A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Canada Life Investment Management Ltd. to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2025

Management Discussion of Fund Performance

June 4, 2025

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments that have affected the performance and outlook of Canada Life Aggressive Portfolio (the "Fund") in the financial year ended March 31, 2025 (the "period"). If the Fund was established during the period, "period" represents the period since inception.

In this report, "CLIML" and "the Manager" refer to Canada Life Investment Management Ltd., which is an indirect, wholly-owned subsidiary of The Canada Life Assurance Company ("Canada Life"). The Manager has entered into a fund administration agreement with Mackenzie Financial Corporation ("Mackenzie"), an affiliate of the Manager and Canada Life, for administrative services. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

Please read A Note on Forward-Looking Statements on the first page of this document.

Investment Objective and Strategies

The Fund seeks long-term capital growth by investing primarily in other mutual funds with a mix of investment styles that invest in equities, although it may also invest in securities directly. It generally holds 90%-100% of its assets in equities and 0%-10% in fixed income securities, including cash and cash equivalents.

Risk

The risks of the Fund remain as discussed in the Fund's Simplified Prospectus.

The Fund is suitable for medium- to long-term investors looking for an equity fund to hold as part of their portfolio, who can handle the volatility of stock markets and who have a medium tolerance for risk.

Results of Operations

Investment Performance

The performance of all series in the current and previous periods is shown in the *Past Performance* section of the report. Performance will vary by series primarily because fees and expenses differ between series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Fund Formation and Series Information* section of this report for the varying management and administration fees payable by each series. The following comparison to market indices is intended to help investors understand the Fund's performance relative to the general performance of the markets. However, the Fund's mandate may be different from that of the indices shown.

During the period, the Fund's A Series securities returned 8.9% (after deducting fees and expenses paid by the series). This compares with a return of 13.7% for the Fund's broad-based index, the MSCI World (Net) Index, and a return of 14.5% for a blended index composed of a 70% weighting in the MSCI AC (All Country) World (Net) Index (returned 13.9%) and a 30% weighting in the S&P/TSX Composite Index (returned 15.8%). All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in the index returns.

Global equity market performance was mixed over the period in response to shifting expectations regarding central bank monetary policy and geopolitical tensions. Rate cuts by the U.S. Federal Reserve and the European Central Bank helped investor sentiment in the United States and Europe. Currency movements generally boosted returns in Canadian dollar terms. Canadian equities rose despite volatility. Record-high gold prices supported mining stocks, while declining interest rates helped bank stocks. In response to weak economic data, the Bank of Canada reduced its policy rate seven times to 2.75% from 5.00%.

Within the MSCI AC (All Country) World (Net) Index, Africa and the Middle East and Asia Pacific (ex Japan) were the best-performing regions in Canadian dollar terms, while Latin America and Japan were the weakest. The financials, utilities and communication services sectors were the strongest performers, while materials, health care and energy were the weakest.

Within the S&P/TSX Composite Index, materials, financials and information technology were the best-performing sectors, while health care, communication services and industrials were the weakest.

The Fund underperformed the broad-based index, with holdings in emerging markets equities and small-capitalization stocks detracting from performance. Given the Fund's mandate, the return of the blended index is a more meaningful comparison.

The Fund underperformed the blended index. The Fund's asset allocation detracted from performance, as did the selection of underlying funds within each asset class.

Among the underlying funds in the portfolio, the largest detractors from relative performance were Canada Life Global Small-Mid Cap Equity Fund, Canada Life Global Growth Opportunities Fund and Canada Life Emerging Markets Concentrated Equity Fund. Canada Life Emerging Markets Concentrated Equity Fund was eliminated from the portfolio in the period, while Canada Life Global Small-Mid Cap Equity Fund and Canada Life Global Growth Opportunities Fund respectively represented 4.9% and 8.7% of net assets at period-end.

The largest contributors to relative performance were Canada Life Emerging Markets Large Cap Equity Fund, Canada Life International Value Fund and Canada Life Foreign Equity Fund (respectively representing 7.6%, 6.0% and 4.6%).

Other changes to the portfolio included new allocations to Canada Life Canadian Value Fund, Canada Life Emerging Markets Large Cap Equity Fund and Canada Life Global Opportunities+ Fund, and the elimination of the allocations to Mackenzie Canadian Equity Fund, Mackenzie Emerging Markets Opportunities Fund, Mackenzie Global Resource Fund and Canada Life Canadian Core Bond Fund.

Net Assets

The Fund's net assets decreased by 1.1% during the period to \$315.4 million. This change was composed primarily of \$29.1 million in net income (including any interest and/or dividend income) from investment performance, after deducting fees and expenses, and a decrease of \$32.6 million due to net securityholder activity (including sales, redemptions and cash distributions).

