ASSET ALLOCATION FUND

Interim Management Report of Fund Performance

For the Six-Month Period Ended September 30, 2020

This Interim Management Report of Fund Performance contains financial highlights but does not contain either the interim financial report or annual financial statements of the investment fund. You may obtain a copy of the interim financial report or annual financial statements, at no cost, by contacting us using one of the methods noted under Fund Formation and Series Information or by visiting the SEDAR website at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure. For more information, please refer to the Fund's Simplified Prospectus, Annual Information Form and Fund Facts, which may also be obtained, at no cost, using any of the methods outlined above.

For the Fund's current net asset values per security and for more recent information on general market events, please visit our website.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Mackenzie to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

ASSET ALLOCATION FUND

Management Discussion of Fund Performance

November 10, 2020

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments during the period ended September 30, 2020 (the "period"), that have affected the Fund's performance and outlook. If the Fund was established during the period, "period" represents the period from inception to the end of the fiscal period. For information on the Fund's longer-term performance, as applicable, please refer to the *Past Performance* section of the report. In this report, "Mackenzie" refers to Mackenzie Financial Corporation, the manager of the Fund. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

Results of Operations

Investment Performance

The performance of the Fund's Q Series (formerly Quadrus Series) securities is discussed below. The performance of all series is shown in the *Past Performance* section of the report. Where series returns differ, it is primarily because different levels of fees and expenses were charged to each series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Fund Formation and Series Information* section of this report for the varying management and administration fees payable by each series.

During the period, the Fund's Q Series securities returned 7.7% (after deducting fees and expenses paid by the series). This compares with a return of 10.1% for a blended index composed of a 75% weighting in the Fund's broad-based index, the FTSE Canada Universe Bond Index (returned 6.3%), a 15% weighting in the MSCI World (Net) Index (returned 21.7%) and a 10% weighting in the S&P/TSX Composite Index (returned 22.5%). All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in the index returns.

Global equity markets, including Canada's, advanced over the period as improved economic activity and slowing COVID-19 infection rates in some regions globally prompted expectations of a recovery. Equity valuations were supported by low bond yields as most central banks kept interest rates low or reduced rates. U.S. equities recovered to an all-time high. Currency movements reduced returns in Canadian dollar terms. The Canadian bond market advanced over the period, particularly in the first three months. Corporate bonds outperformed government bonds. Long-term bonds significantly outperformed short-term bonds.

Within the MSCI World (Net) Index, Sweden, Ireland and Germany were the strongest-performing countries in Canadian dollar terms, while Spain, the United Kingdom and Portugal were the weakest. From a sector perspective, consumer discretionary, information technology and materials were the strongest performers, while energy, utilities and real estate were the weakest.

Within the S&P/TSX Composite Index, information technology, materials and consumer discretionary were the strongest sectors, while health care, communication services and energy were the weakest.

The following discussion reflects the Fund's allocation decisions and the activities and performance of its underlying investment funds and other directly held securities. The Fund outperformed the broad-based index because of its allocation to equities, which outperformed fixed income in the period. Given the Fund's mandate, the return of the blended index is a more meaningful comparison.

The Fund underperformed the blended index, with its equity portfolio detracting from performance.

Within the fixed income portion of the Fund, an allocation to long-term bonds and security selection in corporate bonds, particularly in the financial and industrial sectors, contributed to performance. Conversely, holdings in non-Canadian bonds detracted from performance.

Within the equity portion of the Fund, stock selection and underweight positions in the information technology and consumer discretionary sectors detracted from performance. On a country basis, stock selection in the United States and Canada detracted. Conversely, stock selection and an underweight position in Japan contributed to performance.

Hedging of foreign currency exposure contributed to performance as a result of the overall depreciation of the hedged currencies relative to the Canadian dollar.

Over the period, neither portfolio activity nor market developments significantly changed the positioning of the Fund.

Net Assets

The Fund's NAV increased by 28.0% to \$340.9 million at September 30, 2020, from \$266.3 million at March 31, 2020. This change was composed primarily of \$21.2 million in net income (including dividend and interest income) from investment performance, after deducting fees and expenses, and \$53.4 million in net sales.

Fees and Expenses

The annualized management expense ratio ("MER") for Q Series of 2.25% during the period ended September 30, 2020, was unchanged from the MER for the year ended March 31, 2020. The MERs (before and after waivers or absorptions, if any) for all series are presented in the *Financial Highlights* section of this report.

