

CANADA LIFE GLOBAL MULTI-SECTOR BOND FUND (T. ROWE PRICE)

Annual Management Report of Fund Performance

For the Period Ended March 31, 2021

This Annual Management Report of Fund Performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You may obtain a copy of the annual financial statements, at no cost, by contacting us using one of the methods noted under Fund Formation and Series Information, by visiting our website at www.canadalifeinvest.ca or by visiting the SEDAR website at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies, procedures or proxy voting disclosure record or quarterly portfolio disclosure. For more information, please refer to the Fund's Simplified Prospectus, Annual Information Form and Fund Facts, which may also be obtained, at no cost, using any of the methods outlined above.

For the Fund's current net asset values per security and for more recent information on general market events, please visit our website.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Canada Life Investment Management Ltd. to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

CANADA LIFE GLOBAL MULTI-SECTOR BOND FUND (T. ROWE PRICE)

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Period Ended March 31, 2021

Management Discussion of Fund Performance

June 3, 2021

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments during the period ended March 31, 2021 (the "period"), that have affected the Fund's performance and outlook. If the Fund was established during the period, "period" represents the period from inception to the end of the fiscal period. For information on the Fund's longer-term performance, as applicable, please refer to the *Past Performance* section of the report. In this report, "CLIML" refers to Canada Life Investment Management Ltd., the manager of the Fund. CLIML is wholly owned by The Canada Life Assurance Company ("Canada Life"). CLIML has entered into a fund administration agreement with Mackenzie Financial Corporation ("Mackenzie"), an affiliate of CLIML and Canada Life, for administrative services (see *Recent Developments*). In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

Investment Objective and Strategies

The Fund seeks high income and return by investing primarily in global fixed income securities with a focus on the potential for risk-adjusted returns.

Risk

The risks of the Fund remain as discussed in the Fund's Simplified Prospectus.

The Fund is suitable for medium-term investors looking for a global fixed income fund to hold as part of their portfolio, who can handle the volatility of bond markets and who have a low to medium tolerance for risk.

Results of Operations

Investment Performance

The performance of the Fund's Q Series securities is discussed below. The performance of all series is shown in the *Past Performance* section of the report. Where series returns differ, it is primarily because different levels of fees and expenses were charged to each series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Fund Formation and Series Information* section of this report for the varying management and administration fees payable by each series.

From the Fund's inception on September 9, 2020, to March 31, 2021, the Fund's Q Series securities returned 0.8% (after deducting fees and expenses paid by the series). This compares with a return of -1.3% for the Bloomberg Barclays Multiverse (Hedged) Index for the same period. All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in the index returns.

Accommodative monetary policies across Group of Ten ("G10") countries and fiscal relief supported economic recovery over the period. The price of risk assets, including high-yield bonds, was further supported by the

development and rapid rollout of vaccines, as well as the U.S. presidential election results. Corporate bonds appreciated while government bonds depreciated, as interest rates rose and inflation expectations increased.

The Fund outperformed the index, with underweight exposure to foreign government bonds, as well as overweight exposure to global high-yield bonds and corporate bonds in emerging markets, contributing to performance as credit spreads (the difference in yield between corporate bonds and government bonds of similar maturity) tightened. Shorter duration positions in the United Kingdom, Canada and Japan contributed. Positions in the United States, France and Italy that reflected the break-even inflation rate (the point at which market expectations match for yields on nominal and inflation-protected bonds of the same maturity) also contributed to performance.

Conversely, underweight exposure to global investment grade corporate bonds detracted from performance. A longer-duration position in Australia also detracted as Australian government bond yields rose sharply. Longer-duration positions in Singapore and Malaysia, along with holdings in higher-risk bonds in South Africa and Mexico, also detracted as interest rates rose.

Net Assets

From its inception on September 9, 2020, to March 31, 2021, the Fund experienced \$0.2 million in net income (including dividend and interest income) from investment performance, after deducting fees and expenses, and \$59.3 million in net sales.

See *Other Related Party Transactions* for the percentage of the Fund's NAV owned by related parties. As a result of these investments, the Fund is subject to large transaction risk as discussed in the Prospectus. CLIML manages this risk to reduce the possibility of any adverse effect on the Fund or on its investors, through such processes as requiring advance notice of large redemptions.

Fees and Expenses

The annualized management expense ratio ("MER") for Q Series was 2.04% since inception. The MERs (before and after waivers or absorptions, if any) for all series are presented in the *Financial Highlights* section of this report.

