A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Canada Life Investment Management Ltd. to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2021

Management Discussion of Fund Performance

June 3, 2021

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments during the period ended March 31, 2021 (the "period"), that have affected the Fund's performance and outlook. If the Fund was established during the period, "period" represents the period from inception to the end of the fiscal period. For information on the Fund's longer-term performance, as applicable, please refer to the *Past Performance* section of the report. In this report, "CLIML" refers to Canada Life Investment Management Ltd., the manager of the Fund. CLIML is wholly owned by The Canada Life Assurance Company ("Canada Life"). CLIML has entered into a fund administration agreement with Mackenzie Financial Corporation ("Mackenzie"), an affiliate of CLIML and Canada Life, for administrative services (see *Recent Developments*). In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

Investment Objective and Strategies

The Fund seeks income while preserving capital and maintaining liquidity by investing primarily in Canadian money market instruments such as treasury bills and short-term government and corporate debt. The Fund seeks to maintain a constant net asset value of \$10 per unit.

Risk

The risks of the Fund remain as discussed in the Fund's Simplified Prospectus.

The Fund is suitable for short-term investors looking for a money market fund to hold as part of their portfolio who have a low tolerance for risk.

Results of Operations

Investment Performance

During the period, the Fund's I Series securities returned 0.7% (after deducting fees and expenses paid by the series). This compares with the FTSE Canada 91-Day T-Bill Index return of 0.2%. All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in the index returns.

At March 31, 2021, the current yield was 0.23% for I Series securities of the Fund. Yields on 91-day treasury bills fell to 0.08% from 0.25% over the period.

The Bank of Canada maintained exceptionally accommodative monetary policy and asset purchase programs to mitigate the economic impact of the COVID-19 pandemic and restore financial market stability. Money market rates dropped to historic lows as a result. By October 2020, markets and the domestic economy had stabilized enough for the Bank of Canada to scale back asset purchases. However, the central bank announced that it did not expect to raise its policy interest rate before 2023.

The Fund outperformed the index. The Fund's return reflects the low interest rates available in the marketplace. The portfolio management team does not attempt to predict interest rate changes, instead focusing on maximizing the yield of investments while minimizing default risk. As a result, the Fund's portfolio was invested primarily in short-term treasury bills and partially in investment grade corporate bonds, which outperformed the index notes.

Over the period, the portfolio management team invested the Fund's cash by introducing exposure to term deposits, provincial short-term discount notes, corporate bonds, bearer deposit discount notes, corporate short-term discount notes and commercial paper discount notes, while eliminating exposure to federal short-term discount notes.

Net Assets

The Fund's NAV increased by 282.1% to \$4.6 million at March 31, 2021, from \$1.2 million at March 31, 2020. This change was composed primarily of \$3.4 million in net sales.

Fees and Expenses

The management expense ratio ("MER") for I Series of 0.04% during the year ended March 31, 2021, was slightly higher than the MER of 0.02% for the year ended March 31, 2020. Other than certain specific fund costs, the management fee and administration fee were paid directly to Mackenzie and CLIML by investors in this series.

Recent Developments

Governments worldwide have enacted various measures in seeking to combat the spread of the COVID-19 virus. These measures have led to significant volatility in equity markets and material disruption to businesses globally, resulting in an economic slowdown.

Ongoing uncertainty regarding the duration and long-term impact of the pandemic and the implementation of vaccination programs, as well as the efficacy of government and central bank monetary and fiscal interventions, may continue to affect the Fund's performance in future periods.

The Bank of Canada announced in March 2021 that its commercial paper, provincial bond and corporate bond buying programs will expire at their scheduled end dates. The central bank described a possible reinvestment phase of its asset purchase program, in which the bank no longer buys new federal government bonds but still reinvests proceeds from maturing assets.

In the portfolio management team's view, fixed income markets may continue to exhibit uncertainty and volatility amid renewed lockdowns that threaten to delay a much-anticipated return to growth. The team further expects the Bank of Canada to gradually start reducing its asset purchase program in the second half of 2021. The team believes issuer selection and credit research will be important to finding attractive opportunities as the economy gains strength.

CANADA LIFE PATHWAYS MONEY MARKET FUND

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2021

Effective January 1, 2021, the Fund's manager and trustee changed from Mackenzie to CLIML following CLIML's receipt of regulatory approval to be registered as an investment fund manager. This change received a positive recommendation from the Mackenzie Funds' Independent Review Committee ("IRC"). Mackenzie continues to provide certain administrative and transfer agency services to the Fund.

Concurrent with this change, Mackenzie replaced GLC Asset Management Group Ltd. as sub-advisor to the Fund.

Also effective January 1, 2021, the Mackenzie Funds' IRC was replaced by the Canada Life Funds' IRC, which consists of the following three members: Steve Geist (Chair), Joanne De Laurentiis and Linda Currie.

Related Party Transactions

Mackenzie relied on a recommendation issued by the Mackenzie Funds' Independent Review Committee to replace Mackenzie with CLIML as the Fund's manager and trustee in January 2021.

Past Performance

The Fund's past performance information is presented in the following chart. It assumes all distributions made by the Fund in the periods presented are reinvested in additional securities of the relevant series of the Fund. The charts do not take into account sales, redemption, distribution or optional charges, or income taxes payable by any investor that would have reduced returns. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes whether paid to you in cash or reinvested in additional securities of the Fund. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax adviser regarding your personal tax situation.

Year-by-Year Returns

The following bar chart presents the performance of Series I of the Fund for each of the fiscal periods shown. The chart shows, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Fund Formation and Series Information*.

(1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences, if any, can be found in the *Notes to Financial Statements*.

(2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.

(3) Distributions were paid in cash/reinvested in additional securities of the Fund, or both.

(1) This information is provided as at the end of the fiscal period shown.

(2) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs, income taxes and withholding taxes) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period. If in the period a series was established or reinstated, the management expense ratio is annualized from the date of inception or reinstatement. Mackenzie/CLIML may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.

Management Fees

The management fee for each series is calculated and accrued daily as a percentage of its NAV and payable quarterly directly by investors and not by the Fund. These management fees were received by Mackenzie, until the change in manager on January 1, 2021, and used in part to pay GLC Asset Management Group Ltd., an affiliate of Mackenzie, for investment advisory services, including managing the investment portfolio of the Fund and/or the underlying fund(s), as applicable, including providing investment analysis and recommendations, making investment decisions and making brokerage arrangements for the purchase and sale of the investment portfolio.

Subsequent to the change in manager, these management fees were received by CLIML and used in part to pay Mackenzie for investment advisory services.

Quadrus Investment Services Ltd. ("Quadrus"), an affiliate of CLIML and Mackenzie, is the principal distributor for the Fund. Until the change in manager, Canada Life provided certain services to Mackenzie in connection with Mackenzie's portfolio management activities and paid certain administrative costs. As such, Quadrus and Canada Life received a portion of the management fees that investors in the Fund paid directly to Mackenzie. Approximately 77% of the total management fees that Mackenzie received in connection with the Canada Life Mutual Funds until January 1, 2021 was paid under these arrangements.

Subsequent to the change in manager, Quadrus receives a portion of the management fees that investors in the Fund pay directly to CLIML.
