A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Canada Life Investment Management Ltd. to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2021

Management Discussion of Fund Performance

June 3, 2021

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments during the period ended March 31, 2021 (the "period"), that have affected the Fund's performance and outlook. If the Fund was established during the period, "period" represents the period from inception to the end of the fiscal period. For information on the Fund's longer-term performance, as applicable, please refer to the *Past Performance* section of the report. In this report, "CLIML" refers to Canada Life Investment Management Ltd., the manager of the Fund. CLIML is wholly owned by The Canada Life Assurance Company ("Canada Life"). CLIML has entered into a fund administration agreement with Mackenzie Financial Corporation ("Mackenzie"), an affiliate of CLIML and Canada Life, for administrative services (see *Recent Developments*). In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

Investment Objective and Strategies

The Fund seeks long-term capital growth and income by investing primarily in other mutual funds with a mix of investment styles that invest in equities and fixed income securities, although it may also invest in securities directly. It generally holds 55%–65% of its assets in equities and 35%–45% in fixed income securities.

Risk

The risks of the Fund remain as discussed in the Fund's Simplified Prospectus.

The Fund is suitable for medium- to long-term investors looking for a balanced fund to hold as part of their portfolio, who can handle the volatility of stock and bond markets, and who have a low to medium tolerance for risk.

Results of Operations

Investment Performance

The performance of the Fund's Q Series (formerly *Quadrus Series*) securities is discussed below. The performance of all series is shown in the *Past Performance* section of the report. Where series returns differ, it is primarily because different levels of fees and expenses were charged to each series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Fund Formation and Series Information* section of this report for the varying management and administration fees payable by each series.

During the period, the Fund's Q Series securities returned 19.0% (after deducting fees and expenses paid by the series). This compares with a return of 23.5% for a blended index composed of a 36% weighting in the Fund's broad-based index, the MSCI World (Net) Index (returned 37.3%), a 24% weighting in the S&P/TSX Composite Index (returned 44.2%) and a 40% weighting in the FTSE Canada Universe Bond Index (returned 1.6%). All

index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in the index returns.

Global equity markets, including Canada's, rebounded to all-time highs following the pandemic-driven collapse in March 2020. News of successful vaccine development helped lift stocks expected to benefit from economic reopening. However, waves of COVID-19 infections and hospitalizations in the second half of the period slowed reopening in many regions. In response, governments and central banks continued to provide significant stimulus and accommodative monetary policies to boost struggling economies. The Bank of Canada kept its policy interest rate at 0.25% and made substantial bond purchases. Toward the end of the period, yields on 10-year government bonds increased to pre-pandemic levels. Currency movements reduced returns in Canadian dollar terms.

Within the MSCI World (Net) Index, Austria, Sweden and the Netherlands were the strongest-performing countries in Canadian dollar terms, while Switzerland, Portugal and New Zealand were the weakest. The consumer discretionary, materials and information technology sectors were the strongest performers, while utilities, consumer staples and health care were the weakest.

Within the S&P/TSX Composite Index, consumer discretionary, information technology and health care were the strongest sectors, while communication services, consumer staples and utilities were the weakest.

The following discussion reflects the Fund's allocation decisions and the activities and performance of its underlying investment funds and other directly held securities. The Fund underperformed the broad-based index because of its allocation to fixed income, which underperformed equities in the period. Given the Fund's mandate, the return of the blended index is a more meaningful comparison.

The Fund underperformed the blended index, with its equity portfolio detracting from performance.

Within the equity portion of the Fund, stock selection and an underweight position in the information technology sector detracted from performance, as did stock selection in health care. On a country basis, stock selection in Canada, as well as stock selection and an underweight position in the United States, detracted. Conversely, stock selection in the materials sector and in Japan contributed to performance, as did holdings in Taiwan.

Within the fixed income portion of the Fund, holdings in non-Canadian bonds detracted from performance. Conversely, an overweight position in corporate bonds and underweight position in government bonds contributed to performance as credit spreads (the difference in yield between corporate and government bonds of similar maturity) narrowed for most of the period.

Hedging of foreign currency exposure contributed to performance as a result of the overall depreciation of the hedged currencies relative to the Canadian dollar.

Over the period, exposure to Canada decreased as the equity portfolio management team strategically broadened the geographical exposure of the portfolio, particularly in emerging markets, to better diversify the Fund's sources of risk and return.

CANADA LIFE BALANCED FOLIO FUND

(Formerly *Balanced Folio Fund*)

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2021

Changes to the portfolio included new positions in Canada Life Tactical Bond Fund (Portico), Canada Life US Equity Fund (London Capital), Canada Life Pathways International Equity Fund, Canada Life Pathways Global Multi Sector Bond Fund, Mackenzie Emerging Markets Opportunities Fund, Canada Life Pathways Emerging Markets Equity Fund, Canada Life Mid Cap Canada Fund (GWLIM), Canada Life International Opportunity Fund (JPMorgan) and Canada Life American Equity Fund (Beutel Goodman). The positions in Canada Life Core Plus Bond Fund (Portico), Canada Life International Core Equity Fund (JPMorgan), Canada Life Canadian Value Fund (FGP) and Mackenzie Unconstrained Fixed Income Fund were eliminated.