Recent Developments

Governments worldwide have enacted various measures in seeking to combat the spread of the COVID-19 virus. These measures have led to significant volatility in equity markets and material disruption to businesses globally, resulting in an economic slowdown.

Ongoing uncertainty regarding the duration and long-term impact of the pandemic and the implementation of vaccination programs, as well as the efficacy of government and central bank monetary and fiscal interventions, may continue to affect the Fund's performance in future periods.

The portfolio management team expects that amid strengthening economic growth and inflationary expectations, bond yields may rise while yield curves steepen across global markets in the short term but then stabilize, particularly in the United States. In the team's opinion, fiscal stimulus has been priced into the market for U.S. Treasury bonds, alleviating pressure on other asset classes. In the team's view, valuations of higher-risk assets

CANADA LIFE GLOBAL MULTI-SECTOR BOND FUND (T. ROWE PRICE)

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Period Ended March 31, 2021

have modestly improved as a result of investor expectations that higher yields on U.S. Treasury bonds and economic outperformance in the United States may dampen the outlook for many global assets.

Effective January 1, 2021, the Fund's manager and trustee changed from Mackenzie to CLIML following CLIML's receipt of regulatory approval to be registered as an investment fund manager. This change received a positive recommendation from the Mackenzie Funds' Independent Review Committee ("IRC"). Mackenzie continues to provide certain administrative and transfer agency services to the Fund.

Also effective January 1, 2021, the Mackenzie Funds' IRC was replaced by the Canada Life Funds' IRC, which consists of the following three members: Steve Geist (Chair), Joanne De Laurentiis and Linda Currie.

Related Party Transactions

The following arrangements result in fees paid by the Fund to CLIML or to companies affiliated with the Fund.

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to Mackenzie for the period from inception to December 31, 2020 ("the pre-manager change period"), and to CLIML thereafter at the annual rates specified under *Fund Formation and Series Information* in this report and as more fully described in the Prospectus. After the pre-manager change period, CLIML paid the administration fee to Mackenzie for providing day-to-day administration services, including financial reporting, communications to investors and securityholder reporting, maintaining the books and records of the Fund, NAV calculations, and processing orders for securities of the Fund. In return for the administration fees, Mackenzie pays all costs and expenses (other than certain specified fund costs) required to operate the Fund that are not included in management fees. See also *Management Fees*.

Other Related Party Transactions

Investment funds managed by CLIML and segregated funds managed by Canada Life and its subsidiaries may invest in the Fund on a prospectus-exempt basis in accordance with the investment objectives of those funds. At March 31, 2021, funds managed by CLIML and segregated funds managed by Canada Life owned 16.1% of the Fund's NAV. All related party transactions are based on the NAV per security on each transaction day.

At March 31, 2021, Canada Life had an investment of \$40.4 million in the Fund (67.8% of the Fund's NAV). If Canada Life decides to redeem its investment, it will do so in a manner that reduces the possibility of adverse effects on the Fund.

Mackenzie relied on a recommendation issued by the Mackenzie Funds' Independent Review Committee to replace Mackenzie with CLIML as the Fund's manager and trustee in January 2021.

Past Performance

The Fund's past performance information is presented in the following charts and table. It assumes all distributions made by the Fund in the periods presented are reinvested in additional securities of the relevant series of the Fund. The charts and table do not take into account sales, redemption, distribution or optional charges, or income taxes payable by any investor that would have reduced returns. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes whether paid to you in cash or reinvested in additional securities of the Fund. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

Year-by-Year Returns

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Fund Formation and Series Information*.

Annual Compound Returns

The following table compares the historical annual compound total returns for each series of the Fund with the relevant index or indices shown below for each of the periods ended March 31, 2021. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in these performance figures.

All index returns are calculated in Canadian dollars on a total return basis, meaning that all dividend payments, interest income accruals and interest payments are reinvested.

Bloomberg Barclays Multiverse
(Hedged) Index

n/a n/a n/a n/a Note 3

The Bloomberg Barclays Multiverse (Hedged) Index is a broad-based measure of the global fixed income market. The index represents the union of the Global Aggregate Index, a broad-based measure of the global investment grade fixed-rate debt markets, and the Global High-Yield Index, a broad-based measure of the global high-yield fixed income markets, and captures securities in all eligible currencies. The return of this index is calculated with a hedge to foreign currencies, which limits the impact of foreign exchange rate fluctuations on Canadian-dollar returns.

