Private placements are internally rated.

Throughout the report, totals may not add up to 100 per cent due to rounding.

Performance data are provided for illustrative purposes only and represent past performance, which is not necessarily indicative of future performance.

The return on the bonds of the participating account reflects the return on the bond assets backing liabilities and surplus, after investment expenses are deducted. With the exception of unrealized gains and losses on bonds, which are excluded because bonds in the participating account are generally held until maturity, the return on the bonds of the participating account is in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB), effective Jan. 1, 2011.

The return on the bonds contributes to the overall investment performance of the total participating account.

Five-year guaranteed investment certificate (GIC) returns are based on the nominal yields to maturity taken from Statistics Canada, CANSIM table 176-0043, series V122526 (Statistics Canada website) Jan. 3, 2018. For each calendar year, the average of the monthly GIC rates was used.

Government of Canada five- to 10-year bond returns are taken from Statistics Canada, CANSIM table 176-0043, series V122486 (Statistics Canada website) Jan. 3, 2018. For each calendar year, the average of the monthly values was used.
