(To be renamed Canada Life Short Term Bond Fund (Portico) on August 17, 2020)

FIXED INCOME FUND

Annual Management Report of Fund Performance

For the Year Ended March 31, 2020

This Annual Management Report of Fund Performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You may obtain a copy of the annual financial statements, at no cost, by contacting us using one of the methods noted under Fund Formation and Series Information or by visiting the SEDAR website at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure. For more information, please refer to the Fund's Simplified Prospectus, Annual Information Form and Fund Facts, which may also be obtained, at no cost, using any of the methods outlined above.

For the Fund's current net asset values per security and for more recent information on general market events, please visit our website.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events and the ability of Mackenzie to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2020

FIXED INCOME FUND

Management Discussion of Fund Performance

July 13, 2020

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments during the year ended March 31, 2020 (the "period"), that have affected the Fund's performance and outlook. If the Fund was established during the period, "period" represents the period from inception to the end of the fiscal period. For information on the Fund's longer-term performance, as applicable, please refer to the *Past Performance* section of the report. In this report, "Mackenzie" refers to Mackenzie Financial Corporation, the manager of the Fund. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

The Fund is closed to any new investment, except additional purchases by investors who have held securities of the Fund since October 1, 2018.

Investment Objective and Strategies

The Fund seeks income by investing primarily in high-quality, short-term fixed income securities issued by Canadian federal, provincial or municipal governments or by Canadian corporations, either directly and/or through other mutual funds. The Fund may hold up to 30% of its assets in foreign investments.

Risk

The risks of the Fund remain as discussed in the Fund's Simplified Prospectus.

The Fund is suitable for short-term investors looking for a Canadian fixed income fund to hold as part of their portfolio, who can handle the volatility of bond markets and who have a low tolerance for risk.

Results of Operations

Investment Performance

The performance of the Fund's Quadrus Series securities is discussed below. The performance of all series is shown in the *Past Performance* section of the report. Where series returns differ, it is primarily because different levels of fees and expenses were charged to each series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Fund Formation and Series Information* section of this report for the varying management and administration fees payable by each series.

During the period, the Fund's Quadrus Series securities returned 1.5% (after deducting fees and expenses paid by the series). This compares with a return of 4.5% for the Fund's broad-based index, the FTSE Canada Universe Bond Index, and a return of 3.2% for the Fund's narrow index, the FTSE Canada Short Term Bond Index. All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in the index returns.

Government bond prices rose as yields declined over the period, while corporate bond prices fell. In March, the Bank of Canada made emergency policy rate cuts in response to the COVID-19 crisis, as did the U.S. Federal Reserve after three earlier reductions of the federal funds rate. Yields on 10-year and 30-year Government of Canada bonds fell to record lows, leading long-term government bonds to outperform. Corporate bonds, especially in the energy sector, underperformed as credit risks began to reflect economic concerns.

The Fund underperformed the broad-based index, with overweight exposure to corporate and municipal bonds detracting from performance. Given the Fund's mandate, the return of the narrow index is a more meaningful comparison.

The Fund underperformed the narrow index, with overweight exposure to short-term real estate and financial bonds, as well as security selection in provincial bonds, detracting from performance. Conversely, overweight exposure to infrastructure bonds and municipal bonds contributed to performance relative to the narrow index. Security selection in financial and federal bonds also contributed to performance.

Over the period, neither portfolio activity nor market effect significantly changed the positioning of the Fund.

Net Assets

The Fund's NAV declined by 4.7% to \$27.4 million at March 31, 2020, from \$28.8 million at March 31, 2019. This change was composed primarily of \$0.8 million in net income (including interest income) from investment performance, after deducting fees and expenses, \$1.7 million in net redemptions, and \$0.4 million in cash distributions.

See *Other Related Party Transactions* for the percentage of the Fund's NAV owned by related parties. As a result of these investments, the Fund is subject to large transaction risk as discussed in the Prospectus. Mackenzie manages this risk to reduce the possibility of any adverse effect on the Fund or on its investors.