- (1) The percentage return differs for each series because the management fee rate and expenses differ for each series.
- (2) The return since inception for each series will differ when the inception date differs and is only provided when a series has been active for a period of less than 10 years.
- (3) The return of the Bloomberg Barclays Multiverse (Hedged) Index since inception for each series is -1.3%.

- (1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences, if any, can be found in the *Notes to Financial Statements*.
- (2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.
- (3) Distributions were paid in cash/reinvested in additional securities of the Fund, or both.

- (1) This information is provided as at the end of the fiscal period shown.
- (2) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs, income taxes and withholding taxes) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period. If in the period a series was established or reinstated, the management expense ratio is annualized from the date of inception or reinstatement. Mackenzie/CLIML may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.
- (3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
- (4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a fund's portfolio turnover rate in a period, the greater the trading costs payable by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by Mackenzie in the pre-manager change period, and by CLIML thereafter, to pay for the costs of managing the investment portfolio of the Fund and/or the underlying fund(s), as applicable, including providing investment analysis and recommendations, making investment decisions and making brokerage arrangements for the purchase and sale of the investment portfolio.

Quadrus Investment Services Ltd. ("Quadrus"), an affiliate of CLIML and Mackenzie, is the principal distributor for the Fund and is paid trailing commissions out of the management fees. In the pre-manager change period, Canada Life provided certain services to Mackenzie in connection with Mackenzie's portfolio management activities. Canada Life was responsible for paying certain administrative costs and all sales commissions, trailing commissions and any other compensation (collectively, "distribution-related payments") to registered dealers whose clients invest in the Fund. As such, Quadrus and Canada Life received a portion of the management fees that the Fund paid to Mackenzie. Approximately 77% of the total management fees that Mackenzie received from the Canada Life Mutual Funds during the pre-manager change period was paid under these arrangements.

Subsequent to the change in manager, CLIML used the management fees to fund distribution-related payments to Quadrus and to registered dealers and brokers whose clients invest in the Fund.

Mackenzie and CLIML used approximately 38% of the total management fee revenues received from all Canada Life Mutual Funds during the year to fund distribution-related payments to registered dealers and brokers. In comparison, such distribution-related payments for the Fund represented on average 32% of the management fees paid by all applicable series of the Fund during the period. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions and sales commissions paid for that series. Because the Fund is in its first year, the percentage of management fees used to fund such distribution-related payments is not representative.

CANADA LIFE GLOBAL MULTI-SECTOR BOND FUND (T. ROWE PRICE)

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Period Ended March 31, 2021

Fund Formation and Series Information

The Fund may have undergone a number of changes, such as a reorganization or a change in manager, mandate or name. A history of the major changes affecting the Fund in the last 10 years can be found in the Fund's Annual Information Form.

Date of Formation August 14, 2020

The Fund may issue an unlimited number of securities of each series. The number of issued and outstanding securities of each series is disclosed in *Financial Highlights*.

Series Distributed by Quadrus Investment Services Ltd. (255 Dufferin Ave., London, Ontario, N6A 4K1; 1-888-532-3322; www.canadalifeinvest.ca)

Q Series securities are offered to investors investing a minimum of \$500.

H Series securities are offered to investors investing a minimum of \$500, who are enrolled in a Quadrus-sponsored fee-for-service or wrap program and who are subject to an asset-based fee.

HW Series securities are offered to high net worth investors investing a minimum of \$100,000 and who have eligible minimum total holdings of \$500,000, who are enrolled in a Quadrus-sponsored fee-for-service or wrap program and who are subject to an asset-based fee.

QF Series securities are offered to retail investors investing a minimum of \$500. Investors are required to negotiate their advisor service fee, which cannot exceed 1.25%, with their financial advisor.

QFW Series securities are offered to high net worth investors investing a minimum of \$100,000 and who have eligible minimum total holdings of \$500,000.

Series R securities are offered only to other funds managed by CLIML on a non-prospectus basis in connection with fund-of-fund arrangements.

An investor in the Fund may choose among different purchase options that are available under each series. These purchase options are a sales charge purchase option, a redemption charge purchase option, a low-load purchase option and a no-load purchase option. The charges under the sales charge purchase option are negotiated by investors with their dealers. The charges under the redemption charge and low-load purchase options are paid to CLIML if an investor redeems securities of the Fund during specific periods. Not all purchase options are available under each series of the Fund, and the charges for each purchase option may vary among the different series. For further details on these purchase options, please refer to the Fund's Simplified Prospectus and Fund Facts.
