Life Constellation Managed Portfolios program, and who have entered into an I Series Account Agreement with CLIML and Quadrus which specifies the fees applicable to this account.

N Series, N5 Series and N8 Series securities are offered to investors investing a minimum of $500, who have eligible minimum total holdings of $500,000, and who have entered into an N Series Account Agreement with CLIML and Quadrus. Investors in N5 Series and N8 Series securities also want to receive a monthly cash flow of 5% or 8% per year, respectively.

QF Series and QF5 Series securities are offered to retail investors investing a minimum of $500. Investors are required to negotiate their advisor service fee, which cannot exceed 1.25%, with their financial advisor. Investors in QF5 Series securities also want to receive a monthly cash flow of 5% per year.

QFW Series and QFW5 Series securities are offered to high net worth investors investing a minimum of $500 and who have eligible minimum total holdings of $500,000. Investors are required to negotiate their advisor service fee, which cannot exceed 1.25%, with their financial advisor. Investors in QFW5 Series securities also want to receive a monthly cash flow of 5% per year.

Series R securities are offered only to other funds managed by CLIML on a non-prospectus basis in connection with fund-of-fund arrangements.

Series S securities are offered to The Canada Life Assurance Company and certain other mutual funds, but may be sold to other investors as determined by CLIML.

W Series, W5 Series and W8 Series securities are offered to investors investing a minimum of $500 and who have eligible minimum total holdings of $500,000. Investors in W5 Series and W8 Series securities also want to receive a monthly cash flow of 5% or 8% per year, respectively.

Effective September 16, 2022, FW Series and FW5 Series securities were redesignated as F Series and F5 Series securities respectively.

An investor in the Fund may choose among different purchase options that are available under each series. These purchase options are a sales charge purchase option, a redemption charge purchase option,† a low-load purchase option† and a no-load purchase option. The charges under the sales charge purchase option are negotiated by investors with their dealers. The charges under the redemption charge and low-load purchase options are paid to CLIML if an investor redeems securities of the Fund during specific periods. Not all purchase options are available under each series of the Fund, and the charges for each purchase option may vary among the different series. For further details on these purchase options, please refer to the Fund's Simplified Prospectus and Fund Facts.

† The redemption charge purchase option and the low-load purchase option are no longer available for purchase, including those made through systematic purchase plans such as pre-authorized contribution plans. Switching from securities of a Canada Life Fund previously purchased under the redemption charge or low-load purchase options to securities of another Canada Life Fund, under the same purchase option, will continue to be available.
