Information folder addendum

Updates to the
Income (Mackenzie) Fund Facts

The Canada Life Assurance Company

Income (Mackenzie)

Effective October 2020 the investment objective of the Income (Mackenzie) segregated fund is being amended to allow it to invest primarily in fixed income securities and stocks anywhere in the world. Currently, the segregated fund invests primarily in Canadian fixed-income securities and stocks with exposure to foreign stocks.

We believe this expanded investment objective affords greater flexibility for the segregated fund to invest in securities of non-Canadian issuers, in addition to Canadian issuers.

The Income (Mackenzie) Fund Facts, forming part of the Canada Life Freedom Funds and Marketwatch policies information folder originally with London Life, is amended to reflect the change in the “What does this fund invest in?” section. No other changes were made to the segregated fund.

This addendum forms part of your information folder containing important provisions that you should read prior to investing. The information folder contains general information about your policy and includes a summary of the various types of risks that may apply when you invest in a segregated fund. This addendum is not an insurance contract.

The Canada Life Assurance Company (“Canada Life”) is the sole issuer of the individual variable annuity policy described in the information folder.
