In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Northstar Fund (Fidelity) SF355

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Northstar Fund (Fidelity) SF355 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Northstar Fund (Fidelity) SF355

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Northstar Fund (Fidelity) SF355

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Northstar Fund (Fidelity) SF355

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Northstar Fund (Fidelity) SF355

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Northstar Fund (Fidelity) SF355

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Northstar Fund (Fidelity) SF355

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
 - Registered Savings Plans,
 - Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Northstar Fund (Fidelity) SF355

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Northstar Fund (Fidelity) SF355

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.

Northstar Fund (Fidelity) SF355

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Northstar Fund (Fidelity) SF355

Supplemental Information (unaudited)

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	2.48	10.04	3.27	1.60	0.98

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY
AMERICAN DISCIPLINED EQUITY FUND (FIDELITY) SF356

December 31, 2022

Independent Auditor's Report

To the Contractholders of American Disciplined Equity Fund (Fidelity) SF356 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

American Disciplined Equity Fund (Fidelity) SF356

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The American Disciplined Equity Fund (Fidelity) SF356 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

American Disciplined Equity Fund (Fidelity) SF356

Notes to the Financial Statements

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

American Disciplined Equity Fund (Fidelity) SF356

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

American Disciplined Equity Fund (Fidelity) SF356

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

American Disciplined Equity Fund (Fidelity) SF356

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

American Disciplined Equity Fund (Fidelity) SF356

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

American Disciplined Equity Fund (Fidelity) SF356

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

American Disciplined Equity Fund (Fidelity) SF356

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

American Disciplined Equity Fund (Fidelity) SF356

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.

American Disciplined Equity Fund (Fidelity) SF356

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

American Disciplined Equity Fund (Fidelity) SF356

Supplemental Information *(unaudited)*

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾

For the years ended December 31	2022	2021	2020	2019	2018
Generations/Mosaic	3.51	3.50	3.51	3.52	3.54
Generations I	3.45	3.45	3.46	3.47	3.49

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	2.72	2.38	5.50	6.72	8.12

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
GLOBAL BALANCED FUND (MACKENZIE) SF513

December 31, 2022

Independent Auditor's Report

To the Contractholders of Global Balanced Fund (Mackenzie) SF513 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Global Balanced Fund (Mackenzie) SF513

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Global Balanced Fund (Mackenzie) SF513 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Global Balanced Fund (Mackenzie) SF513

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Global Balanced Fund (Mackenzie) SF513

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Global Balanced Fund (Mackenzie) SF513

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Global Balanced Fund (Mackenzie) SF513

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Global Balanced Fund (Mackenzie) SF513

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Global Balanced Fund (Mackenzie) SF513

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Global Balanced Fund (Mackenzie) SF513

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Global Balanced Fund (Mackenzie) SF513

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Canada Life Investment Management Ltd. All investment transactions with the corresponding underlying funds are at quoted market prices.

Global Balanced Fund (Mackenzie) SF513

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Global Balanced Fund (Mackenzie) SF513

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾

Portfolio Turnover Rate (%) ⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	6.54	89.58	6.27	4.67	7.89

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY
GLOBAL VALUE FUND (MACKENZIE) SF514

December 31, 2022

Independent Auditor's Report

To the Contractholders of Global Value Fund (Mackenzie) SF514 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Global Value Fund (Mackenzie) SF514

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Global Value Fund (Mackenzie) SF514 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Global Value Fund (Mackenzie) SF514

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Global Value Fund (Mackenzie) SF514

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Global Value Fund (Mackenzie) SF514

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Global Value Fund (Mackenzie) SF514

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Global Value Fund (Mackenzie) SF514

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Global Value Fund (Mackenzie) SF514

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Global Value Fund (Mackenzie) SF514

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Global Value Fund (Mackenzie) SF514

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

Global Value Fund (Mackenzie) SF514

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Global Value Fund (Mackenzie) SF514

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾

For the years ended December 31	2022	2021	2020	2019	2018

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	2.20	0.94	7.32	16.78	14.76

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY

GLOBAL INFRASTRUCTURE EQUITY FUND (LONDON CAPITAL) SF515

December 31, 2022

Independent Auditor's Report

To the Contractholders of Global Infrastructure Equity Fund (London Capital) SF515 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Global Infrastructure Equity Fund (London Capital) SF515

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the Global Infrastructure Equity Fund (London Capital) SF515 (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

Global Infrastructure Equity Fund (London Capital) SF515

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ 41,394	\$ 19	\$ 41,413	\$ 414
Euro	14,431	2	14,433	144
Australian Dollar	5,179	—	5,179	52
Other Currencies	11,792	54	11,846	119
Total	\$ 72,796	\$ 75	\$ 72,871	\$ 729
As Percent of Net Assets Attributable to Contractholders			88.5%	0.9%

*Includes both monetary and non-monetary instruments

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ 30,860	\$ 106	\$ 30,966	\$ 310
Euro	13,873	—	13,873	139
Australian Dollar	5,647	6	5,653	57
Other Currencies	10,760	—	10,760	107
Total	\$ 61,140	\$ 112	\$ 61,252	\$ 613
As Percent of Net Assets Attributable to Contractholders			89.2%	0.9%

*Includes both monetary and non-monetary instruments

D. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$817 (\$683 at December 31, 2021) or approximately 1.0% (1.0% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

Global Infrastructure Equity Fund (London Capital) SF515

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

E. Fair Value Classification

The following table presents information about the Fund's assets and liabilities measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

2022				
Assets and Liabilities Measured at Fair Value				
<u>Assets measured at fair value</u>	Level 1	Level 2	Level 3	Total
Stocks	\$ 81,361	\$ 381	\$ —	\$ 81,742
Derivatives	—	—	—	—
Total assets measured at fair value	\$ 81,361	\$ 381	\$ —	\$ 81,742
<u>Liabilities measured at fair value</u>				
Derivatives	\$ —	\$ —	\$ —	\$ —
Net assets attributable to contractholders measured at fair value	\$ 81,361	\$ 381	\$ —	\$ 81,742

2021				
Assets and Liabilities Measured at Fair Value				
<u>Assets measured at fair value</u>	Level 1	Level 2	Level 3	Total
Stocks	\$ 54,917	\$ 13,413	\$ —	\$ 68,330
Derivatives	—	—	—	—
Total assets measured at fair value	\$ 54,917	\$ 13,413	\$ —	\$ 68,330
<u>Liabilities measured at fair value</u>				
Derivatives	\$ —	\$ —	\$ —	\$ —
Net assets attributable to contractholders measured at fair value	\$ 54,917	\$ 13,413	\$ —	\$ 68,330

In accordance with the Fund's valuation policy, the Fund applies fair value adjustment factors to the quoted market prices for certain non-North American equities when North American intraday stock market movements exceed predetermined tolerances. The adjustment factors are applied in order to estimate the impact on fair values of events occurring between the close of the non-North American stock markets and the close of business for the Fund. If fair value adjustment factors are applied, non-North American equities are classified as Level 2. Consequently, non-North American equities are frequently transferred between Level 1 (unadjusted quoted market prices) and Level 2 (adjusted market prices). As at December 31, 2022, these securities were classified as Level 2 (Level 2 at December 31, 2021).

Global Infrastructure Equity Fund (London Capital) SF515

(in Canadian \$, except number of units outstanding)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance. Portfolio units are allocated to each category as described in note 3 and are not included on this page.

Global Infrastructure Equity Fund (London Capital) SF515

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Global Infrastructure Equity Fund (London Capital) SF515

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Global Infrastructure Equity Fund (London Capital) SF515

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Global Infrastructure Equity Fund (London Capital) SF515

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) **Stocks**

Stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) **Cash, Short-term Deposits and Overdrafts**

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

Global Infrastructure Equity Fund (London Capital) SF515

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Derivatives

Derivatives are classified and measured at fair value. Derivatives are valued using market transactions and other market evidence whenever possible, including market based inputs to models, broker or dealer quotations or alternative pricing sources with reasonable levels of transparency. When models are used, the selection of a particular model to value a derivative depends on the contractual terms of, and specific risks inherent in, the instrument, as well as the availability of pricing information in the market. The Company generally uses similar models to value similar instruments. Valuation models require a variety of inputs, including contractual terms, market prices and rates, yield curves, credit curves, measures volatility, prepayment rates and correlations of such inputs.

f) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

g) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Global Infrastructure Equity Fund (London Capital) SF515

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

h) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

i) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

j) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

k) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

Global Infrastructure Equity Fund (London Capital) SF515

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

l) Income Allocation

Net gain (loss) on investments, which includes dividend income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

m) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

n) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Global Infrastructure Equity Fund (London Capital) SF515

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Global Infrastructure Equity Fund (London Capital) SF515

Notes to the Financial Statements

(in Canadian \$ thousands)

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

7. DERIVATIVE FINANCIAL INSTRUMENTS

Derivative contracts, including forward currency, futures and equity swap contracts, are valued at the gain or loss that would arise as a result of closing the position at the reporting date. Options are recorded at fair value as at the reporting date. The Fund may use derivative contracts to hedge against losses caused by changes in securities prices, interest rates, exchange rates and/or other risks. The Fund may also use derivative contracts for non-hedging purposes in order to invest indirectly in financial markets or to gain exposure to other currencies, provided the use of such derivatives is consistent with the Fund's investment objectives and strategies. Foreign currency risk and exposure may be direct or indirect and can include all or a portion of the currency exposure of an existing investment or group of investments. Any such gain or loss on derivative contracts is recorded as part of net gain (loss) on investments.

As at the reporting date, the unrealized gain (loss) on derivative contracts is reflected on the Statement of Financial Position of the Fund.

The Fund manages derivative credit risk through collateral arrangements where required. The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are implemented by the Fund regarding the acceptability of types of collateral and the valuation parameters. The Fund Manager monitors the value of the collateral and requests additional collateral when needed.

Global Infrastructure Equity Fund (London Capital) SF515

Notes to the Financial Statements

(in Canadian \$ thousands)

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	96.38	141.60	93.16	89.96	86.30

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY
MAXXUM CANADIAN BALANCED FUND (MACKENZIE) SF519

December 31, 2022

Independent Auditor's Report

To the Contractholders of Maxxum Canadian Balanced Fund (Mackenzie) SF519 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Maxxum Canadian Balanced Fund (Mackenzie) SF519

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Maxxum Canadian Balanced Fund (Mackenzie) SF519 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Maxxum Canadian Balanced Fund (Mackenzie) SF519

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Maxxum Canadian Balanced Fund (Mackenzie) SF519

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Maxxum Canadian Balanced Fund (Mackenzie) SF519

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Maxxum Canadian Balanced Fund (Mackenzie) SF519

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Maxxum Canadian Balanced Fund (Mackenzie) SF519

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Maxxum Canadian Balanced Fund (Mackenzie) SF519

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Maxxum Canadian Balanced Fund (Mackenzie) SF519

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Maxxum Canadian Balanced Fund (Mackenzie) SF519

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Canada Life Investment Management Ltd. All investment transactions with the corresponding underlying funds are at quoted market prices.

Maxxum Canadian Balanced Fund (Mackenzie) SF519

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Maxxum Canadian Balanced Fund (Mackenzie) SF519

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾

Portfolio Turnover Rate (%) ⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	15.24	114.89	11.22	123.82	10.04

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
SAXON BALANCED FUND (MACKENZIE) SF520

December 31, 2022

Independent Auditor's Report

To the Contractholders of Saxon Balanced Fund (Mackenzie) SF520 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Saxon Balanced Fund (Mackenzie) SF520

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Saxon Balanced Fund (Mackenzie) SF520 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Saxon Balanced Fund (Mackenzie) SF520

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Saxon Balanced Fund (Mackenzie) SF520

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Saxon Balanced Fund (Mackenzie) SF520

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Saxon Balanced Fund (Mackenzie) SF520

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Saxon Balanced Fund (Mackenzie) SF520

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Saxon Balanced Fund (Mackenzie) SF520

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Saxon Balanced Fund (Mackenzie) SF520

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Saxon Balanced Fund (Mackenzie) SF520

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

Saxon Balanced Fund (Mackenzie) SF520

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Saxon Balanced Fund (Mackenzie) SF520

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Portfolio Turnover Rate (%) ⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	1.82	0.56	1.65	23.78	126.62

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

SENTINEL INCOME FUND (MACKENZIE) SF521

December 31, 2022

Independent Auditor's Report

To the Contractholders of Sentinel Income Fund (Mackenzie) SF521 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Sentinel Income Fund (Mackenzie) SF521

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Sentinel Income Fund (Mackenzie) SF521 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Sentinel Income Fund (Mackenzie) SF521

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Sentinel Income Fund (Mackenzie) SF521

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Sentinel Income Fund (Mackenzie) SF521

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Sentinel Income Fund (Mackenzie) SF521

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Sentinel Income Fund (Mackenzie) SF521

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Sentinel Income Fund (Mackenzie) SF521

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Sentinel Income Fund (Mackenzie) SF521

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Sentinel Income Fund (Mackenzie) SF521

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

Sentinel Income Fund (Mackenzie) SF521

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Sentinel Income Fund (Mackenzie) SF521

Portfolio Turnover Rate (%) ⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	11.47	1.68	4.14	4.53	22.31

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY

U.S. DIVIDEND FUND (GWLIM) SF522

December 31, 2022

Independent Auditor's Report

To the Contractholders of U.S. Dividend Fund (GWLIM) SF522 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

U.S. Dividend Fund (GWLIM) SF522

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the U.S. Dividend Fund (GWLIM) SF522 (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ 356,517	\$ 168	\$ 356,685	\$ 3,567
Total	\$ 356,517	\$ 168	\$ 356,685	\$ 3,567
As Percent of Net Assets Attributable to Contractholders			96.3%	1.0%

*Includes both monetary and non-monetary instruments

U.S. Dividend Fund (GWLIM) SF522

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ 315,545	\$ 172	\$ 315,717	\$ 3,157
Total	\$ 315,545	\$ 172	\$ 315,717	\$ 3,157
As Percent of Net Assets Attributable to Contractholders			98.3%	1.0%

*Includes both monetary and non-monetary instruments

D. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$3,565 (\$3,155 at December 31, 2021) or approximately 1.0% (1.0% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

E. Fair Value Classification

The following table presents information about the Fund's assets measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

Assets measured at fair value	2022			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 356,517	\$ —	\$ —	\$ 356,517
Total assets measured at fair value	\$ 356,517	\$ —	\$ —	\$ 356,517

Assets measured at fair value	2021			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 315,545	\$ —	\$ —	\$ 315,545
Total assets measured at fair value	\$ 315,545	\$ —	\$ —	\$ 315,545

There were no significant transfers between Level 1 and Level 2 during 2022 or 2021.

