

Interim Management Report of Fund Performance

For the Six-Month Period Ended September 30, 2020

This Interim Management Report of Fund Performance contains financial highlights but does not contain either the interim financial report or annual financial statements of the investment fund. You may obtain a copy of the interim financial report or annual financial statements, at no cost, by contacting us using one of the methods noted under Fund Formation and Series Information or by visiting the SEDAR website at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure. For more information, please refer to the Fund's Simplified Prospectus, Annual Information Form and Fund Facts, which may also be obtained, at no cost, using any of the methods outlined above.

For the Fund's current net asset values per security and for more recent information on general market events, please visit our website.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Mackenzie to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

GLOBAL EQUITY FUND

Management Discussion of Fund Performance

November 10, 2020

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments during the period ended September 30, 2020 (the "period"), that have affected the Fund's performance and outlook. If the Fund was established during the period, "period" represents the period from inception to the end of the fiscal period. For information on the Fund's longer-term performance, as applicable, please refer to the *Past Performance* section of the report. In this report, "Mackenzie" refers to Mackenzie Financial Corporation, the manager of the Fund. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

Results of Operations

Investment Performance

The performance of the Fund's I Series securities is discussed below. The performance of all series is shown in the *Past Performance* section of the report. Where series returns differ, it is primarily because different levels of fees and expenses were charged to each series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Fund Formation and Series Information* section of this report for the varying management and administration fees payable by each series.

During the period, the Fund's I Series securities returned 10.8% (after deducting fees and expenses paid by the series). This compares with the MSCI World (Net) Index return of 21.7%. All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in the index returns.

Global equity markets advanced over the period as improved economic activity and slowing COVID-19 infection rates in some regions globally prompted expectations of a recovery. Equity valuations were supported by low bond yields as most central banks kept interest rates low or reduced rates. U.S. equities recovered to an all-time high. Asian markets generally underperformed. Although many European countries outperformed, U.K. equities underperformed as the United Kingdom and the European Union continued trade negotiations. Currency movements reduced returns in Canadian dollar terms.

Within the MSCI World (Net) Index, Sweden, Ireland and Germany were the strongest-performing countries in Canadian dollar terms, while Spain, the United Kingdom and Portugal were the weakest. From a sector perspective, consumer discretionary, information technology and materials were the strongest performers, while energy, utilities and real estate were the weakest.

The following discussion reflects the Fund's allocation decisions and the activities and performance of its underlying investment funds and other directly held securities. The Fund underperformed the index, with its significant cash position detracting from performance as equity markets rose.

The Fund's holdings in equities and cash are positioned with the aim of reducing the equity allocation ahead of periods of market stress to protect investors and re-allocating to equity markets as they recover. Over the period, the Fund's target allocation to equities increased to 100% from 38%. This increase was primarily driven by technical factors, as the equity market showed strong momentum and rose above its moving average levels.

Net Assets

The Fund's NAV increased by 62.3% to \$23.0 million at September 30, 2020, from \$14.2 million at March 31, 2020. This change was composed primarily of \$1.8 million in net income (including dividend and interest income) from investment performance, after deducting fees and expenses, and \$7.0 million in net sales.

Fees and Expenses

The annualized management expense ratio ("MER") for I Series of 0.03% during the period ended September 30, 2020, was slightly lower than the MER of 0.05% for the year ended March 31, 2020. Other than certain specific fund costs, the management fee and administration fee were paid directly to Mackenzie by investors in this series.

Recent Developments

The duration and long-term impact of the novel coronavirus (COVID-19) pandemic on businesses and markets, and the extent of additional economic relief measures which may be offered by some governments and central banks, are unknown at the reporting date. This uncertainty means it is impossible to reliably estimate the impact on the financial results and position of the Fund in future periods.