Fees and Expenses

The management expense ratio ("MER") for Quadrus Series of 1.43% during the year ended March 31, 2020, was slightly lower than the MER of 1.44% for the year ended March 31, 2019. The MERs (before and after waivers or absorptions, if any) for all series are presented in the *Financial Highlights* section of this report.

Recent Developments

Governments worldwide have enacted emergency measures to combat the spread of the COVID-19 virus in the last several months. These measures have caused significant volatility and weakness in global equity markets and material disruption to businesses globally, resulting in an economic slowdown. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions.

SHORT TERM BOND FUND (PORTICO)

(To be renamed Canada Life Short Term Bond Fund (Portico) on August 17, 2020)

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2020

FIXED INCOME FUND

The duration and impact of the COVID-19 pandemic on businesses and markets, and the extent of economic relief measures provided by governments and central banks, are unknown at the reporting date and it is therefore not possible to reliably estimate the impact on the financial results and position of the Fund in future periods.

The portfolio management team believes that a global recession is likely unavoidable as a result of efforts to slow the spread of COVID-19. In Canada, the team expects minimal, possibly negative, economic growth due to the impact of the lockdown. The team anticipates a major impact on employment, as well as the housing market. Given the recent rise in market volatility, the team expects to be able to rotate the portfolio's core positions at attractive valuations.

The Fund is positioned for an extended period of low interest rates and the eventual normalization of economic activity. The Fund ended the period with overweight exposure to real estate, industrial and securitized bonds relative to the narrow index. The Fund had underweight exposure to federal bonds.

On August 17, 2020, the Fund will be renamed Canada Life Short Term Bond Fund (Portico).

Related Party Transactions

The following arrangements result in fees paid by the Fund to Mackenzie or to companies affiliated with the Fund.

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to Mackenzie at the annual rates specified under *Fund Formation and Series Information* in this report and as more fully described in the Prospectus. In return for the administration fees, Mackenzie pays all costs and expenses (other than certain specified fund costs) required to operate the Fund that are not included in management fees. See also *Management Fees*.

Other Related Party Transactions

Investment funds managed by Mackenzie invest in Series R securities of the Fund on a prospectus-exempt basis in accordance with the investment objectives of those funds. At March 31, 2020, funds managed by Mackenzie owned 65.3% of the Fund's NAV. All related party transactions are based on the NAV per security on each transaction day.

The Fund did not rely on an approval, positive recommendation or standing instruction from the Mackenzie Funds' Independent Review Committee with respect to any related party transactions.

Past Performance

The Fund's past performance information is presented in the following charts and table. It assumes all distributions made by the Fund in the periods presented are reinvested in additional securities of the relevant series of the Fund. The charts and table do not take into account sales, redemption, distribution or optional charges, or income taxes payable by any investor that would have reduced returns. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes whether paid to you in cash or reinvested in additional securities of the Fund. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

Year-by-Year Returns

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Fund Formation and Series Information*.

Annual Compound Returns

The following table compares the historical annual compound total returns for each series of the Fund with the relevant index or indices shown below for each of the periods ended March 31, 2020. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in these performance figures.

All index returns are calculated in Canadian dollars on a total return basis, meaning that all dividend payments, interest income accruals and interest payments are reinvested.

Percentage Return: ¹	1 Yr	3 Yr	5 Yr	10 Yr	Since Inception ²
Quadrus Series	1.5	0.7	0.5	n/a	0.9

FTSE Canada Universe Bond Index*	4.5	3.7	2.7	n/a	Note 3
FTSE Canada Short Term Bond Index	3.2	2.1	1.7	n/a	Note 4

* Broad-based index

The FTSE Canada Universe Bond Index is a broad measure of Canadian bonds with terms to maturity of more than one year. It includes federal, provincial, municipal and corporate bonds rated "BBB" or higher.

The FTSE Canada Short Term Bond Index is an index of Canadian bonds with terms to maturity of one to five years and rated "BBB" or higher.