U.S. Dividend Fund (GWLIM) SF522

(in Canadian \$, except number of units outstanding)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

U.S. Dividend Fund (GWLIM) SF522

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

U.S. Dividend Fund (GWLIM) SF522

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

U.S. Dividend Fund (GWLIM) SF522

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

U.S. Dividend Fund (GWLIM) SF522

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) **Stocks**

Stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) **Cash, Short-term Deposits and Overdrafts**

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

U.S. Dividend Fund (GWLIM) SF522

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

U.S. Dividend Fund (GWLIM) SF522

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes dividend income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

U.S. Dividend Fund (GWLIM) SF522

Notes to the Financial Statements

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

U.S. Dividend Fund (GWLIM) SF522

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

U.S. Dividend Fund (GWLIM) SF522

Notes to the Financial Statements

7. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	56.47	36.03	35.17	45.27	32.64

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY
FLOATING RATE INCOME FUND (MF) SF526

December 31, 2022

Independent Auditor's Report

To the Contractholders of Floating Rate Income Fund (MF) SF526 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Floating Rate Income Fund (MF) SF526

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Floating Rate Income Fund (MF) SF526 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Floating Rate Income Fund (MF) SF526

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Floating Rate Income Fund (MF) SF526

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Floating Rate Income Fund (MF) SF526

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Floating Rate Income Fund (MF) SF526

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Floating Rate Income Fund (MF) SF526

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Floating Rate Income Fund (MF) SF526

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Floating Rate Income Fund (MF) SF526

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Floating Rate Income Fund (MF) SF526

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Canada Life Investment Management Ltd. All investment transactions with the corresponding underlying funds are at quoted market prices.

Floating Rate Income Fund (MF) SF526

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Floating Rate Income Fund (MF) SF526

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾

Portfolio Turnover Rate	21.62	97.43	32.42	35.94	21.24

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
U.S. LOW VOLATILITY FUND (P) SF527

December 31, 2022

Independent Auditor's Report

To the Contractholders of U.S. Low Volatility Fund (P) SF527 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

U.S. Low Volatility Fund (P) SF527

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the U.S. Low Volatility Fund (P) SF527 (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ 4,111	\$ 4	\$ 4,115	\$ 41
Total	\$ 4,111	\$ 4	\$ 4,115	\$ 41
As Percent of Net Assets Attributable to Contractholders			99.7%	1.0%

*Includes both monetary and non-monetary instruments

U.S. Low Volatility Fund (P) SF527

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ 5,231	\$ 3	\$ 5,234	\$ 52
Total	\$ 5,231	\$ 3	\$ 5,234	\$ 52
As Percent of Net Assets Attributable to Contractholders			99.8%	1.0%

*Includes both monetary and non-monetary instruments

D. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$41 (\$52 at December 31, 2021) or approximately 1.0% (1.0% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

E. Fair Value Classification

The following table presents information about the Fund's assets measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

Assets measured at fair value	2022			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 4,111	\$ —	\$ —	\$ 4,111
Total assets measured at fair value	\$ 4,111	\$ —	\$ —	\$ 4,111

Assets measured at fair value	2021			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 5,231	\$ —	\$ —	\$ 5,231
Total assets measured at fair value	\$ 5,231	\$ —	\$ —	\$ 5,231

There were no significant transfers between Level 1 and Level 2 during 2022 or 2021.

U.S. Low Volatility Fund (P) SF527

(in Canadian \$, except number of units outstanding)

U.S. Low Volatility Fund (P) SF527

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

U.S. Low Volatility Fund (P) SF527

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

U.S. Low Volatility Fund (P) SF527

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

U.S. Low Volatility Fund (P) SF527

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) **Stocks**

Stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) **Cash, Short-term Deposits and Overdrafts**

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

U.S. Low Volatility Fund (P) SF527

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

U.S. Low Volatility Fund (P) SF527

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes dividend income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

U.S. Low Volatility Fund (P) SF527

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

U.S. Low Volatility Fund (P) SF527

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

The categories of units are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

U.S. Low Volatility Fund (P) SF527

Notes to the Financial Statements

(in Canadian \$ thousands)

7. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Putnam Investments, LLC or its subsidiaries. All investment transactions with the corresponding underlying funds are at quoted market prices.

Supplemental Information *(unaudited)*

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾

For the years ended December 31	2022	2021	2020	2019	2018
75/75 guarantee policy	2.81	2.80	2.81	2.83	2.85
75/100 guarantee policy	2.98	2.97	2.98	3.00	2.99
100/100 guarantee policy	3.24	3.24	3.25	3.27	3.27
PS1 75/75 guarantee policy	2.30	2.29	2.30	2.32	2.32
PS1 75/100 guarantee policy	2.57	2.57	2.57	2.59	2.60
PS1 100/100 guarantee policy	3.01	3.00	3.01	3.04	3.01
PS 75/100 guarantee policy	1.88	1.87	1.87	1.89	—

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	107.02	48.34	53.37	66.93	107.69

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY
GLOBAL DIVIDEND FUND (SAM) SF528

December 31, 2022

Independent Auditor's Report

To the Contractholders of Global Dividend Fund (SAM) SF528 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Global Dividend Fund (SAM) SF528

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the Global Dividend Fund (SAM) SF528 (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

Global Dividend Fund (SAM) SF528

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
Euro	\$ 57,183	\$ 427	\$ 57,610	\$ 576
United States Dollar	47,728	(196)	47,532	476
United Kingdom Pound Sterling	21,073	—	21,073	211
Swiss Franc	19,726	—	19,726	197
Other Currencies	37,857	255	38,112	381
Total	\$ 183,567	\$ 486	\$ 184,053	\$ 1,841
As Percent of Net Assets Attributable to Contractholders			97.2%	1.0%

*Includes both monetary and non-monetary instruments

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
Euro	\$ 57,684	\$ 7	\$ 57,691	\$ 577
United States Dollar	45,671	—	45,671	457
United Kingdom Pound Sterling	26,622	—	26,622	266
Swedish Krona	15,454	—	15,454	155
Other Currencies	39,724	—	39,724	397
Total	\$ 185,155	\$ 7	\$ 185,162	\$ 1,852
As Percent of Net Assets Attributable to Contractholders			98.5%	1.0%

*Includes both monetary and non-monetary instruments

D. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$1,856 (\$1,852 at December 31, 2021) or approximately 1.0% (1.0% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

Global Dividend Fund (SAM) SF528

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

E. Fair Value Classification

The following table presents information about the Fund's assets measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

<u>Assets measured at fair value</u>	2022			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 175,254	\$ 10,302	\$ —	\$ 185,556
Total assets measured at fair value	\$ 175,254	\$ 10,302	\$ —	\$ 185,556

<u>Assets measured at fair value</u>	2021			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 110,414	\$ 74,741	\$ —	\$ 185,155
Total assets measured at fair value	\$ 110,414	\$ 74,741	\$ —	\$ 185,155

In accordance with the Fund's valuation policy, the Fund applies fair value adjustment factors to the quoted market prices for certain non-North American equities when North American intraday stock market movements exceed predetermined tolerances. The adjustment factors are applied in order to estimate the impact on fair values of events occurring between the close of the non-North American stock markets and the close of business for the Fund. If fair value adjustment factors are applied, non-North American equities are classified as Level 2. Consequently, non-North American equities are frequently transferred between Level 1 (unadjusted quoted market prices) and Level 2 (adjusted market prices). As at December 31, 2022, these securities were classified as Level 2 (Level 2 at December 31, 2021).

Global Dividend Fund (SAM) SF528

(in Canadian \$, except number of units outstanding)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance. Portfolio units are allocated to each category as described in note 3 and are not included on this page.

Global Dividend Fund (SAM) SF528

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Global Dividend Fund (SAM) SF528

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Global Dividend Fund (SAM) SF528

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Global Dividend Fund (SAM) SF528

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) **Stocks**

Stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) **Cash, Short-term Deposits and Overdrafts**

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

Global Dividend Fund (SAM) SF528

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

Global Dividend Fund (SAM) SF528

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes dividend income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Global Dividend Fund (SAM) SF528

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Global Dividend Fund (SAM) SF528

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

Global Dividend Fund (SAM) SF528

Notes to the Financial Statements

7. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Setanta Asset Management Limited. All investment transactions with the corresponding underlying funds are at quoted market prices.

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	25.32	11.82	30.96	21.55	47.64

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

INTERNATIONAL EQUITY FUND (P) SF529

December 31, 2022

Independent Auditor's Report

To the Contractholders of International Equity Fund (P) SF529 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

International Equity Fund (P) SF529

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the International Equity Fund (P) SF529 (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

International Equity Fund (P) SF529

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
Euro	\$ 5,657	\$ 1	\$ 5,658	\$ 57
Japanese Yen	4,372	—	4,372	44
United Kingdom Pound Sterling	3,441	—	3,441	34
Swiss Franc	2,051	—	2,051	20
Other Currencies	3,917	178	4,095	41
Total	\$ 19,438	\$ 179	\$ 19,617	\$ 196
As Percent of Net Assets Attributable to Contractholders			100.1%	1.0%

*Includes both monetary and non-monetary instruments

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
Euro	\$ 6,868	\$ —	\$ 6,868	\$ 69
Japanese Yen	4,605	—	4,605	46
United Kingdom Pound Sterling	2,623	4	2,627	26
United States Dollar	(518)	742	224	2
Other Currencies	6,090	1	6,091	61
Total	\$ 19,668	\$ 747	\$ 20,415	\$ 204
As Percent of Net Assets Attributable to Contractholders			99.4%	1.0%

*Includes both monetary and non-monetary instruments

D. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$194 (\$197 at December 31, 2021) or approximately 1.0% (1.0% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

International Equity Fund (P) SF529

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

E. Fair Value Classification

The following table presents information about the Fund's assets and liabilities measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

	2022			
	Assets and Liabilities Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Assets measured at fair value				
Stocks	\$ 19,049	\$ 332	\$ —	\$ 19,381
Derivatives	—	197	—	197
Total assets measured at fair value	\$ 19,049	\$ 529	\$ —	\$ 19,578
Liabilities measured at fair value				
Derivatives	\$ —	\$ 133	\$ —	\$ 133
Net assets attributable to contractholders measured at fair value	\$ 19,049	\$ 396	\$ —	\$ 19,445

	2021			
	Assets and Liabilities Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Assets measured at fair value				
Stocks	\$ 11,896	\$ 7,798	\$ —	\$ 19,694
Derivatives	—	46	—	46
Total assets measured at fair value	\$ 11,896	\$ 7,844	\$ —	\$ 19,740
Liabilities measured at fair value				
Derivatives	\$ —	\$ 60	\$ —	\$ 60
Net assets attributable to contractholders measured at fair value	\$ 11,896	\$ 7,784	\$ —	\$ 19,680

In accordance with the Fund's valuation policy, the Fund applies fair value adjustment factors to the quoted market prices for certain non-North American equities when North American intraday stock market movements exceed predetermined tolerances. The adjustment factors are applied in order to estimate the impact on fair values of events occurring between the close of the non-North American stock markets and the close of business for the Fund. If fair value adjustment factors are applied, non-North American equities are classified as Level 2. Consequently, non-North American equities are frequently transferred between Level 1 (unadjusted quoted market prices) and Level 2 (adjusted market prices). As at December 31, 2022, these securities were classified as Level 2 (Level 2 at December 31, 2021).

International Equity Fund (P) SF529

(in Canadian \$, except number of units outstanding)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance. Portfolio units are allocated to each category as described in note 3 and are not included on this page.