Net Assets

The Fund's NAV increased by 18.8% to \$619.1 million at March 31, 2021, from \$521.3 million at March 31, 2020. This change was composed primarily of \$101.4 million in net income (including dividend and interest income) from investment performance, after deducting fees and expenses, \$3.4 million in net redemptions, and \$0.3 million in cash distributions.

Fees and Expenses

The management expense ratio ("MER") for Q Series of 2.44% during the year ended March 31, 2021, was unchanged from the MER for the year ended March 31, 2020. The MERs (before and after waivers or absorptions, if any) for all series are presented in the *Financial Highlights* section of this report.

Recent Developments

Governments worldwide have enacted various measures in seeking to combat the spread of the COVID-19 virus. These measures have led to significant volatility in equity markets and material disruption to businesses globally, resulting in an economic slowdown.

Ongoing uncertainty regarding the duration and long-term impact of the pandemic and the implementation of vaccination programs, as well as the efficacy of government and central bank monetary and fiscal interventions, may continue to affect the Fund's performance in future periods.

The portfolio management team responsible for asset allocation decisions for the Fund expects global economic activity to continue its recovery. The team believes that ongoing monetary and fiscal stimulus ultimately supports rising prices for risk assets such as equities and high-yield bonds, although returns may fall below historical averages following currently elevated valuations.

Within equities, the team believes the Fund is well positioned to benefit from the continuing strength of both value- and growth-oriented stocks. In the team's view, the portfolio's diversification, along with exposure to selected small- and mid-capitalization stocks, should support performance in a variety of market environments. The Fund ended the period with underweight exposure to North America.

Within fixed income, the team anticipates that yields may fall in the near term following a sharp rise over the period, particularly among mid- and long-term bonds. However, the team believes expectations of higher inflation will lead to higher interest rates. Against that backdrop, the Fund ended the period with a shorter duration than the FTSE Canada Universe Bond Index and overweight exposure to corporate bonds.

On August 14, 2020, the Fund was renamed Canada Life Balanced Folio Fund. On the same date, certain underlying funds were also renamed. Dividend Fund (GWLIM) was renamed Canada Life Dividend Fund (GWLIM). U.S. Value Fund (Putnam) was renamed Canada Life US Value Fund (Putnam). Global Dividend Equity Fund (Setanta) was renamed Canada Life Global Dividend Equity Fund (Setanta). Canadian Growth Fund (GWLIM) was renamed Canada Life Canadian Growth Fund (GWLIM). International Bond Fund (CLI) was renamed Canada Life International Bond Fund (CLI). Canadian Equity Fund (Laketon) was renamed Canada Life Canadian Equity Fund (Laketon). Corporate Bond Fund (Portico) was renamed Canada Life Corporate Bond Fund (Portico).

Effective January 1, 2021, the Fund's manager and trustee changed from Mackenzie to CLIML following CLIML's receipt of regulatory approval to be registered as an investment fund manager. This change received a positive recommendation from the Mackenzie Funds' Independent Review Committee ("IRC"). Mackenzie continues to provide certain administrative and transfer agency services to the Fund.

Concurrent with this change, GLC Asset Management Group Ltd. ceased to be the sub-advisor to the Fund. At the same time, Mackenzie replaced GLC Asset Management Group Ltd. as sub-advisor to underlying funds Canada Life Tactical Bond Fund (Portico), Canada Life Corporate Bond Fund (Portico), Canada Life Dividend Fund (GWLIM), Canada Life Canadian Growth Fund (GWLIM), Canada Life Mid Cap Canada Fund (GWLIM), Canada Life US Equity Fund (London Capital) and Canada Life Canadian Equity Fund (Laketon).

Also effective January 1, 2021, the Mackenzie Funds' IRC was replaced by the Canada Life Funds' IRC, which consists of the following three members: Steve Geist (Chair), Joanne De Laurentiis and Linda Currie.

Effective February 24, 2021, Martin Taylor retired as a member of the Mackenzie Funds' Independent Review Committee.

Related Party Transactions

The following arrangements result in fees paid by the Fund to CLIML or to companies affiliated with the Fund.

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to Mackenzie for the period from April 1 to December 31, 2020 ("the pre-manager change period"), and to CLIML thereafter at the annual rates specified under *Fund Formation and Series Information* in this report and as more fully described in the Prospectus. After the pre-manager change period, CLIML paid the administration fee to Mackenzie for providing day-to-day administration services, including financial reporting, communications to investors and securityholder reporting, maintaining the books and records of the Fund, NAV calculations, and processing orders for securities of the Fund. In return for the administration fees, Mackenzie pays all costs and expenses (other than certain specified fund costs) required to operate the Fund that are not included in management fees. See also *Management Fees*.