Fees and Expenses

The management expense ratio ("MER") for each series during the year ended March 31, 2025, was generally similar to the MER for the year ended March 31, 2024. Total expenses paid vary from period to period mainly as a result of changes in average assets in each series. The MERs for all series are presented in the *Financial Highlights* section of this report.

Recent Developments

The portfolio management team believes that economic growth will slow but remain positive in 2025 and investment opportunities may emerge as policy uncertainty clears. The team adjusted the portfolio to correspond to lower expectations for U.S. equities amid escalating trade tensions. However, historical precedent suggests that when pessimistic views on growth are driven by trade concerns, they often reverse once underlying economic data stabilizes. In response to ongoing market volatility, the team focused on sector diversification to mitigate risk while maintaining long-term exposure to cyclical recovery opportunities. The team maintains a positive outlook on equities, and believes that rising trade protectionism underscores the importance of a globally diversified, factor-aware investment strategy.

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2025

Effective July 17, 2024, IPC Investment Corporation and IPC Securities Corporation were added as principal distributors for the Fund, alongside Quadrus Investment Services Ltd.

Effective October 1, 2024, the manager, trustee, portfolio manager and promoter of the Fund, CLIML, amalgamated with Counsel Portfolio Services Inc., whereupon the amalgamated company, named CLIML, continued to serve as the manager, trustee, portfolio manager and promoter of the Fund. This is not a material change for the Fund.

The following changes affect underlying funds:

- Effective July 17, 2024, Canada Life Canadian Small-Mid Cap Fund was renamed Canada Life Canadian Focused Small-Mid Cap Fund.
- Effective November 22, 2024, Mackenzie replaced Foyston, Gordon & Payne Inc. as sub-advisor to Canada Life Canadian Value Fund.
- Effective November 26, 2024, Canada Life Global Small-Mid Cap Growth Fund was renamed Canada Life Global Small-Mid Cap Equity Fund, and Fiduciary Trust Company of Canada, Royce & Associates, LP and Franklin Advisers, Inc. replaced Mackenzie as sub-advisors to the fund.

Related Party Transactions

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to the Manager at the annual rates specified under *Fund Formation and Series Information* in this report and as more fully described in the Simplified Prospectus. In return for the administration fees, the Manager pays all costs and expenses (other than certain specified fund costs) required to operate the Fund that are not included in management fees. See also *Management Fees*.

Other Related Party Transactions

Certain other investment funds managed by CLIML and segregated fund policies issued by Canada Life may invest in the Fund on a prospectus-exempt basis in accordance with the investment objectives of those funds. At March 31, 2025, these other investment funds and segregated funds owned 1.1% of the Fund's NAV. All related party transactions are based on the NAV per security on each transaction day. As a result of these investments, the Fund may be subject to large transaction risk as discussed in the Fund's Simplified Prospectus. CLIML manages this risk to reduce the possibility of any adverse effect on the Fund or on its investors, through such processes as requiring advance notice of large redemptions.

The Fund did not rely on an approval, positive recommendation or standing instruction from the Canada Life Funds' Independent Review Committee with respect to any related party transactions in the period.

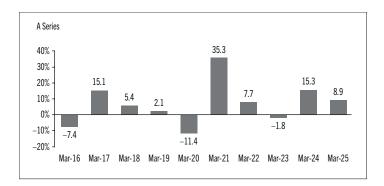

Past Performance

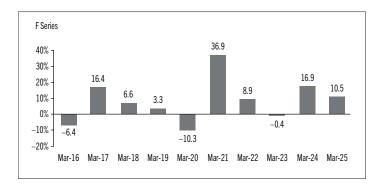

The Fund's performance information assumes all distributions made by the Fund in the periods presented are reinvested in additional securities of the relevant series of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges, or income taxes payable by any investor that would have reduced returns or performance. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

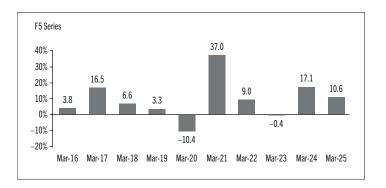

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes whether paid to you in cash or reinvested in additional securities of the Fund. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

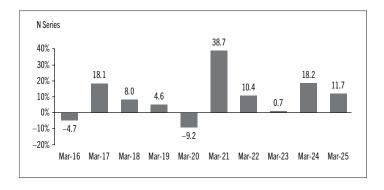

Year-by-Year Returns

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Fund Formation and Series Information*.

Annual Compound Returns

The following table compares the historical annual compound total returns for each series of the Fund with the relevant index or indices shown below for each of the periods ended March 31, 2025. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in these performance figures.