International Equity Fund (P) SF529

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

International Equity Fund (P) SF529

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

International Equity Fund (P) SF529

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

International Equity Fund (P) SF529

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) **Stocks**

Stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) **Cash, Short-term Deposits and Overdrafts**

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

International Equity Fund (P) SF529

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Derivatives

Derivatives are classified and measured at fair value. Derivatives are valued using market transactions and other market evidence whenever possible, including market based inputs to models, broker or dealer quotations or alternative pricing sources with reasonable levels of transparency. When models are used, the selection of a particular model to value a derivative depends on the contractual terms of, and specific risks inherent in, the instrument, as well as the availability of pricing information in the market. The Company generally uses similar models to value similar instruments. Valuation models require a variety of inputs, including contractual terms, market prices and rates, yield curves, credit curves, measures volatility, prepayment rates and correlations of such inputs.

f) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

g) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

International Equity Fund (P) SF529

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

h) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

i) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

j) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

k) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

International Equity Fund (P) SF529

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

l) Income Allocation

Net gain (loss) on investments, which includes dividend income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

m) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

n) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

International Equity Fund (P) SF529

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

International Equity Fund (P) SF529

Notes to the Financial Statements

(in Canadian \$ thousands)

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

7. DERIVATIVE FINANCIAL INSTRUMENTS

Derivative contracts, including forward currency, futures and equity swap contracts, are valued at the gain or loss that would arise as a result of closing the position at the reporting date. Options are recorded at fair value as at the reporting date. The Fund may use derivative contracts to hedge against losses caused by changes in securities prices, interest rates, exchange rates and/or other risks. The Fund may also use derivative contracts for non-hedging purposes in order to invest indirectly in financial markets or to gain exposure to other currencies, provided the use of such derivatives is consistent with the Fund's investment objectives and strategies. Foreign currency risk and exposure may be direct or indirect and can include all or a portion of the currency exposure of an existing investment or group of investments. Any such gain or loss on derivative contracts is recorded as part of net gain (loss) on investments.

As at the reporting date, the unrealized gain (loss) on derivative contracts is reflected on the Statement of Financial Position of the Fund.

The Fund manages derivative credit risk through collateral arrangements where required. The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are implemented by the Fund regarding the acceptability of types of collateral and the valuation parameters. The Fund Manager monitors the value of the collateral and requests additional collateral when needed.

International Equity Fund (P) SF529

Notes to the Financial Statements

(in Canadian \$ thousands)

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Putnam Investments, LLC or its subsidiaries. All investment transactions with the corresponding underlying funds are at quoted market prices.

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	86.02	82.94	115.41	76.67	70.58

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY
GLOBAL UNCONSTRAINED FUND (MACKENZIE) SF530

December 31, 2022

Independent Auditor's Report

To the Contractholders of Global Unconstrained Fund (Mackenzie) SF530 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Global Unconstrained Fund (Mackenzie) SF530

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Global Unconstrained Fund (Mackenzie) SF530 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Global Unconstrained Fund (Mackenzie) SF530

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Global Unconstrained Fund (Mackenzie) SF530

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Global Unconstrained Fund (Mackenzie) SF530

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Global Unconstrained Fund (Mackenzie) SF530

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Global Unconstrained Fund (Mackenzie) SF530

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Global Unconstrained Fund (Mackenzie) SF530

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Global Unconstrained Fund (Mackenzie) SF530

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

Global Unconstrained Fund (Mackenzie) SF530

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Global Unconstrained Fund (Mackenzie) SF530

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾

Portfolio Turnover Rate (%) ⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	8.25	7.73	18.97	8.66	14.15

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
CORE BOND FUND (PIM) SF531

December 31, 2022

Independent Auditor's Report

To the Contractholders of Core Bond Fund (PIM) SF531 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Introduction

The objective of the Core Bond Fund (PIM) SF531 (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ 8,970	\$ 6,630	\$ 15,600	\$ 156
Other Currencies	—	(44)	(44)	—
Total	\$ 8,970	\$ 6,586	\$ 15,556	\$ 156
As Percent of Net Assets Attributable to Contractholders			4.7%	

*Includes both monetary and non-monetary instruments

Core Bond Fund (PIM) SF531

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ 2,470	\$ 162	\$ 2,632	\$ 26
Total	\$ 2,470	\$ 162	\$ 2,632	\$ 26
As Percent of Net Assets Attributable to Contractholders				0.6%

*Includes both monetary and non-monetary instruments

D. Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund is exposed to the risk that the value of interest-bearing financial instruments will fluctuate due to changes in the prevailing levels of market interest rates. Due to the nature of short-term fixed income securities with a remaining term-to-maturity of less than one year, these investments are not generally exposed to a significant risk that their value will fluctuate in response to changes in the prevailing levels of market interest rates. The risk is professionally managed at the security and fund level by the Company.

The table below summarizes the Fund's exposure to interest rate risk by remaining term-to-maturity.

2022

	1 year or less	Over 1 year to 5 years	Over 5 years to 10 years	Over 10 years	Total
Bonds	\$ 1,029	\$ 110,244	\$ 115,018	\$ 78,658	\$ 304,949

2021

	1 year or less	Over 1 year to 5 years	Over 5 years to 10 years	Over 10 years	Total
Bonds	\$ 3,960	\$ 159,522	\$ 106,450	\$ 116,554	\$ 386,486

As at December 31, 2022, had prevailing interest rates increased or decreased by 1% assuming a parallel shift in the yield curve, with all other variables held constant, net assets attributable to contractholders would have decreased or increased, respectively, by approximately \$21,681 (\$26,441 at December 31, 2021) or approximately 6.6% (6.3% at December 31, 2021). The Fund's sensitivity to interest rate changes was estimated using the weighted average duration of the bond portfolio. In practice, the actual results may differ and the difference could be significant.

E. Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund's greatest concentration of credit risk is in debt securities, such as bonds. The fair value of debt instruments includes consideration of the creditworthiness of the debt issuer. The carrying amount of debt instruments represents the maximum credit risk exposure as at December 31, 2022. The amount of credit risk to any one issuer may be determined from the information reported in the Schedule of Investment Portfolio. The Fund may invest in short-term fixed income securities issued or guaranteed primarily by the Government of Canada or any Canadian provincial government, obligations of Canadian chartered banks or trust companies, and commercial paper with approved credit ratings. The risk of default on these short-term fixed income securities is considered low. The Company monitors credit risk and credit ratings on a regular basis. All new counterparties to financial instruments are subject to an approval process.

There was no change in fair values of financial liabilities as a result of changes in credit risks during 2022 or 2021.

Core Bond Fund (PIM) SF531

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

E. Credit Risk (continued)

All transactions in listed securities are settled and paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker.

Credit ratings disclosed below are obtained from independent rating agencies including DBRS, Standard & Poor's, Moody's Investors Service and Fitch Ratings. The lowest rating provided by the agencies is used.

Debt securities by credit rating are as follows:

	2022		2021	
	Percent of Total Bonds (%)	Percent of Total Net Assets Attributable to Contractholders (%)	Percent of Total Bonds (%)	Percent of Total Net Assets Attributable to Contractholders (%)
AAA	7.2	6.6	15.5	14.3
AA	29.1	26.9	24.8	23.0
A	36.6	33.9	27.8	25.8
BBB	27.1	25.1	31.7	29.4
BB and lower	—	—	0.1	0.1
NR *	—	—	0.1	0.1
Total	100.0	92.5	100.0	92.7

*Bonds disclosed as NR are mortgage backed securities or privately placed bonds or bonds that have not been rated by a rating agency.

F. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$92 (\$62 at December 31, 2021) or approximately 0.0% (0.0% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

Core Bond Fund (PIM) SF531

G. Fair Value Classification

The following table presents information about the Fund's assets and liabilities measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

	2022			
	Assets and Liabilities Measured at Fair Value			
<u>Assets measured at fair value</u>	Level 1	Level 2	Level 3	Total
Bonds	\$ —	\$ 304,949	\$ —	\$ 304,949
Stocks	9,224	—	—	9,224
Derivatives	150	—	—	150
Total assets measured at fair value	\$ 9,374	\$ 304,949	\$ —	\$ 314,323
Liabilities measured at fair value				
Derivatives ⁽¹⁾	\$ —	\$ —	\$ —	\$ —
Net assets attributable to contractholders measured at fair value	\$ 9,374	\$ 304,949	\$ —	\$ 314,323

⁽¹⁾ Excludes collateral pledged to counterparties of \$1,441.

	2021			
	Assets and Liabilities Measured at Fair Value			
<u>Assets measured at fair value</u>	Level 1	Level 2	Level 3	Total
Bonds	\$ —	\$ 386,486	\$ —	\$ 386,486
Stocks	6,217	—	—	6,217
Derivatives	—	—	—	—
Total assets measured at fair value	\$ 6,217	\$ 386,486	\$ —	\$ 392,703
Liabilities measured at fair value				
Derivatives ⁽¹⁾	\$ —	\$ —	\$ —	\$ —
Net assets attributable to contractholders measured at fair value	\$ 6,217	\$ 386,486	\$ —	\$ 392,703

⁽¹⁾ Excludes collateral pledged to counterparties of \$721.

There were no significant transfers between Level 1 and Level 2 during 2022 or 2021.

Core Bond Fund (PIM) SF531

(in Canadian \$, except number of units outstanding)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance. Portfolio units are allocated to each category as described in note 3 and are not included on this page.

Core Bond Fund (PIM) SF531

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Core Bond Fund (PIM) SF531

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Core Bond Fund (PIM) SF531

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Core Bond Fund (PIM) SF531

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Bonds and Stocks

Bonds and stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

Core Bond Fund (PIM) SF531

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Derivatives

Derivatives are classified and measured at fair value. Derivatives are valued using market transactions and other market evidence whenever possible, including market based inputs to models, broker or dealer quotations or alternative pricing sources with reasonable levels of transparency. When models are used, the selection of a particular model to value a derivative depends on the contractual terms of, and specific risks inherent in, the instrument, as well as the availability of pricing information in the market. The Company generally uses similar models to value similar instruments. Valuation models require a variety of inputs, including contractual terms, market prices and rates, yield curves, credit curves, measures volatility, prepayment rates and correlations of such inputs.

f) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

g) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Interest income on debt securities - included in the change in fair value of such investments and recorded on the accrual basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Core Bond Fund (PIM) SF531

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

h) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

i) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

j) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

k) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

Core Bond Fund (PIM) SF531

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

l) Income Allocation

Net gain (loss) on investments, which includes dividend income, interest income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

m) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

n) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Core Bond Fund (PIM) SF531

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S1C 75/75 Constellation IC Wealth,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S2C 75/75 Constellation IC Wealth,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy,
- Option S3HF PPS 100/100 guarantee policy, and
- Option S3C 75/75 Constellation IC Wealth.

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Core Bond Fund (PIM) SF531

Notes to the Financial Statements

(in Canadian \$ thousands)

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

7. DERIVATIVE FINANCIAL INSTRUMENTS

Derivative contracts, including forward currency, futures and equity swap contracts, are valued at the gain or loss that would arise as a result of closing the position at the reporting date. Options are recorded at fair value as at the reporting date. The Fund may use derivative contracts to hedge against losses caused by changes in securities prices, interest rates, exchange rates and/or other risks. The Fund may also use derivative contracts for non-hedging purposes in order to invest indirectly in financial markets or to gain exposure to other currencies, provided the use of such derivatives is consistent with the Fund's investment objectives and strategies. Foreign currency risk and exposure may be direct or indirect and can include all or a portion of the currency exposure of an existing investment or group of investments. Any such gain or loss on derivative contracts is recorded as part of net gain (loss) on investments.

As at the reporting date, the unrealized gain (loss) on derivative contracts is reflected on the Statement of Financial Position of the Fund.

The Fund manages derivative credit risk through collateral arrangements where required. The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are implemented by the Fund regarding the acceptability of types of collateral and the valuation parameters. The Fund Manager monitors the value of the collateral and requests additional collateral when needed.

Core Bond Fund (PIM) SF531

Notes to the Financial Statements

(in Canadian \$ thousands)

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	113.67	94.22	7.94	14.80	17.43

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY
EMERGING MARKETS FUND (MACKENZIE) SF532

December 31, 2022

Independent Auditor's Report

To the Contractholders of Emerging Markets Fund (Mackenzie) SF532 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Emerging Markets Fund (Mackenzie) SF532

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Emerging Markets Fund (Mackenzie) SF532 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Emerging Markets Fund (Mackenzie) SF532

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Emerging Markets Fund (Mackenzie) SF532

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Emerging Markets Fund (Mackenzie) SF532

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Emerging Markets Fund (Mackenzie) SF532

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Emerging Markets Fund (Mackenzie) SF532

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Emerging Markets Fund (Mackenzie) SF532

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Emerging Markets Fund (Mackenzie) SF532

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Emerging Markets Fund (Mackenzie) SF532

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

Emerging Markets Fund (Mackenzie) SF532

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Emerging Markets Fund (Mackenzie) SF532

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾

For the years ended December 31	2022	2021	2020	2019	2018
75/75 guarantee policy	3.29	3.31	3.32	3.31	3.28
75/100 guarantee policy	3.51	3.53	3.54	3.53	3.50

PS1 100/100 guarantee policy	3.42	3.45	3.47	3.45	3.43

Portfolio Turnover Rate (%) ⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	1.11	1.51	0.95	14.43	203.39

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
PATHWAYS CORE PLUS BOND FUND (MACKENZIE) SF540

December 31, 2022

Independent Auditor's Report

To the Contractholders of Pathways Core Plus Bond Fund (Mackenzie) SF540 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Pathways Core Plus Bond Fund (Mackenzie) SF540

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Pathways Core Plus Bond Fund (Mackenzie) SF540 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Pathways Core Plus Bond Fund (Mackenzie) SF540

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Pathways Core Plus Bond Fund (Mackenzie) SF540

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Pathways Core Plus Bond Fund (Mackenzie) SF540

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Pathways Core Plus Bond Fund (Mackenzie) SF540

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Pathways Core Plus Bond Fund (Mackenzie) SF540

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Pathways Core Plus Bond Fund (Mackenzie) SF540

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Pathways Core Plus Bond Fund (Mackenzie) SF540

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S1C 75/75 Constellation IC Wealth,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S2C 75/75 Constellation IC Wealth,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy,
- Option S3HF PPS 100/100 guarantee policy, and
- Option S3C 75/75 Constellation IC Wealth.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Pathways Core Plus Bond Fund (Mackenzie) SF540

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Canada Life Investment Management Ltd. All investment transactions with the corresponding underlying funds are at quoted market prices.