Other Related Party Transactions

Investment funds managed by CLIML and segregated funds managed by Canada Life and its subsidiaries may invest in the Fund on a prospectus-exempt basis in accordance with the investment objectives of those funds. At March 31, 2021, funds managed by CLIML and segregated funds managed by Canada Life owned 6.3% of the Fund's NAV. All related party transactions are based on the NAV per security on each transaction day.

At March 31, 2021, Canada Life had an investment of \$14,127 in the Fund (less than 0.1% of the Fund's NAV).

Mackenzie relied on a recommendation issued by the Mackenzie Funds' Independent Review Committee to replace Mackenzie with CLIML as the Fund's manager and trustee in January 2021.

Past Performance

The Fund's past performance information is presented in the following charts and table. It assumes all distributions made by the Fund in the periods presented are reinvested in additional securities of the relevant series of the Fund. The charts and table do not take into account sales, redemption, distribution or optional charges, or income taxes payable by any investor that would have reduced returns. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes whether paid to you in cash or reinvested in additional securities of the Fund. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

Year-by-Year Returns

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Fund Formation and Series Information*.

* Broad-based index

The blended index is composed of 36% MSCI World (Net) Index, 24% S&P/TSX Composite Index and 40% FTSE Canada Universe Bond Index.

The MSCI World (Net) Index represents large- and mid-cap equity performance across 23 developed markets. Net total returns are calculated after the deduction of withholding tax from the foreign income and dividends of its constituents.

The S&P/TSX Composite Index is a capitalization weighted index that represents some of the largest float adjusted stocks trading on the Toronto Stock Exchange.

The FTSE Canada Universe Bond Index is a broad measure of Canadian bonds with terms to maturity of more than one year. It includes federal, provincial, municipal and corporate bonds rated "BBB" or higher.

- (1) The percentage return differs for each series because the management fee rate and expenses differ for each series.
- (2) The return since inception for each series will differ when the inception date differs and is only provided when a series has been active for a period of less than 10 years.

(1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences, if any, can be found in the *Notes to Financial Statements*.

(2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.

(3) Distributions were paid in cash/reinvested in additional securities of the Fund, or both.

- (1) This information is provided as at the end of the fiscal period shown.
- (2) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs, income taxes and withholding taxes) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period. If in the period a series was established or reinstated, the management expense ratio is annualized from the date of inception or reinstatement. Mackenzie/CLIML may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.
- (3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
- (4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a fund's portfolio turnover rate in a period, the greater the trading costs payable by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by Mackenzie in the pre-manager change period, and by CLIML thereafter, to pay for the costs of managing the investment portfolio of the Fund and/or the underlying fund(s), as applicable, including providing investment analysis and recommendations, making investment decisions and making brokerage arrangements for the purchase and sale of the investment portfolio.

Quadrus Investment Services Ltd. ("Quadrus"), an affiliate of CLIML and Mackenzie, is the principal distributor for the Fund and is paid trailing commissions out of the management fees. In the pre-manager change period, Canada Life provided certain services to Mackenzie in connection with Mackenzie's portfolio management activities. Canada Life was responsible for paying certain administrative costs and all sales commissions, trailing commissions and any other compensation (collectively, "distribution-related payments") to registered dealers whose clients invest in the Fund. As such, Quadrus and Canada Life received a portion of the management fees that the Fund paid to Mackenzie. Approximately 77% of the total management fees that Mackenzie received from the Canada Life Mutual Funds during the pre-manager change period was paid under these arrangements.

Subsequent to the change in manager, CLIML used the management fees to fund distribution-related payments to Quadrus and to registered dealers and brokers whose clients invest in the Fund.

Mackenzie and CLIML used approximately 38% of the total management fee revenues received from all Canada Life Mutual Funds during the year to fund distribution-related payments to registered dealers and brokers. In comparison, such distribution-related payments for the Fund represented on average 41% of the management fees paid by all applicable series of the Fund during the year. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions and sales commissions paid for that series. The higher proportion of distribution-related payments is primarily attributable to sales commissions related to gross sales of redemption charge securities of the Fund.

An investor in the Fund may choose among different purchase options that are available under each series. These purchase options are a sales charge purchase option, a redemption charge purchase option, a low-load purchase option and a no-load purchase option. The charges under the sales charge purchase option are negotiated by investors with their dealers. The charges under the redemption charge and low-load purchase options are paid to CLIML if an investor redeems securities of the Fund during specific periods. Not all purchase options are available under each series of the Fund, and the charges for each purchase option may vary among the different series. For further details on these purchase options, please refer to the Fund's Simplified Prospectus and Fund Facts.