All index returns are calculated in Canadian dollars on a total return basis, meaning that all dividend payments, interest income accruals and interest payments are reinvested.

^{*} Broad-based index

The blended index is composed of 70% MSCI AC (All Country) World (Net) Index and 30% S&P/TSX Composite Index.

The MSCI World (Net) Index represents large- and mid-cap equity performance across 23 developed markets. Net total returns are calculated after the deduction of withholding tax from the foreign income and dividends of its constituents.

The MSCI AC (All Country) World (Net) Index represents large- and mid-cap equity performance across 23 developed and 24 emerging markets. Net total returns are calculated after the deduction of withholding tax from the foreign income and dividends of its constituents.

The S&P/TSX Composite Index is a capitalization weighted index that represents some of the largest float adjusted stocks trading on the Toronto Stock Exchange.

- (1) The percentage return differs for each series because the management fee rate and expenses differ
- (2) The return since inception for each series will differ when the inception date differs and is only provided when a series has been active for a period of less than 10 years.
- (3) The return of the blended index since inception for each applicable series is as follows: F5 Series 11.3%, N5 Series 11.3%, QF Series 11.1%, QFS Series 11.1%, QFW Series 10.5%, QFW5 Series 10.5%, W5 Series 11.3%, W8 Series 11.1%.

- (1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences, if any, can be found in the *Notes to Financial Statements*.
- (2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.
- (3) Distributions were paid in cash/reinvested in additional securities of the Fund, or both.

- (1) This information is provided as at the end of the fiscal period shown.
- (2) Management expense ratio ("MER") is based on total expenses, excluding commissions and other portfolio transaction costs, income taxes and withholding taxes, for the stated period and is expressed as an annualized percentage of daily average net assets during the period, except as noted. In the period a series is established, the MER is annualized from the date of inception to the end of the period. Where the Fund directly invests in securities of another fund (including exchange-traded funds or "ETFs"), the MERs presented for the Fund include the portion of MERs of the other fund(s) attributable to this investment. Any income distributions received from ETFs managed by affiliates of the Manager, with the intention of offsetting fees paid within those ETFs but which are not considered to be duplicative fees under regulatory requirements, are treated as waived expenses for MER purposes. The Manager may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.
- (3) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of daily average net assets during the period. Where the Fund invests in securities of another fund (including ETFs), the TERs presented for the Fund include the portion of TERs of the other fund(s) attributable to this investment.
- (4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher the Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by the Manager to pay for the costs of managing the investment portfolio of the Fund and/or the underlying fund(s), as applicable, including providing investment analysis and recommendations, making investment decisions and making brokerage arrangements for the purchase and sale of the investment portfolio.

The Manager is responsible for paying certain administrative costs and all sales commissions, trailing commissions and any other compensation (collectively, "distribution-related payments") to registered dealers whose clients invest in the Fund. As principal distributors for the Fund, Quadrus Investment Services Ltd. ("Quadrus"), IPC Investment Corporation and IPC Securities Corporation (collectively, the "Principal Distributors," individually, a "Principal Distributor"), each an affiliate of the Manager, are paid trailing commissions out of the management fees.

The Manager used approximately 40% of the total management fee revenues received from all funds managed by CLIML during the period to fund distribution-related payments to Principal Distributors and authorized dealers. In comparison, such distribution-related payments for the Fund represented on average 38% of the management fees paid by all applicable series of the Fund during the period. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions paid for that series.

Investors in QF5 Series securities also want to receive a monthly cash flow of 5% per year.

QFW Series and QFW5 Series securities are offered to high net worth investors investing a minimum of \$500 who have eligible minimum total holdings of \$500,000. Investors are required to negotiate their advisor service fee, which cannot exceed 1.25%, with their advisor. Investors in QFW5 Series securities also want to receive a monthly cash flow of 5% per year.

Series S securities are offered to The Canada Life Assurance Company and certain other mutual funds, but may be sold to other investors as determined by CLIML.

W Series, W5 Series and W8 Series securities are offered to investors investing a minimum of \$500 who have eligible minimum total holdings of \$500,000. Investors in W5 Series and W8 Series securities also want to receive a monthly cash flow of 5% or 8% per year, respectively.

An investor in the Fund may choose among different purchase options that are available under each series. These purchase options are a sales charge purchase option, a redemption charge purchase option,[†] a low-load purchase option[†] and a no-load purchase option. The charges under the sales charge purchase option are negotiated by investors with their dealers. The charges under the redemption charge and low-load purchase options are paid to CLIML if an investor redeems securities of the Fund during specific periods. Not all purchase options are available under each series of the Fund, and the charges for each purchase option may vary among the different series. For further details on these purchase options, please refer to the Fund's Simplified Prospectus and Fund Facts.