Pathways Core Plus Bond Fund (Mackenzie) SF540

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Pathways Core Plus Bond Fund (Mackenzie) SF540

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018

Portfolio Turnover Rate (%) ⁽²⁾⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	15.14	13.60	16.12	2.51	—

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(3) The Fund commenced on June 17, 2019 and as a result does not have comparative figures for the prior year.

PATHWAYS GLOBAL CORE PLUS BOND FUND (MACKENZIE) SF541

December 31, 2022

Independent Auditor's Report

To the Contractholders of Pathways Global Core Plus Bond Fund (Mackenzie) SF541 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Pathways Global Core Plus Bond Fund (Mackenzie) SF541

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Pathways Global Core Plus Bond Fund (Mackenzie) SF541 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Pathways Global Core Plus Bond Fund (Mackenzie) SF541

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Pathways Global Core Plus Bond Fund (Mackenzie) SF541

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Pathways Global Core Plus Bond Fund (Mackenzie) SF541

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Pathways Global Core Plus Bond Fund (Mackenzie) SF541

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Pathways Global Core Plus Bond Fund (Mackenzie) SF541

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Pathways Global Core Plus Bond Fund (Mackenzie) SF541

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S1C 75/75 Constellation IC Wealth,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S2C 75/75 Constellation IC Wealth,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy,
- Option S3HF PPS 100/100 guarantee policy, and
- Option S3C 75/75 Constellation IC Wealth.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Pathways Global Core Plus Bond Fund (Mackenzie) SF541

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Canada Life Investment Management Ltd. All investment transactions with the corresponding underlying funds are at quoted market prices.

Pathways Global Core Plus Bond Fund (Mackenzie) SF541

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Pathways Global Core Plus Bond Fund (Mackenzie) SF541

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
75/75 guarantee policy	2.35	2.35	2.35	2.26	—

Portfolio Turnover Rate (%) ⁽²⁾⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	19.20	20.45	17.99	57.52	—

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(3) The Fund commenced on June 17, 2019 and as a result does not have comparative figures for the prior year.

December 31, 2022

Independent Auditor's Report

To the Contractholders of Pathways Global Multi Sector Bond Fund (Brandywine) SF542 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the

aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

⁽¹⁾ The Fund commenced on June 17, 2019 and as a result does not have comparative figures for the prior year.

Pathways Global Multi Sector Bond Fund (Brandywine) SF542

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Pathways Global Multi Sector Bond Fund (Brandywine) SF542 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Pathways Global Multi Sector Bond Fund (Brandywine) SF542

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Pathways Global Multi Sector Bond Fund (Brandywine) SF542

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Pathways Global Multi Sector Bond Fund (Brandywine) SF542

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Pathways Global Multi Sector Bond Fund (Brandywine) SF542

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Pathways Global Multi Sector Bond Fund (Brandywine) SF542

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Pathways Global Multi Sector Bond Fund (Brandywine) SF542

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Pathways Global Multi Sector Bond Fund (Brandywine) SF542

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S1C 75/75 Constellation IC Wealth,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S2C 75/75 Constellation IC Wealth,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy,
- Option S3HF PPS 100/100 guarantee policy, and
- Option S3C 75/75 Constellation IC Wealth.

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Pathways Global Multi Sector Bond Fund (Brandywine) SF542

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Canada Life Investment Management Ltd. All investment transactions with the corresponding underlying funds are at quoted market prices.

Pathways Global Multi Sector Bond Fund (Brandywine) SF542

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Pathways Global Multi Sector Bond Fund (Brandywine) SF542

Portfolio Turnover Rate (%) ⁽³⁾⁽⁴⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	2.80	1.14	4.08	28.89	—

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(4) The Fund commenced on June 17, 2019 and as a result does not have comparative figures for the prior year.

THE CANADA LIFE ASSURANCE COMPANY
PATHWAYS CANADIAN EQUITY FUND (GWLIM) SF543

December 31, 2022

Independent Auditor's Report

To the Contractholders of Pathways Canadian Equity Fund (GWLIM) SF543 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Pathways Canadian Equity Fund (GWLIM) SF543

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Pathways Canadian Equity Fund (GWLIM) SF543 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Pathways Canadian Equity Fund (GWLIM) SF543

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Pathways Canadian Equity Fund (GWLIM) SF543

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Pathways Canadian Equity Fund (GWLIM) SF543

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Pathways Canadian Equity Fund (GWLIM) SF543

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Pathways Canadian Equity Fund (GWLIM) SF543

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Pathways Canadian Equity Fund (GWLIM) SF543

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Pathways Canadian Equity Fund (GWLIM) SF543

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S1C 75/75 Constellation IC Wealth,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S2C 75/75 Constellation IC Wealth,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy,
- Option S3HF PPS 100/100 guarantee policy, and
- Option S3C 75/75 Constellation IC Wealth.

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Pathways Canadian Equity Fund (GWLIM) SF543

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Canada Life Investment Management Ltd. All investment transactions with the corresponding underlying funds are at quoted market prices.

Pathways Canadian Equity Fund (GWLIM) SF543

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Pathways Canadian Equity Fund (GWLIM) SF543

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾⁽⁴⁾

Portfolio Turnover Rate (%) ⁽³⁾⁽⁴⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	8.37	6.45	3.02	7.39	—

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(4) The Fund commenced on June 17, 2019 and as a result does not have comparative figures for the prior year.

December 31, 2022

Independent Auditor's Report

To the Contractholders of Pathways Canadian Concentrated Equity Fund (Galibier) SF544 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the

aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Pathways Canadian Concentrated Equity Fund (Galibier) SF544

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Pathways Canadian Concentrated Equity Fund (Galibier) SF544 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Pathways Canadian Concentrated Equity Fund (Galibier) SF544

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Pathways Canadian Concentrated Equity Fund (Galibier) SF544

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Pathways Canadian Concentrated Equity Fund (Galibier) SF544

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Pathways Canadian Concentrated Equity Fund (Galibier) SF544

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Pathways Canadian Concentrated Equity Fund (Galibier) SF544

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Pathways Canadian Concentrated Equity Fund (Galibier) SF544

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Pathways Canadian Concentrated Equity Fund (Galibier) SF544

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S1C 75/75 Constellation IC Wealth,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S2C 75/75 Constellation IC Wealth,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy,
- Option S3HF PPS 100/100 guarantee policy, and
- Option S3C 75/75 Constellation IC Wealth.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Pathways Canadian Concentrated Equity Fund (Galibier) SF544

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Canada Life Investment Management Ltd. All investment transactions with the corresponding underlying funds are at quoted market prices.

Pathways Canadian Concentrated Equity Fund (Galibier) SF544

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Pathways Canadian Concentrated Equity Fund (Galibier) SF544

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾⁽⁴⁾

For the years ended December 31	2022	2021	2020	2019	2018

PPS 75/75 guarantee policy	1.31	1.32	1.34	1.29	—
PPS 75/100 guarantee policy	1.59	1.59	1.62	—	—

Portfolio Turnover Rate (%) ⁽³⁾⁽⁴⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	11.19	7.18	17.37	9.34	—

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(4) The Fund commenced on June 17, 2019 and as a result does not have comparative figures for the prior year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
PATHWAYS U.S. EQUITY FUND (PUTNAM) SF545

December 31, 2022

Independent Auditor's Report

To the Contractholders of Pathways U.S. Equity Fund (Putnam) SF545 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Pathways U.S. Equity Fund (Putnam) SF545

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Pathways U.S. Equity Fund (Putnam) SF545 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Pathways U.S. Equity Fund (Putnam) SF545

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Pathways U.S. Equity Fund (Putnam) SF545

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Pathways U.S. Equity Fund (Putnam) SF545

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Pathways U.S. Equity Fund (Putnam) SF545

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Pathways U.S. Equity Fund (Putnam) SF545

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Pathways U.S. Equity Fund (Putnam) SF545

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Pathways U.S. Equity Fund (Putnam) SF545

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S1C 75/75 Constellation IC Wealth,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S2C 75/75 Constellation IC Wealth,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy,
- Option S3HF PPS 100/100 guarantee policy, and
- Option S3C 75/75 Constellation IC Wealth.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Pathways U.S. Equity Fund (Putnam) SF545

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Canada Life Investment Management Ltd. All investment transactions with the corresponding underlying funds are at quoted market prices.

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Pathways U.S. Equity Fund (Putnam) SF545

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Portfolio Turnover Rate (%) ⁽³⁾⁽⁴⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	16.46	97.27	13.97	5.11	—

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(4) The Fund commenced on June 17, 2019 and as a result does not have comparative figures for the prior year.

THE CANADA LIFE ASSURANCE COMPANY

PATHWAYS U.S. CONCENTRATED EQUITY FUND (ARISTOTLE) SF546

December 31, 2022

Independent Auditor's Report

To the Contractholders of Pathways U.S. Concentrated Equity Fund (Aristotle) SF546 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Pathways U.S. Concentrated Equity Fund (Aristotle) SF546

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Pathways U.S. Concentrated Equity Fund (Aristotle) SF546 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Pathways U.S. Concentrated Equity Fund (Aristotle) SF546

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Pathways U.S. Concentrated Equity Fund (Aristotle) SF546

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Pathways U.S. Concentrated Equity Fund (Aristotle) SF546

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Pathways U.S. Concentrated Equity Fund (Aristotle) SF546

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Pathways U.S. Concentrated Equity Fund (Aristotle) SF546

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Pathways U.S. Concentrated Equity Fund (Aristotle) SF546

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Pathways U.S. Concentrated Equity Fund (Aristotle) SF546

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S1C 75/75 Constellation IC Wealth,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S2C 75/75 Constellation IC Wealth,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy,
- Option S3HF PPS 100/100 guarantee policy, and
- Option S3C 75/75 Constellation IC Wealth.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Pathways U.S. Concentrated Equity Fund (Aristotle) SF546

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Canada Life Investment Management Ltd. All investment transactions with the corresponding underlying funds are at quoted market prices.

Pathways U.S. Concentrated Equity Fund (Aristotle) SF546

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Pathways U.S. Concentrated Equity Fund (Aristotle) SF546

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾⁽⁴⁾

Portfolio Turnover Rate (%) ⁽³⁾⁽⁴⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	17.78	6.67	6.48	1.16	—

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(4) The Fund commenced on June 17, 2019 and as a result does not have comparative figures for the prior year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
PATHWAYS INTERNATIONAL EQUITY FUND (SETANTA) SF547

December 31, 2022

Independent Auditor's Report

To the Contractholders of Pathways International Equity Fund (Setanta) SF547 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

⁽¹⁾ The Fund commenced on June 17, 2019 and as a result does not have comparative figures for the prior year.

Pathways International Equity Fund (Setanta) SF547

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Pathways International Equity Fund (Setanta) SF547 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Pathways International Equity Fund (Setanta) SF547

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Pathways International Equity Fund (Setanta) SF547

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Pathways International Equity Fund (Setanta) SF547

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Pathways International Equity Fund (Setanta) SF547

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Pathways International Equity Fund (Setanta) SF547

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Pathways International Equity Fund (Setanta) SF547

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Pathways International Equity Fund (Setanta) SF547

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S1C 75/75 Constellation IC Wealth,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S2C 75/75 Constellation IC Wealth,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy,
- Option S3HF PPS 100/100 guarantee policy, and
- Option S3C 75/75 Constellation IC Wealth.

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Pathways International Equity Fund (Setanta) SF547

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Canada Life Investment Management Ltd. All investment transactions with the corresponding underlying funds are at quoted market prices.

Pathways International Equity Fund (Setanta) SF547

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Pathways International Equity Fund (Setanta) SF547

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾⁽⁴⁾

Unsubsidized Management Expense Ratio (%) ⁽²⁾⁽⁴⁾

For the years ended December 31	2022	2021	2020	2019	2018
PS1 75/75 guarantee policy	2.59	2.58	2.53	2.55	—
PS1 75/100 guarantee policy	2.88	2.85	2.81	2.81	—
PPS 75/75 guarantee policy	1.49	1.47	1.45	—	—

Portfolio Turnover Rate (%) ⁽³⁾⁽⁴⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	3.38	5.28	5.91	1.66	—

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(4) The Fund commenced on June 17, 2019 and as a result does not have comparative figures for the prior year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
PATHWAYS INTERNATIONAL CONCENTRATED EQUITY FUND (C
WORLDWIDE) SF548

December 31, 2022

Independent Auditor's Report

To the Contractholders of Pathways International Concentrated Equity Fund (C WorldWide) SF548 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the

aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Pathways International Concentrated Equity Fund (C WorldWide) SF548

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Pathways International Concentrated Equity Fund (C WorldWide) SF548 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Pathways International Concentrated Equity Fund (C WorldWide) SF548

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Pathways International Concentrated Equity Fund (C WorldWide) SF548

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Pathways International Concentrated Equity Fund (C WorldWide) SF548

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Pathways International Concentrated Equity Fund (C WorldWide) SF548

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Pathways International Concentrated Equity Fund (C WorldWide) SF548

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Pathways International Concentrated Equity Fund (C WorldWide) SF548

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Pathways International Concentrated Equity Fund (C WorldWide) SF548

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S1C 75/75 Constellation IC Wealth,

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Pathways International Concentrated Equity Fund (C WorldWide) SF548

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Canada Life Investment Management Ltd. All investment transactions with the corresponding underlying funds are at quoted market prices.