CANADA LIFE CONSERVATIVE FOLIO FUND

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE | For the Period Ended September 30, 2020

ASSET ALLOCATION FUND

Recent Developments

The duration and long-term impact of the novel coronavirus (COVID-19) pandemic on businesses and markets, and the extent of additional economic relief measures which may be offered by some governments and central banks, are unknown at the reporting date. This uncertainty means it is impossible to reliably estimate the impact on the financial results and position of the Fund in future periods.

The portfolio management team responsible for asset allocation decisions for the Fund believes economic indicators are beginning to show positive signs of recovery but expects economies to require substantial continued government support. Against this backdrop equity markets have rebounded too far, too quickly, in the team's opinion, even without accounting for the resurgence of the COVID-19 pandemic. The team expects market volatility to return, and the portfolio therefore continues to be positioned somewhat defensively.

Within fixed income, the team views investment grade corporate bonds as attractive relative to high-yield bonds. The team expects yields on government bonds to remain historically low over the long term, after rising only slightly in the short term. At period-end, the fixed income portfolio was positioned to mitigate risk during periods of risk-averse investor sentiment.

Within equities, the Fund ended the period with an underweight position in North American stocks and an overweight position in international stocks.

On August 14, 2020, the Fund was renamed Canada Life Conservative Folio Fund. On the same date, certain underlying funds were also renamed. Core Plus Bond Fund (Portico) was renamed Canada Life Core Plus Bond Fund (Portico). International Bond Fund (CLI) was renamed Canada Life International Bond Fund (CLI). Corporate Bond Fund (Portico) was renamed Canada Life Corporate Bond Fund (Portico). Long Term Bond Fund (Portico) was renamed Canada Life Long Term Bond Fund (Portico). U.S. Value Fund (Putnam) was renamed Canada Life US Value Fund (Putnam). Canadian Growth Fund (GWLIM) was renamed Canada Life Canadian Growth Fund (GWLIM). Dividend Fund (GWLIM) was renamed Canada Life Dividend Fund (GWLIM). Global Dividend Equity Fund (Setanta) was renamed Canada Life Global Dividend Equity Fund (Setanta). Short Term Bond Fund (Portico) was renamed Canada Life Short Term Bond Fund (Portico). Global Infrastructure Equity Fund (London Capital) was renamed Canada Life Global Infrastructure Equity Fund (London Capital).

Effective April 23, 2020, JPMorgan Asset Management (Canada) Inc. became the sub-advisor to underlying fund International Core Equity Fund (Putnam), which was renamed International Core Equity Fund (JPMorgan). On August 14, 2020, this underlying fund was renamed Canada Life International Core Equity Fund (JPMorgan). The new portfolio managers use a fundamental investment approach with a focus on larger-capitalization stocks that have growth characteristics.

Effective on or about January 1, 2021, the Fund's manager and trustee will change to Canada Life Investment Management Ltd. ("CLIML"), an affiliate of Mackenzie. This change received a positive recommendation from the Mackenzie Funds' Independent Review Committee and is subject to regulatory approval for CLIML to be registered as an investment fund manager.

Related Party Transactions

The following arrangements result in fees paid by the Fund to Mackenzie or to companies affiliated with the Fund.

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to Mackenzie at the annual rates specified under *Fund Formation and Series Information* in this report and as more fully described in the Prospectus. In return for the administration fees, Mackenzie pays all costs and expenses (other than certain specified fund costs) required to operate the Fund that are not included in management fees. See also *Management Fees*.

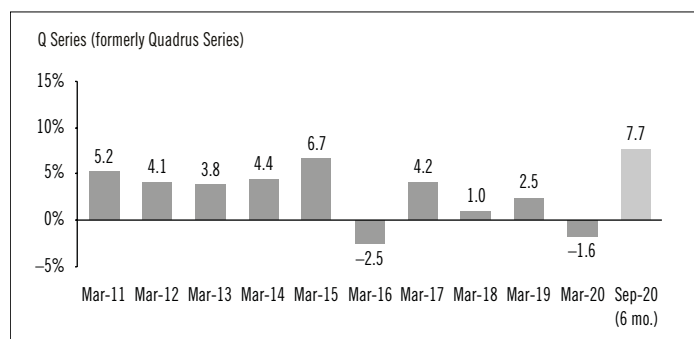

Other Related Party Transactions

Segregated funds managed by The Canada Life Assurance Company, an affiliate of Mackenzie, invest in the Fund on a prospectus-exempt basis. At September 30, 2020, segregated funds managed by The Canada Life Assurance Company owned 1.1% of the Fund's NAV. All related party transactions are based on the NAV per security on each transaction day.

The Fund did not rely on an approval, positive recommendation or standing instruction from the Mackenzie Funds' Independent Review Committee with respect to any related party transactions.