- (1) The percentage return differs for each series because the management fee rate and expenses differ for each series.
- (2) The return since inception for each series will differ when the inception date differs and is only provided when a series has been active for a period of less than 10 years.
- (3) The return of the FTSE Canada Universe Bond Index since inception for each applicable series is as follows: Quadrus Series 4.0%, H Series 4.0%, HW Series 6.3%, L Series 3.9%, N Series 4.1%, QF Series 2.6%, QFW Series 6.3%, Series R 2.6%.
- (4) The return of the FTSE Canada Short Term Bond Index since inception for each applicable series is as follows: Quadrus Series 2.2%, H Series 2.2%, HW Series 4.0%, L Series 2.2%, N Series 2.2%, QF Series 1.8%, QFW Series 4.0%, Series R 1.8%.

- (1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences can be found in the *Notes to Financial Statements*.
- (2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.
- (3) Distributions were paid in cash/reinvested in additional securities of the Fund, or both.

(1) This information is provided as at the end of the fiscal period shown.

(2) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period. If in the period a series was established or reinstated, the management expense ratio is annualized from the date of inception or reinstatement. Mackenzie may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a fund's portfolio turnover rate in a period, the greater the trading costs payable by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

SHORT TERM BOND FUND (PORTICO)

(To be renamed Canada Life Short Term Bond Fund (Portico) on August 17, 2020)

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2020

FIXED INCOME FUND

RATIOS AND SUPPLEMENTAL DATA (cont'd)

Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by Mackenzie in part to pay GLC Asset Management Group Ltd., an affiliate of Mackenzie, for investment advisory services, including managing the investment portfolio of the Fund and/or the underlying fund(s), as applicable, including providing investment analysis and recommendations, making investment decisions and making brokerage arrangements for the purchase and sale of the investment portfolio.

Quadrus Investment Services Ltd. ("Quadrus"), an affiliate of Mackenzie, is the principal distributor for the Fund and is paid trailing commissions out of the management fees. The Canada Life Assurance Company, which is also an affiliate of Mackenzie, provides certain services to Mackenzie in connection with Mackenzie's portfolio management activities. The Canada Life Assurance Company is responsible for paying certain administrative costs and all sales commissions, trailing commissions and any other compensation (collectively, "distribution-related payments") to registered dealers whose clients invest in the Fund. As such, Quadrus and The Canada Life Assurance Company receive a portion of the management fees that the Fund pays to Mackenzie. Approximately 78% of the total management fees that Mackenzie received from the Quadrus Group of Funds during the year was paid under these arrangements.

Mackenzie used approximately 43% of the total management fee revenues received from all Mackenzie funds during the year to fund distribution-related payments to registered dealers and brokers. In comparison, such distribution-related payments for the Fund represented on average 40% of the management fees paid by all applicable series of the Fund during the year. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions and sales commissions paid for that series.

SHORT TERM BOND FUND (PORTICO)

(To be renamed Canada Life Short Term Bond Fund (Portico) on August 17, 2020)

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2020

FIXED INCOME FUND

Fund Formation and Series Information

The Fund may have undergone a number of changes, such as a reorganization or a change in manager, mandate or name. A history of the major changes affecting the Fund in the last 10 years can be found in the Fund's Annual Information Form.

Date of Formation June 28, 2013

The Fund may issue an unlimited number of securities of each series. The number of issued and outstanding securities of each series is disclosed in *Financial Highlights*.

Series Distributed by Quadrus Investment Services Ltd. (255 Dufferin Ave., London, Ontario, N6A 4K1; 1-888-532-3322; www.quadrusgroupoffunds.com)

Quadrus Investment Services Ltd. ("Quadrus") is the principal distributor of the series of securities listed below:

Series R securities are offered only to other affiliated funds and certain institutional investors in connection with fund-of-fund arrangements.

Quadrus Series, H Series, HW Series, L Series, N Series, QF Series and QFW Series securities are no longer available for sale, except for additional purchases by investors who have held these securities since October 1, 2018.

An investor in the Fund may choose among different purchase options that are available under each series. These purchase options are a sales charge purchase option and a no-load purchase option. The charges under the sales charge purchase option are negotiated by investors with their dealers. Not all purchase options are available under each series of the Fund, and the charges for each purchase option may vary among the different series. For further details on these purchase options, please refer to the Fund's Simplified Prospectus and Fund Facts.