Pathways International Concentrated Equity Fund (C WorldWide) SF548

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Portfolio Turnover Rate (%) ⁽³⁾⁽⁴⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	8.48	8.38	14.97	0.87	—

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(4) The Fund commenced on June 17, 2019 and as a result does not have comparative figures for the prior year.

(MACKENZIE) SF549

December 31, 2022

Independent Auditor's Report

To the Contractholders of Pathways Emerging Markets Large Cap Equity Fund (Mackenzie) SF549 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the

aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Pathways Emerging Markets Large Cap Equity Fund (Mackenzie) SF549

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Pathways Emerging Markets Large Cap Equity Fund (Mackenzie) SF549 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Pathways Emerging Markets Large Cap Equity Fund (Mackenzie) SF549

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Pathways Emerging Markets Large Cap Equity Fund (Mackenzie) SF549

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Pathways Emerging Markets Large Cap Equity Fund (Mackenzie) SF549

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Pathways Emerging Markets Large Cap Equity Fund (Mackenzie) SF549

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Pathways Emerging Markets Large Cap Equity Fund (Mackenzie) SF549

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Pathways Emerging Markets Large Cap Equity Fund (Mackenzie) SF549

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S1C 75/75 Constellation IC Wealth,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S2C 75/75 Constellation IC Wealth,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy,
- Option S3HF PPS 100/100 guarantee policy, and
- Option S3C 75/75 Constellation IC Wealth.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Pathways Emerging Markets Large Cap Equity Fund (Mackenzie) SF549

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Canada Life Investment Management Ltd. All investment transactions with the corresponding underlying funds are at quoted market prices.

Pathways Emerging Markets Large Cap Equity Fund (Mackenzie) SF549

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Pathways Emerging Markets Large Cap Equity Fund (Mackenzie) SF549

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾⁽⁴⁾

PPS 75/75 guarantee policy	1.75	1.72	1.82	—	—
PPS 75/100 guarantee policy	2.08	2.04	2.16	—	—

Portfolio Turnover Rate (%) ⁽³⁾⁽⁴⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	12.26	20.79	28.18	2.45	—

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(4) The Fund commenced on June 17, 2019 and as a result does not have comparative figures for the prior year.

THE CANADA LIFE ASSURANCE COMPANY
PATHWAYS EMERGING MARKETS EQUITY FUND (NORTHCAPE)
SF550

December 31, 2022

Independent Auditor's Report

To the Contractholders of Pathways Emerging Markets Equity Fund (Northcape) SF550 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the

aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

⁽¹⁾ The Fund commenced on June 17, 2019 and as a result does not have comparative figures for the prior year.

Pathways Emerging Markets Equity Fund (Northcape) SF550

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Pathways Emerging Markets Equity Fund (Northcape) SF550 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Pathways Emerging Markets Equity Fund (Northcape) SF550

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Pathways Emerging Markets Equity Fund (Northcape) SF550

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Pathways Emerging Markets Equity Fund (Northcape) SF550

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Pathways Emerging Markets Equity Fund (Northcape) SF550

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Pathways Emerging Markets Equity Fund (Northcape) SF550

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Pathways Emerging Markets Equity Fund (Northcape) SF550

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Pathways Emerging Markets Equity Fund (Northcape) SF550

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S1C 75/75 Constellation IC Wealth,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S2C 75/75 Constellation IC Wealth,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy,
- Option S3HF PPS 100/100 guarantee policy, and
- Option S3C 75/75 Constellation IC Wealth.

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Pathways Emerging Markets Equity Fund (Northcape) SF550

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Canada Life Investment Management Ltd. All investment transactions with the corresponding underlying funds are at quoted market prices.

Pathways Emerging Markets Equity Fund (Northcape) SF550

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Pathways Emerging Markets Equity Fund (Northcape) SF550

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾⁽⁴⁾

For the years ended December 31	2022	2021	2020	2019	2018

Portfolio Turnover Rate	4.75	5.63	24.14	11.59	—

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(4) The Fund commenced on June 17, 2019 and as a result does not have comparative figures for the prior year.

THE CANADA LIFE ASSURANCE COMPANY
PATHWAYS GLOBAL TACTICAL FUND (ILIM) SF551

December 31, 2022

Independent Auditor's Report

To the Contractholders of Pathways Global Tactical Fund (ILIM) SF551 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Pathways Global Tactical Fund (ILIM) SF551

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Pathways Global Tactical Fund (ILIM) SF551 (the Fund) is offered by The Canada Life Assurance Company (the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Pathways Global Tactical Fund (ILIM) SF551

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Pathways Global Tactical Fund (ILIM) SF551

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Pathways Global Tactical Fund (ILIM) SF551

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Pathways Global Tactical Fund (ILIM) SF551

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Pathways Global Tactical Fund (ILIM) SF551

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Pathways Global Tactical Fund (ILIM) SF551

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Pathways Global Tactical Fund (ILIM) SF551

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

Individual units are available under these different options:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Pathways Global Tactical Fund (ILIM) SF551

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Canada Life Investment Management Ltd. All investment transactions with the corresponding underlying funds are at quoted market prices.

Pathways Global Tactical Fund (ILIM) SF551

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Pathways Global Tactical Fund (ILIM) SF551

Supplemental Information *(unaudited)*

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
75/75 Constellation	1.95	1.91	1.85	—	—
75/100 Constellation	2.34	2.30	2.25	—	—
100/100 Constellation	2.63	2.60	2.52	—	—

Portfolio Turnover Rate (%) ⁽²⁾⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	7.49	2.04	6.96	—	—

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(3) The Fund commenced on January 13, 2020 and as a result does not have comparative figures for the prior years.

THE CANADA LIFE ASSURANCE COMPANY
BALANCED FUND (BG) SF552

December 31, 2022

Independent Auditor's Report

To the Contractholders of Balanced Fund (BG) SF552 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Balanced Fund (BG) SF552

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the Balanced Fund (BG) SF552 (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

Balanced Fund (BG) SF552

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022					
Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders	
United States Dollar	\$ 134,474	\$ 29	\$ 134,503	\$	1,345
Total	\$ 134,474	\$ 29	\$ 134,503	\$	1,345
As Percent of Net Assets Attributable to Contractholders				27.4%	0.3%

**Includes both monetary and non-monetary instruments*

2021					
Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders	
United States Dollar	\$ 102,442	\$ 20	\$ 102,462	\$	1,025
Total	\$ 102,442	\$ 20	\$ 102,462	\$	1,025
As Percent of Net Assets Attributable to Contractholders				27.0%	0.3%

**Includes both monetary and non-monetary instruments*

D. Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund is exposed to the risk that the value of interest-bearing financial instruments will fluctuate due to changes in the prevailing levels of market interest rates. Due to the nature of short-term fixed income securities with a remaining term-to-maturity of less than one year, these investments are not generally exposed to a significant risk that their value will fluctuate in response to changes in the prevailing levels of market interest rates. The risk is professionally managed at the security and fund level by the Company.

The table below summarizes the Fund's exposure to interest rate risk by remaining term-to-maturity.

2022						
	1 year or less	Over 1 year to 5 years	Over 5 years to 10 years	Over 10 years	Total	
Bonds	\$ 4,652	\$ 41,478	\$ 57,820	\$ 42,862	\$	146,812

2021						
	1 year or less	Over 1 year to 5 years	Over 5 years to 10 years	Over 10 years	Total	
Bonds	\$ 202	\$ 38,073	\$ 38,464	\$ 38,548	\$	115,287

Balanced Fund (BG) SF552

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

D. Interest Rate Risk (continued)

As at December 31, 2022, had prevailing interest rates increased or decreased by 1% assuming a parallel shift in the yield curve, with all other variables held constant, net assets attributable to contractholders would have decreased or increased, respectively, by approximately \$11,732 (\$9,595 at December 31, 2021) or approximately 2.4% (2.5% at December 31, 2021). The Fund's sensitivity to interest rate changes was estimated using the weighted average duration of the bond portfolio. In practice, the actual results may differ and the difference could be significant.

E. Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund's greatest concentration of credit risk is in debt securities, such as bonds. The fair value of debt instruments includes consideration of the creditworthiness of the debt issuer. The carrying amount of debt instruments represents the maximum credit risk exposure as at December 31, 2022. The amount of credit risk to any one issuer may be determined from the information reported in the Schedule of Investment Portfolio. The Fund may invest in short-term fixed income securities issued or guaranteed primarily by the Government of Canada or any Canadian provincial government, obligations of Canadian chartered banks or trust companies, and commercial paper with approved credit ratings. The risk of default on these short-term fixed income securities is considered low. The Company monitors credit risk and credit ratings on a regular basis. All new counterparties to financial instruments are subject to an approval process.

There was no change in fair values of financial liabilities as a result of changes in credit risks during 2022 or 2021.

All transactions in listed securities are settled and paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker.

Credit ratings disclosed below are obtained from independent rating agencies including DBRS, Standard & Poor's, Moody's Investors Service and Fitch Ratings. The lowest rating provided by the agencies is used.

Debt securities by credit rating are as follows:

	2022		2021	
	Percent of Total Bonds (%)	Percent of Total Net Assets Attributable to Contractholders (%)	Percent of Total Bonds (%)	Percent of Total Net Assets Attributable to Contractholders (%)
AAA	4.0	1.2	1.9	0.6
AA	38.9	11.6	22.1	6.7
A	41.6	12.4	51.5	15.7
BBB	15.5	4.6	24.3	7.4
BB and lower	—	—	0.2	0.1
Total	100.0	29.8	100.0	30.5

Balanced Fund (BG) SF552

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

F. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$3,253 (\$2,556 at December 31, 2021) or approximately 0.7% (0.7% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

G. Fair Value Classification

The following table presents information about the Fund's assets measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

<u>Assets measured at fair value</u>	2022			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Bonds	\$ —	\$ 146,812	\$ —	\$ 146,812
Stocks	325,292	—	—	325,292
Total assets measured at fair value	\$ 325,292	\$ 146,812	\$ —	\$ 472,104

<u>Assets measured at fair value</u>	2021

Balanced Fund (BG) SF552

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Balanced Fund (BG) SF552

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Balanced Fund (BG) SF552

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Balanced Fund (BG) SF552

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Bonds and Stocks

Bonds and stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

Balanced Fund (BG) SF552

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Interest income on debt securities - included in the change in fair value of such investments and recorded on the accrual basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

Balanced Fund (BG) SF552

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes dividend income, interest income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Balanced Fund (BG) SF552

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Balanced Fund (BG) SF552

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

The categories of units are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

Balanced Fund (BG) SF552

Notes to the Financial Statements

(in Canadian \$ thousands)

7. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.

PPS 100/100 guarantee policy	1.61	—	—	—	—

Portfolio Turnover Rate (%) ⁽²⁾⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	47.03	63.21	94.47	2.26	—

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(3) The Fund commenced on November 4, 2019 and as a result does not have comparative figures for the prior year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
CANADIAN EQUITY FUND (BG) SF553

December 31, 2022

Independent Auditor's Report

To the Contractholders of Canadian Equity Fund (BG) SF553 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Canadian Equity Fund (BG) SF553

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the Canadian Equity Fund (BG) SF553 (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

Canadian Equity Fund (BG) SF553

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ 51,826	\$ 21	\$ 51,847	\$ 518
Total	\$ 51,826	\$ 21	\$ 51,847	\$ 518
As Percent of Net Assets Attributable to Contractholders			26.3%	0.3%

*Includes both monetary and non-monetary instruments

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ 29,442	\$ 10	\$ 29,452	\$ 295
Total	\$ 29,442	\$ 10	\$ 29,452	\$ 295
As Percent of Net Assets Attributable to Contractholders			25.5%	0.3%

*Includes both monetary and non-monetary instruments

D. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$1,923 (\$1,129 at December 31, 2021) or approximately 1.0% (1.0% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

Canadian Equity Fund (BG) SF553

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

E. Fair Value Classification

The following table presents information about the Fund's assets measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

<u>Assets measured at fair value</u>	2022			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 192,332	\$ —	\$ —	\$ 192,332
Total assets measured at fair value	\$ 192,332	\$ —	\$ —	\$ 192,332

<u>Assets measured at fair value</u>	2021			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 112,896	\$ —	\$ —	\$ 112,896
Total assets measured at fair value	\$ 112,896	\$ —	\$ —	\$ 112,896

There were no significant transfers between Level 1 and Level 2 during 2022 or 2021.

Canadian Equity Fund (BG) SF553

(in Canadian \$, except number of units outstanding)

⁽¹⁾ The Fund commenced on November 4, 2019 and as a result does not have comparative figures for the prior year.

