A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Canada Life Investment Management Ltd. to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

Management Discussion of Fund Performance

November 16, 2021

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments that have affected the Fund's performance and outlook in the six-month period ended September 30, 2021 (the "period"). If the Fund was established during the period, "period" represents the period since inception.

In this report, "CLIML" refers to Canada Life Investment Management Ltd., the manager of the Fund. CLIML is wholly owned by The Canada Life Assurance Company ("Canada Life"). CLIML has entered into a fund administration agreement with Mackenzie Financial Corporation ("Mackenzie"), an affiliate of CLIML and Canada Life, for administrative services. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

This report should be read in conjunction with the annual Management Report of Fund Performance for the year ended March 31, 2021. Please read *A Note on Forward-Looking Statements* on the first page of this document.

Results of Operations

Investment Performance

The performance of all series in the current and previous periods is shown in the *Past Performance* section of the report. Performance will vary by series primarily because fees and expenses differ between series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Fund Formation and Series Information* section of this report for the varying management and administration fees payable by each series. The following comparison to market indices is intended to help investors understand the Fund's performance relative to the general performance of the markets. However, the Fund's mandate may be different from that of the indices shown.

During the period, the Fund's A Series (formerly Q Series) securities returned 0.0% (after deducting fees and expenses paid by the series). This compares with the FTSE Canada 91-Day T-Bill Index return of 0.1%. All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in the index returns.

At September 30, 2021, the current yield was 0.00% for A Series, F Series (formerly H Series), FW Series (formerly HW Series), GR Series (formerly Series A), Premium Series, QF Series, QFW Series, RB Series and W Series (formerly L Series); 0.41% for N Series; and 0.39% for Series S securities of the Fund. Yields on 91-day treasury bills rose to 0.14% from 0.08% over the period.

The Bank of Canada maintained monetary policy support in the period, including keeping its policy interest rate at 0.25% and making substantial bond purchases. However, the central bank reduced its asset purchase program to a weekly \$2 billion in response to continued recovery and increased confidence in Canada's economic outlook.

The Fund performed in line with the index. The Fund's return reflects the low interest rates available in the marketplace as well as CLIML's decision to temporarily waive a portion of its fees and expenses that would have otherwise resulted in negative performance.

Over the period, the portfolio management team increased exposure to corporate bonds and provincial bonds, while decreasing exposure to bearer deposit discount notes and provincial short-term discount notes, based on the relative valuations of these assets.

Net Assets

The Fund's net assets decreased by 15.5% during the period to \$211.3 million. This change was composed primarily of a decrease of \$38.9 million due to net securityholder activity (including sales, redemptions and cash distributions).

Fees and Expenses

The annualized management expense ratio ("MER") for each series during the period ended September 30, 2021, was lower than the MER for the year ended March 31, 2021, because CLIML increased waivers on management and/or administration fees. CLIML may discontinue the practice of absorbing management and/or administration fees at any time without prior notice to investors. Total expenses paid vary from period to period mainly as a result of changes in average assets in each series. The MERs for all series are presented in the *Financial Highlights* section of this report.

Recent Developments

The ongoing international mutation and transmission of COVID-19 continued to negatively impact the global economy and caused volatility in financial markets. The COVID-19 pandemic may continue to adversely affect global markets and the Fund's performance.

In September, short-term interest rates moved higher to reflect market expectations that central banks will gradually shift toward more restrictive monetary policy. The Bank of Canada is expected to continue reducing its asset-purchase program into early 2022, while the U.S. Federal Reserve is expected to announce reductions in its program late in 2021.

Effective August 19, 2021, the redemption charge purchase option and the low-load purchase option are no longer available for purchases on all applicable series of the Fund, including those made through systematic plans such as pre-authorized contribution plans or the dollar-cost averaging service; however, securities purchased under these purchase options prior to the effective date may continue to be held in investor accounts and will continue to receive applicable distributions according to the Fund's distribution policy. Switching from securities of any mutual fund managed by CLIML (a "Canada Life Fund") previously purchased under these purchase options to securities of another Canada Life Fund, under the same purchase option, will continue to be available.