The portfolio management team believes mid- to high-single-digit returns are possible in equity markets over the next year. Equities should be supported by the strong economic and earnings growth expected through 2021 and 2022, and by accommodative monetary policy from central banks, which the team expects to remain in place for some time. Equities also remain attractive relative to bonds and cash, in the team's view. In the shorter term, the team believes volatility may arise in response to the slowing momentum in global growth, uncertainty about U.S. fiscal packages and the renewed spread of COVID-19.

Effective on or about January 1, 2021, the Fund's manager and trustee will change to Canada Life Investment Management Ltd. ("CLIML"), an affiliate of Mackenzie. This change received a positive recommendation from the Mackenzie Funds' Independent Review Committee and is subject to regulatory approval for CLIML to be registered as an investment fund manager.

GLOBAL EQUITY FUND

Related Party Transactions

The following arrangements result in fees paid by the Fund to Mackenzie or to companies affiliated with the Fund.

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to Mackenzie at the annual rates specified under *Fund Formation and Series Information* in this report and as more fully described in the Prospectus. In return for the administration fees, Mackenzie pays all costs and expenses (other than certain specified fund costs) required to operate the Fund that are not included in management fees. See also *Management Fees*.

Other Related Party Transactions

Segregated funds managed by The Canada Life Assurance Company, an affiliate of Mackenzie, invest in the Fund on a prospectus-exempt basis. At September 30, 2020, segregated funds managed by The Canada Life Assurance Company owned 8.4% of the Fund's NAV. All related party transactions are based on the NAV per security on each transaction day.

The Fund did not rely on an approval, positive recommendation or standing instruction from the Mackenzie Funds' Independent Review Committee with respect to any related party transactions.

Past Performance

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Fund Formation and Series Information*.

- (1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's unaudited interim financial statements and audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences can be found in the *Notes to Financial Statements*.
- (2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.
- (3) Distributions were paid in cash/reinvested in additional securities of the Fund, or both.

Management expense ratio (%) ²	0.03	0.05	0.05
Management expense ratio before waivers or absorptions (%) ²	0.03	0.05	0.05
Trading expense ratio (%) ³	0.06	0.05	0.11
Portfolio turnover rate (%) ⁴	47.10	118.59	n/a
Net asset value per security (\$)	10.80	9.80	10.43

Series S	Sep. 30 2020	Mar. 31 2020	Mar. 31 2019
Total net asset value (\$000) ¹	1,930	360	n/a
Securities outstanding (000) ¹	194	40	n/a
Management expense ratio (%) ²	0.06	0.07	n/a
Management expense ratio before waivers or absorptions (%) ²	0.06	0.07	n/a
Trading expense ratio (%) ³	0.06	0.05	n/a
Portfolio turnover rate (%) ⁴	47.10	118.59	n/a
Net asset value per security (\$)	9.97	9.05	n/a

- (1) This information is provided as at the end of the fiscal period shown.
- (2) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period. If in the period a series was established or reinstated, the management expense ratio is annualized from the date of inception or reinstatement. Mackenzie may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.
- (3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
- (4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a fund's portfolio turnover rate in a period, the greater the trading costs payable by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

Management Fees

The management fee for each series is calculated and accrued daily as a percentage of its NAV and payable quarterly to Mackenzie directly by investors and not by the Fund. These management fees were used by Mackenzie in part to pay Irish Life Investment Managers Ltd., an affiliate of Mackenzie, for investment advisory services, including managing the investment portfolio of the Fund and/or the underlying fund(s), as applicable, including providing investment analysis and recommendations, making investment decisions and making brokerage arrangements for the purchase and sale of the investment portfolio.

Quadrus Investment Services Ltd. ("Quadrus"), an affiliate of Mackenzie, is the principal distributor for the Fund. The Canada Life Assurance Company, which is also an affiliate of Mackenzie, provides certain services to Mackenzie in connection with Mackenzie's portfolio management activities and pays certain administrative costs. As such, Quadrus and The Canada Life Assurance Company receive a portion of the management fees that investors in the Fund pay directly to Mackenzie. Approximately 78% of the total management fees that Mackenzie received from the Canada Life Mutual Funds during the period was paid under these arrangements.