Canadian Equity Fund (BG) SF553

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Canadian Equity Fund (BG) SF553

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Canadian Equity Fund (BG) SF553

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Canadian Equity Fund (BG) SF553

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) **Stocks**

Stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) **Cash, Short-term Deposits and Overdrafts**

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

Canadian Equity Fund (BG) SF553

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

Canadian Equity Fund (BG) SF553

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes dividend income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Canadian Equity Fund (BG) SF553

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Canadian Equity Fund (BG) SF553

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

The categories of units are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

Canadian Equity Fund (BG) SF553

Notes to the Financial Statements

(in Canadian \$ thousands)

7. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.

Portfolio Turnover Rate (%) ⁽²⁾⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	22.72	22.45	27.09	0.13	—

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(3) The Fund commenced on November 4, 2019 and as a result does not have comparative figures for the prior year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
CANADIAN LOW VOL EQUITY FUND (LC) SF554

December 31, 2022

Independent Auditor's Report

To the Contractholders of Canadian Low Vol Equity Fund (LC) SF554 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Canadian Low Vol Equity Fund (LC) SF554

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the Canadian Low Vol Equity Fund (LC) SF554 (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

Canadian Low Vol Equity Fund (LC) SF554

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ —	\$ 1	\$ 1	\$ —
Total	\$ —	\$ 1	\$ 1	\$ —
As Percent of Net Assets Attributable to Contractholders				—%

*Includes both monetary and non-monetary instruments

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ —	\$ 7	\$ 7	\$ —
Total	\$ —	\$ 7	\$ 7	\$ —
As Percent of Net Assets Attributable to Contractholders				—%

*Includes both monetary and non-monetary instruments

D. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$198 (\$143 at December 31, 2021) or approximately 1.0% (1.0% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

Canadian Low Vol Equity Fund (LC) SF554

Notes to the Schedule of Investment Portfolio

E. Fair Value Classification

The following table presents information about the Fund's assets measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

<u>Assets measured at fair value</u>	2022			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 19,757	\$ —	\$ —	\$ 19,757
Total assets measured at fair value	\$ 19,757	\$ —	\$ —	\$ 19,757

<u>Assets measured at fair value</u>	2021			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 14,335	\$ —	\$ —	\$ 14,335
Total assets measured at fair value	\$ 14,335	\$ —	\$ —	\$ 14,335

There were no significant transfers between Level 1 and Level 2 during 2022 or 2021.

Canadian Low Vol Equity Fund (LC) SF554

(in Canadian \$, except number of units outstanding)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance. Portfolio units are allocated to each category as described in note 3 and are not included on this page.

⁽¹⁾ The Fund commenced on November 4, 2019 and as a result does not have comparative figures for the prior year.

Canadian Low Vol Equity Fund (LC) SF554

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Canadian Low Vol Equity Fund (LC) SF554

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Canadian Low Vol Equity Fund (LC) SF554

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Canadian Low Vol Equity Fund (LC) SF554

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) **Stocks**

Stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) **Cash, Short-term Deposits and Overdrafts**

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

Canadian Low Vol Equity Fund (LC) SF554

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

Canadian Low Vol Equity Fund (LC) SF554

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes dividend income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Canadian Low Vol Equity Fund (LC) SF554

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Canadian Low Vol Equity Fund (LC) SF554

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

Canadian Low Vol Equity Fund (LC) SF554

Notes to the Financial Statements

(in Canadian \$ thousands)

7. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
75/75 guarantee policy	2.69	2.73	2.65	2.65	—
75/100 guarantee policy	2.90	2.93	2.85	2.87	—
100/100 guarantee policy	3.25	3.27	3.20	—	—
PS1 75/75 guarantee policy	2.22	2.25	2.18	—	—
PS1 75/100 guarantee policy	2.45	2.46	2.40	2.41	—
PS1 100/100 guarantee policy	2.77	2.81	—	—	—
PS 75/75 guarantee policy	1.58	—	1.54	—	—
PS 75/100 guarantee policy	1.79	1.82	1.76	—	—
PPS 75/100 guarantee policy	1.32	1.35	1.32	1.32	—

Portfolio Turnover Rate (%) ⁽²⁾⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	104.59	181.70	48.26	4.55	—

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(3) The Fund commenced on November 4, 2019 and as a result does not have comparative figures for the prior year.

THE CANADA LIFE ASSURANCE COMPANY
INTERNATIONAL EQUITY FUND (JPM) SF555

December 31, 2022

Independent Auditor's Report

To the Contractholders of International Equity Fund (JPM) SF555 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

International Equity Fund (JPM) SF555

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the International Equity Fund (JPM) SF555 (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

International Equity Fund (JPM) SF555

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
Euro	\$ 4,307	\$ 1	\$ 4,308	\$ 43
Japanese Yen	1,939	—	1,939	19
United Kingdom Pound Sterling	1,375	—	1,375	14
Swiss Franc	892	—	892	9
Other Currencies	2,264	4	2,268	23
Total	\$ 10,777	\$ 5	\$ 10,782	\$ 108
As Percent of Net Assets Attributable to Contractholders			97.8%	1.0%

*Includes both monetary and non-monetary instruments

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
Euro	\$ 9,304	\$ —	\$ 9,304	\$ 93
Japanese Yen	4,325	—	4,325	43
United Kingdom Pound Sterling	3,064	8	3,072	31
Swiss Franc	1,474	—	1,474	15
Other Currencies	5,011	3	5,014	50
Total	\$ 23,178	\$ 11	\$ 23,189	\$ 232
As Percent of Net Assets Attributable to Contractholders			96.7%	1.0%

*Includes both monetary and non-monetary instruments

D. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$108 (\$232 at December 31, 2021) or approximately 1.0% (1.0% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

International Equity Fund (JPM) SF555

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

E. Fair Value Classification

The following table presents information about the Fund's assets and liabilities measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

		2022			
		Assets and Liabilities Measured at Fair Value

Net assets attributable to contractholders measured at fair value	\$	11,834	\$ 11,344	\$ —	\$ 23,178

In accordance with the Fund's valuation policy, the Fund applies fair value adjustment factors to the quoted market prices for certain non-North American equities when North American intraday stock market movements exceed predetermined tolerances. The adjustment factors are applied in order to estimate the impact on fair values of events occurring between the close of the non-North American stock markets and the close of business for the Fund. If fair value adjustment factors are applied, non-North American equities are classified as Level 2. Consequently, non-North American equities are frequently transferred between Level 1 (unadjusted quoted market prices) and Level 2 (adjusted market prices). As at December 31, 2022, these securities were classified as Level 1 (Level 2 at December 31, 2021).

⁽¹⁾ The Fund commenced on November 4, 2019 and as a result does not have comparative figures for the prior year.

International Equity Fund (JPM) SF555

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

International Equity Fund (JPM) SF555

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

International Equity Fund (JPM) SF555

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

International Equity Fund (JPM) SF555

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Stocks

Stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

International Equity Fund (JPM) SF555

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Derivatives

Derivatives are classified and measured at fair value. Derivatives are valued using market transactions and other market evidence whenever possible, including market based inputs to models, broker or dealer quotations or alternative pricing sources with reasonable levels of transparency. When models are used, the selection of a particular model to value a derivative depends on the contractual terms of, and specific risks inherent in, the instrument, as well as the availability of pricing information in the market. The Company generally uses similar models to value similar instruments. Valuation models require a variety of inputs, including contractual terms, market prices and rates, yield curves, credit curves, measures volatility, prepayment rates and correlations of such inputs.

f) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

g) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

International Equity Fund (JPM) SF555

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

h) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

i) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

j) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

k) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

International Equity Fund (JPM) SF555

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

l) Income Allocation

Net gain (loss) on investments, which includes dividend income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

m) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

n) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

International Equity Fund (JPM) SF555

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

International Equity Fund (JPM) SF555

Notes to the Financial Statements

(in Canadian \$ thousands)

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

7. DERIVATIVE FINANCIAL INSTRUMENTS

Derivative contracts, including forward currency, futures and equity swap contracts, are valued at the gain or loss that would arise as a result of closing the position at the reporting date. Options are recorded at fair value as at the reporting date. The Fund may use derivative contracts to hedge against losses caused by changes in securities prices, interest rates, exchange rates and/or other risks. The Fund may also use derivative contracts for non-hedging purposes in order to invest indirectly in financial markets or to gain exposure to other currencies, provided the use of such derivatives is consistent with the Fund's investment objectives and strategies. Foreign currency risk and exposure may be direct or indirect and can include all or a portion of the currency exposure of an existing investment or group of investments. Any such gain or loss on derivative contracts is recorded as part of net gain (loss) on investments.

As at the reporting date, the unrealized gain (loss) on derivative contracts is reflected on the Statement of Financial Position of the Fund.

The Fund manages derivative credit risk through collateral arrangements where required. The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are implemented by the Fund regarding the acceptability of types of collateral and the valuation parameters. The Fund Manager monitors the value of the collateral and requests additional collateral when needed.

International Equity Fund (JPM) SF555

Notes to the Financial Statements

(in Canadian \$ thousands)

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(3) The Fund commenced on November 4, 2019 and as a result does not have comparative figures for the prior year.

Independent Auditor's Report

To the Contractholders of International Opportunity Fund (JPM) SF556 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

International Opportunity Fund (JPM) SF556

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the International Opportunity Fund (JPM) SF556 (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

International Opportunity Fund (JPM) SF556

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
Euro	\$ 29,674	\$ —	\$ 29,674	\$ 297
Japanese Yen	14,102	—	14,102	141
United Kingdom Pound Sterling	10,934	—	10,934	109
Swiss Franc	10,752	—	10,752	107
Other Currencies	18,745	25	18,770	188
Total	\$ 84,207	\$ 25	\$ 84,232	\$ 842
As Percent of Net Assets Attributable to Contractholders			99.8%	1.0%

*Includes both monetary and non-monetary instruments

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
Euro	\$ 32,736	\$ —	\$ 32,736	\$ 327
Japanese Yen	17,223	—	17,223	172
Swiss Franc	8,807	—	8,807	88
United Kingdom Pound Sterling	8,117	(16)	8,101	81
Other Currencies	25,009	37	25,046	251
Total	\$ 91,892	\$ 21	\$ 91,913	\$ 919
As Percent of Net Assets Attributable to Contractholders			97.9%	1.0%

*Includes both monetary and non-monetary instruments

D. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$842 (\$919 at December 31, 2021) or approximately 1.0% (1.0% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

International Opportunity Fund (JPM) SF556

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

E. Fair Value Classification

The following table presents information about the Fund's assets and liabilities measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

	2022			
	Assets and Liabilities Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
<u>Assets measured at fair value</u>				
Stocks	\$ 84,207	\$ —	\$ —	\$ 84,207
Derivatives	—	—	—	—
Total assets measured at fair value	\$ 84,207	\$ —	\$ —	\$ 84,207
<u>Liabilities measured at fair value</u>				
Derivatives	\$ —	\$ —	\$ —	\$ —
Net assets attributable to contractholders measured at fair value	\$ 84,207	\$ —	\$ —	\$ 84,207

	2021			
	Assets and Liabilities Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
<u>Assets measured at fair value</u>				
Stocks	\$ 46,747	\$ 45,145	\$ —	\$ 91,892
Derivatives	—	—	—	—
Total assets measured at fair value	\$ 46,747	\$ 45,145	\$ —	\$ 91,892
<u>Liabilities measured at fair value</u>				
Derivatives	\$ —	\$ —	\$ —	\$ —
Net assets attributable to contractholders measured at fair value	\$ 46,747	\$ 45,145	\$ —	\$ 91,892

In accordance with the Fund's valuation policy, the Fund applies fair value adjustment factors to the quoted market prices for certain non-North American equities when North American intraday stock market movements exceed predetermined tolerances. The adjustment factors are applied in order to estimate the impact on fair values of events occurring between the close of the non-North American stock markets and the close of business for the Fund. If fair value adjustment factors are applied, non-North American equities are classified as Level 2. Consequently, non-North American equities are frequently transferred between Level 1 (unadjusted quoted market prices) and Level 2 (adjusted market prices). As at December 31, 2022, these securities were classified as Level 1 (Level 2 at December 31, 2021).

International Opportunity Fund (JPM) SF556

(in Canadian \$, except number of units outstanding)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance. Portfolio units are allocated to each category as described in note 3 and are not included on this page.

⁽¹⁾ The Fund commenced on November 4, 2019 and as a result does not have comparative figures for the prior year.

International Opportunity Fund (JPM) SF556

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

International Opportunity Fund (JPM) SF556

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

International Opportunity Fund (JPM) SF556

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

International Opportunity Fund (JPM) SF556

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Stocks

Stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

International Opportunity Fund (JPM) SF556

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Derivatives

Derivatives are classified and measured at fair value. Derivatives are valued using market transactions and other market evidence whenever possible, including market based inputs to models, broker or dealer quotations or alternative pricing sources with reasonable levels of transparency. When models are used, the selection of a particular model to value a derivative depends on the contractual terms of, and specific risks inherent in, the instrument, as well as the availability of pricing information in the market. The Company generally uses similar models to value similar instruments. Valuation models require a variety of inputs, including contractual terms, market prices and rates, yield curves, credit curves, measures volatility, prepayment rates and correlations of such inputs.

f) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

g) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

International Opportunity Fund (JPM) SF556

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

h) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

i) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

j) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

k) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

International Opportunity Fund (JPM) SF556

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

l) Income Allocation

Net gain (loss) on investments, which includes dividend income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

m) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

n) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

International Opportunity Fund (JPM) SF556

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

International Opportunity Fund (JPM) SF556

Notes to the Financial Statements

(in Canadian \$ thousands)

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

7. DERIVATIVE FINANCIAL INSTRUMENTS

Derivative contracts, including forward currency, futures and equity swap contracts, are valued at the gain or loss that would arise as a result of closing the position at the reporting date. Options are recorded at fair value as at the reporting date. The Fund may use derivative contracts to hedge against losses caused by changes in securities prices, interest rates, exchange rates and/or other risks. The Fund may also use derivative contracts for non-hedging purposes in order to invest indirectly in financial markets or to gain exposure to other currencies, provided the use of such derivatives is consistent with the Fund's investment objectives and strategies. Foreign currency risk and exposure may be direct or indirect and can include all or a portion of the currency exposure of an existing investment or group of investments. Any such gain or loss on derivative contracts is recorded as part of net gain (loss) on investments.