Related Party Transactions

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to CLIML at the annual rates specified under *Fund Formation and Series Information* in this report and as more fully described in the Prospectus. CLIML paid the administration fees to Mackenzie for providing day-to-day administration services, including financial reporting, communications to investors and securityholder reporting, maintaining the books and records of the Fund, NAV calculations and processing orders for securities of the Fund. In return for the administration fees, Mackenzie pays all costs and expenses (other than certain specified fund costs) required to operate the Fund that are not included in management fees. See also *Management Fees*.

Other Related Party Transactions

Investment funds managed by CLIML and segregated funds managed by Canada Life and its subsidiaries may invest in the Fund on a prospectus-exempt basis in accordance with the investment objectives of those funds. At September 30, 2021, funds managed by CLIML and Canada Life owned 1.4% of the Fund's NAV. All related party transactions are based on the NAV per security on each transaction day. As a result of these investments, the Fund may be subject to large transaction risk as discussed in the Prospectus. CLIML manages this risk to reduce the possibility of any adverse effect on the Fund or on its investors, through such processes as requiring advance notice of large redemptions.

At September 30, 2021, Canada Life had an investment of \$0.1 million in the Fund (less than 0.1% of the Fund's NAV).

The Fund did not rely on an approval, positive recommendation or standing instruction from the Canada Life Funds' Independent Review Committee with respect to any related party transactions in the period.

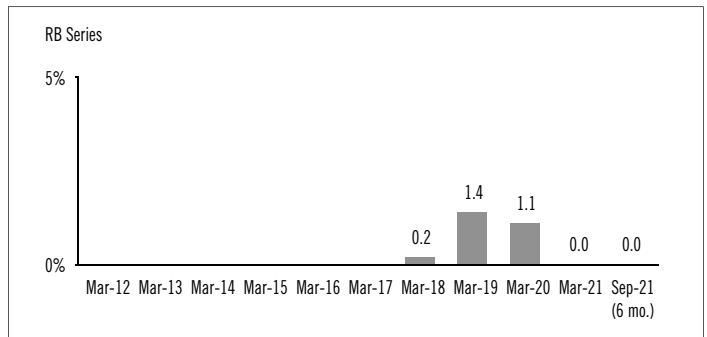

Past Performance

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Fund Formation and Series Information*.

- (1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's unaudited interim financial statements and audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences, if any, can be found in the *Notes to Financial Statements*.
- (2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.
- (3) Distributions were paid in cash/reinvested in additional securities of the Fund, or both.

- (1) This information is provided as at the end of the fiscal period shown.
- (2) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs, income taxes and withholding taxes) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period. If in the period a series was established or reinstated, the management expense ratio is annualized from the date of inception or reinstatement. CLIML may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.
- (3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.

Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by CLIML in part to pay Mackenzie, an affiliate of CLIML, for investment advisory services, including managing the investment portfolio of the Fund and/or the underlying fund(s), as applicable, including providing investment analysis and recommendations, making investment decisions and making brokerage arrangements for the purchase and sale of the investment portfolio.

CLIML is responsible for paying certain administrative costs and all sales commissions, trailing commissions and any other compensation (collectively, "distribution-related payments") to registered dealers whose clients invest in the Fund. As the principal distributor for the Fund, Quadrus Investment Services Ltd. ("Quadrus"), an affiliate of CLIML, is paid trailing commissions out of the management fees.

CLIML used approximately 33% of the total management fee revenues received from all Canada Life Mutual Funds during the period to fund distribution-related payments to Quadrus and Quadrus-authorized dealers. In comparison, such distribution-related payments for the Fund represented on average 24% of the management fees paid by all applicable series of the Fund during the period. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions and sales commissions paid for that series.

An investor in the Fund may choose among different purchase options that are available under each series. These purchase options are a sales charge purchase option, a redemption charge purchase option,[†] a low-load purchase option[†] and a no-load purchase option. The charges under the sales charge purchase option are negotiated by investors with their dealers. The charges under the redemption charge and low-load purchase options are paid to CLIML if an investor redeems securities of the Fund during specific periods. Not all purchase options are available under each series of the Fund, and the charges for each purchase option may vary among the different series. For further details on these purchase options, please refer to the Fund's Simplified Prospectus and Fund Facts.

[†] Effective August 19, 2021, the redemption charge purchase option and the low-load purchase option are no longer available for purchase, including those made through systematic purchase plans such as pre-authorized contribution plans. Switching from securities of a Canada Life Fund previously purchased under the redemption charge or low-load purchase options to securities of another Canada Life Fund, under the same purchase option, will continue to be available.