Past Performance

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Fund Formation and Series Information*.

(1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's unaudited interim financial statements and audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences can be found in the *Notes to Financial Statements*.

(2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.

(3) Distributions were paid in cash/reinvested in additional securities of the Fund, or both.

- (1) This information is provided as at the end of the fiscal period shown.
- (2) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period. If in the period a series was established or reinstated, the management expense ratio is annualized from the date of inception or reinstatement. Mackenzie may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.
- (3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
- (4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a fund's portfolio turnover rate in a period, the greater the trading costs payable by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by Mackenzie to pay for the costs of managing the investment portfolio of the Fund and/or the underlying fund(s), as applicable, including providing investment analysis and recommendations, making investment decisions and making brokerage arrangements for the purchase and sale of the investment portfolio.

Quadrus Investment Services Ltd. ("Quadrus"), an affiliate of Mackenzie, is the principal distributor for the Fund and is paid trailing commissions out of the management fees. The Canada Life Assurance Company, which is also an affiliate of Mackenzie, provides certain services to Mackenzie in connection with Mackenzie's portfolio management activities. The Canada Life Assurance Company is responsible for paying certain administrative costs and all sales commissions, trailing commissions and any other compensation (collectively, "distribution-related payments") to registered dealers whose clients invest in the Fund. As such, Quadrus and The Canada Life Assurance Company receive a portion of the management fees that the Fund pays to Mackenzie. Approximately 78% of the total management fees that Mackenzie received from the Canada Life Mutual Funds during the period was paid under these arrangements.

Mackenzie used approximately 43% of the total management fee revenues received from all Mackenzie funds during the period to fund distribution-related payments to registered dealers and brokers. In comparison, such distribution-related payments for the Fund represented on average 47% of the management fees paid by all applicable series of the Fund during the period. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions and sales commissions paid for that series. The higher proportion of distribution-related payments is primarily attributable to sales commissions related to gross sales of redemption charge securities of the Fund.

CANADA LIFE CONSERVATIVE FOLIO FUND

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE | For the Period Ended September 30, 2020

ASSET ALLOCATION FUND

Fund Formation and Series Information

The Fund may have undergone a number of changes, such as a reorganization or a change in manager, mandate or name. A history of the major changes affecting the Fund in the last 10 years can be found in the Fund's Annual Information Form.

Date of Formation January 2, 2001

The Fund may issue an unlimited number of securities of each series. The number of issued and outstanding securities of each series is disclosed in *Financial Highlights*.

Series Distributed by Quadrus Investment Services Ltd. (255 Dufferin Ave., London, Ontario, N6A 4K1; 1-888-532-3322; www.canadalife.com)

Quadrus Investment Services Ltd. ("Quadrus") is the principal distributor of the series of securities listed below:

Q Series securities are offered to investors investing a minimum of \$500. Before August 14, 2020, Q Series securities were known as Quadrus Series.

H Series securities are offered to investors investing a minimum of \$500, who are enrolled in a Quadrus-sponsored fee-for-service or wrap program and who are subject to an asset-based fee.

HW Series securities are offered to high net worth investors investing a minimum of \$100,000 and who have eligible minimum total holdings of \$500,000, who are enrolled in a Quadrus-sponsored fee-for-service or wrap program and who are subject to an asset-based fee.

L Series securities are offered to investors investing a minimum of \$100,000 and who have eligible minimum total holdings of \$500,000.

N Series securities are offered to investors investing a minimum of \$100,000, who have eligible minimum total holdings of \$500,000, and who have entered into an N type series account agreement with Mackenzie and Quadrus.

QF Series securities are offered to retail investors investing a minimum of \$500. Investors are required to negotiate their advisor service fee, which cannot exceed 1.25%, with their financial advisor.

QFW Series securities are offered to high net worth investors investing a minimum of \$100,000 and who have eligible minimum total holdings of \$500,000. Investors are required to negotiate their advisor service fee, which cannot exceed 1.25%, with their financial advisor.

Series S securities are offered to The Canada Life Assurance Company and certain other mutual funds, but may be sold to other investors as determined by Mackenzie.

An investor in the Fund may choose among different purchase options that are available under each series. These purchase options are a sales charge purchase option, a redemption charge purchase option, a low-load purchase option and a no-load purchase option. The charges under the sales charge purchase option are negotiated by investors with their dealers. The charges under the redemption charge and low-load purchase options are paid to Mackenzie if an investor redeems securities of the Fund during specific periods. Not all purchase options are available under each series of the Fund, and the charges for each purchase option may vary among the different series. For further details on these purchase options, please refer to the Fund's Simplified Prospectus and Fund Facts.