As at the reporting date, the unrealized gain (loss) on derivative contracts is reflected on the Statement of Financial Position of the Fund.

The Fund manages derivative credit risk through collateral arrangements where required. The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are implemented by the Fund regarding the acceptability of types of collateral and the valuation parameters. The Fund Manager monitors the value of the collateral and requests additional collateral when needed.

International Opportunity Fund (JPM) SF556

Notes to the Financial Statements

(in Canadian \$ thousands)

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.

International Opportunity Fund (JPM) SF556

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
75/75 guarantee policy	3.07	3.10	3.03	3.03	—
75/100 guarantee policy	3.35	3.37	3.30	3.30	—

Portfolio Turnover Rate (%) ⁽²⁾⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	30.34	29.30	17.84	5.07	—

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(3) The Fund commenced on November 4, 2019 and as a result does not have comparative figures for the prior year.

THE CANADA LIFE ASSURANCE COMPANY
SCIENCE & TECHNOLOGY FUND (LC) SF557

December 31, 2022

Independent Auditor's Report

To the Contractholders of Science & Technology Fund (LC) SF557 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Science & Technology Fund (LC) SF557

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the Science & Technology Fund (LC) SF557 (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

Science & Technology Fund (LC) SF557

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders	
United States Dollar	\$ 181,291	\$ 3,892	\$ 185,183	\$ 1,852	
Total	\$ 181,291	\$ 3,892	\$ 185,183	\$ 1,852	
As Percent of Net Assets Attributable to Contractholders				78.3%	0.8%

*Includes both monetary and non-monetary instruments

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders	
United States Dollar	\$ 257,085	\$ 49	\$ 257,134	\$ 2,571	
Total	\$ 257,085	\$ 49	\$ 257,134	\$ 2,571	
As Percent of Net Assets Attributable to Contractholders				82.3%	0.8%

*Includes both monetary and non-monetary instruments

D. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$2,241 (\$3,078 at December 31, 2021) or approximately 0.9% (1.0% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

Science & Technology Fund (LC) SF557

(in Canadian \$ thousands)

E. Fair Value Classification

The following table presents information about the Fund's assets measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

<u>Assets measured at fair value</u>	2022			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 224,053	\$ —	\$ —	\$ 224,053
Total assets measured at fair value	\$ 224,053	\$ —	\$ —	\$ 224,053

Assets measured at fair value	2021			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 307,780	\$ —	\$ —	\$ 307,780
Total assets measured at fair value	\$ 307,780	\$ —	\$ —	\$ 307,780

There were no significant transfers between Level 1 and Level 2 during 2022 or 2021.

Science & Technology Fund (LC) SF557

(in Canadian \$, except number of units outstanding)

⁽¹⁾ The Fund commenced on November 4, 2019 and as a result does not have comparative figures for the prior year.

Science & Technology Fund (LC) SF557

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Science & Technology Fund (LC) SF557

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Science & Technology Fund (LC) SF557

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Science & Technology Fund (LC) SF557

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Stocks

Stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

Science & Technology Fund (LC) SF557

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

Science & Technology Fund (LC) SF557

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes dividend income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Science & Technology Fund (LC) SF557

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Science & Technology Fund (LC) SF557

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

The categories of units are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

Science & Technology Fund (LC) SF557

Notes to the Financial Statements

(in Canadian \$ thousands)

7. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

Portfolio Turnover Rate (%) ⁽²⁾⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	51.89	19.40	10.48	—	—

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(3) The Fund commenced on November 4, 2019 and as a result does not have comparative figures for the prior year.

TACTICAL BOND FUND (PIM) SF558

December 31, 2022

Independent Auditor's Report

To the Contractholders of Tactical Bond Fund (PIM) SF558 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Tactical Bond Fund (PIM) SF558

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the Tactical Bond Fund (PIM) SF558 (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ (1,524)	\$ 13,473	\$ 11,949	\$ 119
Other Currencies	—	(65)	(65)	—
Total	\$ (1,524)	\$ 13,408	\$ 11,884	\$ 119
As Percent of Net Assets Attributable to Contractholders			2.3%	

*Includes both monetary and non-monetary instruments

Tactical Bond Fund (PIM) SF558

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ 2,091	\$ 237	\$ 2,328	\$ 23
Total	\$ 2,091	\$ 237	\$ 2,328	\$ 23

As Percent of Net Assets

Attributable to Contractholders

0.4%

*Includes both monetary and non-monetary instruments

D. Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund is exposed to the risk that the value of interest-bearing financial instruments will fluctuate due to changes in the prevailing levels of market interest rates. Due to the nature of short-term fixed income securities with a remaining term-to-maturity of less than one year, these investments are not generally exposed to a significant risk that their value will fluctuate in response to changes in the prevailing levels of market interest rates. The risk is professionally managed at the security and fund level by the Company.

The table below summarizes the Fund's exposure to interest rate risk by remaining term-to-maturity.

2022

	1 year or less	Over 1 year to 5 years	Over 5 years to 10 years	Over 10 years	Total
Bonds	\$ 15,401	\$ 138,188	\$ 166,186	\$ 131,525	\$ 451,300

2021

	1 year or less	Over 1 year to 5 years	Over 5 years to 10 years	Over 10 years	Total
Bonds	\$ 12,054	\$ 161,915	\$ 143,715	\$ 145,556	\$ 463,240

As at December 31, 2022, had prevailing interest rates increased or decreased by 1% assuming a parallel shift in the yield curve, with all other variables held constant, net assets attributable to contractholders would have decreased or increased, respectively, by approximately \$33,156 (\$33,963 at December 31, 2021) or approximately 6.5% (6.3% at December 31, 2021). The Fund's sensitivity to interest rate changes was estimated using the weighted average duration of the bond portfolio. In practice, the actual results may differ and the difference could be significant.

E. Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund's greatest concentration of credit risk is in debt securities, such as bonds. The fair value of debt instruments includes consideration of the creditworthiness of the debt issuer. The carrying amount of debt instruments represents the maximum credit risk exposure as at December 31, 2022. The amount of credit risk to any one issuer may be determined from the information reported in the Schedule of Investment Portfolio. The Fund may invest in short-term fixed income securities issued or guaranteed primarily by the Government of Canada or any Canadian provincial government, obligations of Canadian chartered banks or trust companies, and commercial paper with approved credit ratings. The risk of default on these short-term fixed income securities is considered low. The Company monitors credit risk and credit ratings on a regular basis. All new counterparties to financial instruments are subject to an approval process.

There was no change in fair values of financial liabilities as a result of changes in credit risks during 2022 or 2021.

All transactions in listed securities are settled and paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker.

Tactical Bond Fund (PIM) SF558

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

E. Credit Risk (continued)

Credit ratings disclosed below are obtained from independent rating agencies including DBRS, Standard & Poor's, Moody's Investors Service and Fitch Ratings. The lowest rating provided by the agencies is used.

Debt securities by credit rating are as follows:

	2022		2021	
	Percent of Total Bonds (%)	Percent of Total Net Assets Attributable to Contractholders (%)	Percent of Total Bonds (%)	Percent of Total Net Assets Attributable to Contractholders (%)
AAA	3.8	3.3	12.6	10.9
AA	25.3	22.4	16.9	14.6
A	35.2	31.1	26.4	22.8
BBB	29.5	26.1	36.8	31.8
BB and lower	5.8	5.1	6.9	6.0
NR *	0.4	0.4	0.4	0.3
Total	100.0	88.4	100.0	86.4

*Bonds disclosed as NR are mortgage backed securities or privately placed bonds or bonds that have not been rated by a rating agency.

F. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$220 (\$417 at December 31, 2021) or approximately 0.0% (0.1% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

Tactical Bond Fund (PIM) SF558

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

G. Fair Value Classification

The following table presents information about the Fund's assets and liabilities measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

	2022			
	Assets and Liabilities Measured at Fair Value			
<u>Assets measured at fair value</u>	Level 1	Level 2	Level 3	Total
Bonds	\$ —	\$ 451,076	\$ 224	\$ 451,300
Stocks	21,985	—	—	21,985
Derivatives	229	164	—	393

Tactical Bond Fund (PIM) SF558

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Tactical Bond Fund (PIM) SF558

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Tactical Bond Fund (PIM) SF558

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Tactical Bond Fund (PIM) SF558

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Bonds and Stocks

Bonds and stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

Tactical Bond Fund (PIM) SF558

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Derivatives

Derivatives are classified and measured at fair value. Derivatives are valued using market transactions and other market evidence whenever possible, including market based inputs to models, broker or dealer quotations or alternative pricing sources with reasonable levels of transparency. When models are used, the selection of a particular model to value a derivative depends on the contractual terms of, and specific risks inherent in, the instrument, as well as the availability of pricing information in the market. The Company generally uses similar models to value similar instruments. Valuation models require a variety of inputs, including contractual terms, market prices and rates, yield curves, credit curves, measures volatility, prepayment rates and correlations of such inputs.

f) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

g) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Interest income on debt securities - included in the change in fair value of such investments and recorded on the accrual basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Tactical Bond Fund (PIM) SF558

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

h) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

i) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

j) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

k) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

Tactical Bond Fund (PIM) SF558

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

l) Income Allocation

Net gain (loss) on investments, which includes dividend income, interest income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

m) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

n) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Tactical Bond Fund (PIM) SF558

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Tactical Bond Fund (PIM) SF558

Notes to the Financial Statements

(in Canadian \$ thousands)

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

7. DERIVATIVE FINANCIAL INSTRUMENTS

Derivative contracts, including forward currency, futures and equity swap contracts, are valued at the gain or loss that would arise as a result of closing the position at the reporting date. Options are recorded at fair value as at the reporting date. The Fund may use derivative contracts to hedge against losses caused by changes in securities prices, interest rates, exchange rates and/or other risks. The Fund may also use derivative contracts for non-hedging purposes in order to invest indirectly in financial markets or to gain exposure to other currencies, provided the use of such derivatives is consistent with the Fund's investment objectives and strategies. Foreign currency risk and exposure may be direct or indirect and can include all or a portion of the currency exposure of an existing investment or group of investments. Any such gain or loss on derivative contracts is recorded as part of net gain (loss) on investments.

As at the reporting date, the unrealized gain (loss) on derivative contracts is reflected on the Statement of Financial Position of the Fund.

The Fund manages derivative credit risk through collateral arrangements where required. The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are implemented by the Fund regarding the acceptability of types of collateral and the valuation parameters. The Fund Manager monitors the value of the collateral and requests additional collateral when needed.

Tactical Bond Fund (PIM) SF558

Notes to the Financial Statements

(in Canadian \$ thousands)

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

Tactical Bond Fund (PIM) SF558

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
75/75 guarantee policy	2.00	2.10	2.04	2.05	—

Portfolio Turnover Rate (%) ⁽²⁾⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	84.23	70.06	51.90	15.86	—

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(3) The Fund commenced on November 4, 2019 and as a result does not have comparative figures for the prior year.

THE CANADA LIFE ASSURANCE COMPANY

U.S. EQUITY FUND (LC) SF559

December 31, 2022

Independent Auditor's Report

To the Contractholders of U.S. Equity Fund (LC) SF559 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

U.S. Equity Fund (LC) SF559

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the U.S. Equity Fund (LC) SF559 (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

U.S. Equity Fund (LC) SF559

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ 18,698	\$ 192	\$ 18,890	\$ 189
Other Currencies	833	—	833	8
Total	\$ 19,531	\$ 192	\$ 19,723	\$ 197
As Percent of Net Assets Attributable to Contractholders			92.3%	0.9%

*Includes both monetary and non-monetary instruments

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ 25,199	\$ 4	\$ 25,203	\$ 252
Other Currencies	1,436	—	1,436	14
Total	\$ 26,635	\$ 4	\$ 26,639	\$ 266
As Percent of Net Assets Attributable to Contractholders			96.7%	1.0%

*Includes both monetary and non-monetary instruments

D. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$195 (\$266 at December 31, 2021) or approximately 0.9% (1.0% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

U.S. Equity Fund (LC) SF559

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

E. Fair Value Classification

The following table presents information about the Fund's assets measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

<u>Assets measured at fair value</u>	2022			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 19,531	\$ —	\$ —	\$ 19,531
Total assets measured at fair value	\$ 19,531	\$ —	\$ —	\$ 19,531

<u>Assets measured at fair value</u>	2021			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 26,635	\$ —	\$ —	\$ 26,635
Total assets measured at fair value	\$ 26,635	\$ —	\$ —	\$ 26,635

There were no significant transfers between Level 1 and Level 2 during 2022 or 2021.

⁽¹⁾ The Fund commenced on November 4, 2019 and as a result does not have comparative figures for the prior year.

U.S. Equity Fund (LC) SF559

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

U.S. Equity Fund (LC) SF559

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

U.S. Equity Fund (LC) SF559

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

U.S. Equity Fund (LC) SF559

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) **Stocks**

Stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) **Cash, Short-term Deposits and Overdrafts**

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

U.S. Equity Fund (LC) SF559

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

U.S. Equity Fund (LC) SF559

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes dividend income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

U.S. Equity Fund (LC) SF559

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

U.S. Equity Fund (LC) SF559

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

The categories of units are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

Notes to the Financial Statements

(in Canadian \$ thousands)

7. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

Portfolio Turnover Rate (%) ⁽²⁾⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	100.48	102.29	64.76	6.73	—

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(3) The Fund commenced on November 4, 2019 and as a result does not have comparative figures for the prior year.

THE CANADA LIFE ASSURANCE COMPANY
U.S. MID CAP EQUITY FUND (LC) SF560

December 31, 2022

Independent Auditor's Report

To the Contractholders of U.S. Mid Cap Equity Fund (LC) SF560 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

U.S. Mid Cap Equity Fund (LC) SF560

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the U.S. Mid Cap Equity Fund (LC) SF560 (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

U.S. Mid Cap Equity Fund (LC) SF560

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ 29,362	\$ 3	\$ 29,365	\$ 294
Total	\$ 29,362	\$ 3	\$ 29,365	\$ 294
As Percent of Net Assets Attributable to Contractholders			96.1%	1.0%

*Includes both monetary and non-monetary instruments

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ 34,759	\$ 85	\$ 34,844	\$ 348
Total	\$ 34,759	\$ 85	\$ 34,844	\$ 348
As Percent of Net Assets Attributable to Contractholders			94.9%	0.9%

*Includes both monetary and non-monetary instruments

D. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$294 (\$348 at December 31, 2021) or approximately 1.0% (0.9% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

U.S. Mid Cap Equity Fund (LC) SF560

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

E. Fair Value Classification

The following table presents information about the Fund's assets measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

<u>Assets measured at fair value</u>	2022			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 29,362	\$ —	\$ —	\$ 29,362
Total assets measured at fair value	\$ 29,362	\$ —	\$ —	\$ 29,362

<u>Assets measured at fair value</u>	2021			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 34,759	\$ —	\$ —	\$ 34,759
Total assets measured at fair value	\$ 34,759	\$ —	\$ —	\$ 34,759

There were no significant transfers between Level 1 and Level 2 during 2022 or 2021.

U.S. Mid Cap Equity Fund (LC) SF560

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

U.S. Mid Cap Equity Fund (LC) SF560

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

U.S. Mid Cap Equity Fund (LC) SF560

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

U.S. Mid Cap Equity Fund (LC) SF560

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) **Stocks**

Stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) **Cash, Short-term Deposits and Overdrafts**

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

U.S. Mid Cap Equity Fund (LC) SF560

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

U.S. Mid Cap Equity Fund (LC) SF560

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes dividend income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

U.S. Mid Cap Equity Fund (LC) SF560

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

U.S. Mid Cap Equity Fund (LC) SF560

Notes to the Financial Statements

(in Canadian \$ thousands)

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

U.S. Mid Cap Equity Fund (LC) SF560

Notes to the Financial Statements

(in Canadian \$ thousands)

7. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

PPS 100/100 guarantee policy	1.97	1.95	—	—	—

Portfolio Turnover Rate (%) ⁽²⁾⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	39.86	71.94	68.11	8.30	—

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(3) The Fund commenced on November 4, 2019 and as a result does not have comparative figures for the prior year.

THE CANADA LIFE ASSURANCE COMPANY
GLOBAL LOW VOL FUND (ILIM) SF561

December 31, 2022

Independent Auditor's Report

To the Contractholders of Global Low Vol Fund (ILIM) SF561 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Global Low Vol Fund (ILIM) SF561

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the Global Low Vol Fund (ILIM) SF561 (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

Global Low Vol Fund (ILIM) SF561

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ 3,462	\$ 2	\$ 3,464	\$ 35
Japanese Yen	519	—	519	5
Euro	321	—	321	3
Other Currencies	759	3	762	8
Total	\$ 5,061	\$ 5	\$ 5,066	\$ 51
As Percent of Net Assets Attributable to Contractholders			95.1%	1.0%

*Includes both monetary and non-monetary instruments

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ 3,779	\$ 4	\$ 3,783	\$ 38
Japanese Yen	513	—	513	5
Swiss Franc	342	—	342	3
Other Currencies	745	5	750	8
Total	\$ 5,379	\$ 9	\$ 5,388	\$ 54
As Percent of Net Assets Attributable to Contractholders			95.3%	1.0%

*Includes both monetary and non-monetary instruments

D. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$52 (\$56 at December 31, 2021) or approximately 1.0% (1.0% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

Global Low Vol Fund (ILIM) SF561

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

E. Fair Value Classification

The following table presents information about the Fund's assets measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

<u>Assets measured at fair value</u>	2022			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 5,092	\$ 122	\$ —	\$ 5,214
Total assets measured at fair value	\$ 5,092	\$ 122	\$ —	\$ 5,214

<u>Assets measured at fair value</u>	2021			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 4,323	\$ 1,235	\$ —	\$ 5,558
Total assets measured at fair value	\$ 4,323	\$ 1,235	\$ —	\$ 5,558

In accordance with the Fund's valuation policy, the Fund applies fair value adjustment factors to the quoted market prices for certain non-North American equities when North American intraday stock market movements exceed predetermined tolerances. The adjustment factors are applied in order to estimate the impact on fair values of events occurring between the close of the non-North American stock markets and the close of business for the Fund. If fair value adjustment factors are applied, non-North American equities are classified as Level 2. Consequently, non-North American equities are frequently transferred between Level 1 (unadjusted quoted market prices) and Level 2 (adjusted market prices). As at December 31, 2022, these securities were classified as Level 2 (Level 2 at December 31, 2021).

Global Low Vol Fund (ILIM) SF561

(in Canadian \$, except number of units outstanding)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance. Seed money units, as described in note 7 c), are allocated to each category and are not included on this page.

Global Low Vol Fund (ILIM) SF561

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Global Low Vol Fund (ILIM) SF561

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Global Low Vol Fund (ILIM) SF561

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Global Low Vol Fund (ILIM) SF561

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) **Stocks**

Stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) **Cash, Short-term Deposits and Overdrafts**

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

Global Low Vol Fund (ILIM) SF561

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

Global Low Vol Fund (ILIM) SF561

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes dividend income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Global Low Vol Fund (ILIM) SF561

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

Global Low Vol Fund (ILIM) SF561

Notes to the Financial Statements

(in Canadian \$ thousands)

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

Global Low Vol Fund (ILIM) SF561

Notes to the Financial Statements

(in Canadian \$ thousands)

7. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Company deposited seed money in the Fund at the time of its introduction. The fair value of all remaining seed money, which is included in option S1R category, at December 31, 2022 is nil (\$1,947 at December 31, 2021).
- d) The Fund invests in assets or underlying funds managed by Irish Life Investment Managers Limited. All investment transactions with the corresponding underlying funds are at quoted market prices.

Global Low Vol Fund (ILIM) SF561

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
75/75 guarantee policy	2.99	2.95	2.87	2.87	—
75/100 guarantee policy	3.08	3.10	3.01	3.02	—
100/100 guarantee policy	3.48	3.49	3.38	3.40	—
PS1 75/75 guarantee policy	2.45	2.46	2.41	2.41	—

PS1 100/100 guarantee policy	3.02	3.04	2.96	—	—
PS 75/75 guarantee policy	1.81	1.81	1.76	—	—
PS 75/100 guarantee policy	1.97	1.97	1.93	—	—
PPS 75/75 guarantee policy	1.35	1.35	1.30	—	—
PPS 75/100 guarantee policy	1.57	1.56	1.54	1.54	—

Portfolio Turnover Rate (%) ⁽²⁾⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	96.29	60.96	65.74	34.13	—

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(3) The Fund commenced on November 4, 2019 and as a result does not have comparative figures for the prior year.

THE CANADA LIFE ASSURANCE COMPANY
AMERICAN EQUITY FUND (BG) SF562

December 31, 2022

Independent Auditor's Report

To the Contractholders of American Equity Fund (BG) SF562 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

American Equity Fund (BG) SF562

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The American Equity Fund (BG) SF562 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

American Equity Fund (BG) SF562

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

American Equity Fund (BG) SF562

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

American Equity Fund (BG) SF562

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

American Equity Fund (BG) SF562

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

American Equity Fund (BG) SF562

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

American Equity Fund (BG) SF562

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

American Equity Fund (BG) SF562

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

American Equity Fund (BG) SF562

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.

American Equity Fund (BG) SF562

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

American Equity Fund (BG) SF562

Supplemental Information (unaudited)

Portfolio Turnover Rate (%) ⁽³⁾⁽⁴⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	3.36	6.03	10.04	0.05	—

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(4) The Fund commenced on November 4, 2019 and as a result does not have comparative figures for the prior year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
IVY CANADIAN BALANCED FUND (MACKENZIE) SF563

December 31, 2022

Independent Auditor's Report

To the Contractholders of Ivy Canadian Balanced Fund (Mackenzie) SF563 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Ivy Canadian Balanced Fund (Mackenzie) SF563

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Ivy Canadian Balanced Fund (Mackenzie) SF563 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Ivy Canadian Balanced Fund (Mackenzie) SF563

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Ivy Canadian Balanced Fund (Mackenzie) SF563

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Ivy Canadian Balanced Fund (Mackenzie) SF563

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Ivy Canadian Balanced Fund (Mackenzie) SF563

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Ivy Canadian Balanced Fund (Mackenzie) SF563

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Ivy Canadian Balanced Fund (Mackenzie) SF563

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Ivy Canadian Balanced Fund (Mackenzie) SF563

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Ivy Canadian Balanced Fund (Mackenzie) SF563

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

Ivy Canadian Balanced Fund (Mackenzie) SF563

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Ivy Canadian Balanced Fund (Mackenzie) SF563

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
75/75 guarantee policy	2.68	2.67	2.62	2.59	—

Portfolio Turnover Rate (%) ⁽²⁾⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	12.09	6.22	38.19	11.98	—

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(3) The Fund commenced on November 4, 2019 and as a result does not have comparative figures for the prior year.

THE CANADA LIFE ASSURANCE COMPANY
IVY FOREIGN EQUITY FUND (MACKENZIE) SF564

December 31, 2022

Independent Auditor's Report

To the Contractholders of Ivy Foreign Equity Fund (Mackenzie) SF564 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Ivy Foreign Equity Fund (Mackenzie) SF564

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Ivy Foreign Equity Fund (Mackenzie) SF564 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Ivy Foreign Equity Fund (Mackenzie) SF564

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Ivy Foreign Equity Fund (Mackenzie) SF564

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Ivy Foreign Equity Fund (Mackenzie) SF564

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Ivy Foreign Equity Fund (Mackenzie) SF564

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Ivy Foreign Equity Fund (Mackenzie) SF564

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Ivy Foreign Equity Fund (Mackenzie) SF564

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Ivy Foreign Equity Fund (Mackenzie) SF564

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Ivy Foreign Equity Fund (Mackenzie) SF564

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Canada Life Investment Management Ltd. All investment transactions with the corresponding underlying funds are at quoted market prices.

Ivy Foreign Equity Fund (Mackenzie) SF564

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Ivy Foreign Equity Fund (Mackenzie) SF564

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾⁽⁴⁾

Portfolio Turnover Rate (%) ⁽³⁾⁽⁴⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	20.91	91.12	7.61	0.04	—

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(4) The Fund commenced on November 4, 2019 and as a result does not have comparative figures for the prior year.

THE CANADA LIFE ASSURANCE COMPANY
DIVIDEND FUND (MACKENZIE) SF565

December 31, 2022

Independent Auditor's Report

To the Contractholders of Dividend Fund (Mackenzie) SF565 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Dividend Fund (Mackenzie) SF565

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Dividend Fund (Mackenzie) SF565 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Dividend Fund (Mackenzie) SF565

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Dividend Fund (Mackenzie) SF565

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Dividend Fund (Mackenzie) SF565

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Dividend Fund (Mackenzie) SF565

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Dividend Fund (Mackenzie) SF565

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Dividend Fund (Mackenzie) SF565

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Dividend Fund (Mackenzie) SF565

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Dividend Fund (Mackenzie) SF565

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Canada Life Investment Management Ltd. All investment transactions with the corresponding underlying funds are at quoted market prices.

Dividend Fund (Mackenzie) SF565

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Dividend Fund (Mackenzie) SF565

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾⁽⁴⁾

Portfolio Turnover Rate (%) ⁽³⁾⁽⁴⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	3.66	76.44	25.45	0.09	—

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

(4) The Fund commenced on November 4, 2019 and as a result does not have comparative figures for the prior year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
GLOBAL BALANCED PORTFOLIO FUND 1.04FID

December 31, 2022

Independent Auditor's Report

To the Contractholders of Global Balanced Portfolio Fund 1.04FID (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Global Balanced Portfolio Fund 1.04FID

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Global Balanced Portfolio Fund 1.04FID (the Fund) is offered by The Canada Life Assurance Company (the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.
