Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
CANADIAN EQUITY FUND (LAKETON) SF009

December 31, 2022

Independent Auditor's Report

To the Contractholders of Canadian Equity Fund (Laketon) SF009 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Canadian Equity Fund (Laketon) SF009

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the Canadian Equity Fund (Laketon) SF009 (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

Canadian Equity Fund (Laketon) SF009

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders	
United States Dollar	\$ 10,098	\$ 27	\$ 10,125	\$ 101	
Total	\$ 10,098	\$ 27	\$ 10,125	\$ 101	
As Percent of Net Assets Attributable to Contractholders				5.1%	0.1%

*Includes both monetary and non-monetary instruments

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders	
United States Dollar	\$ 16,593	\$ 28	\$ 16,621	\$ 166	
Total	\$ 16,593	\$ 28	\$ 16,621	\$ 166	
As Percent of Net Assets Attributable to Contractholders				8.1%	0.1%

*Includes both monetary and non-monetary instruments

D. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$1,896 (\$2,032 at December 31, 2021) or approximately 1.0% (1.0% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

Canadian Equity Fund (Laketon) SF009

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

E. Fair Value Classification

The following table presents information about the Fund's assets measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

<u>Assets measured at fair value</u>	2022			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 189,635	\$ —	\$ —	\$ 189,635
Total assets measured at fair value	\$ 189,635	\$ —	\$ —	\$ 189,635

<u>Assets measured at fair value</u>	2021			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 203,245	\$ —	\$ —	\$ 203,245
Total assets measured at fair value	\$ 203,245	\$ —	\$ —	\$ 203,245

There were no significant transfers between Level 1 and Level 2 during 2022 or 2021.

Canadian Equity Fund (Laketon) SF009

(in Canadian \$, except number of units outstanding)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance. Portfolio units are allocated to each category as described in note 3 and are not included on this page.

Net Assets Attributable to Contractholders by Category

For the years ended December 31

	Number of units outstanding					Net asset value (in \$ thousands)

Canadian Equity Fund (Laketon) SF009

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Canadian Equity Fund (Laketon) SF009

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Canadian Equity Fund (Laketon) SF009

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Canadian Equity Fund (Laketon) SF009

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Stocks

Stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

Canadian Equity Fund (Laketon) SF009

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

Canadian Equity Fund (Laketon) SF009

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes dividend income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Canadian Equity Fund (Laketon) SF009

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Canadian Equity Fund (Laketon) SF009

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

Canadian Equity Fund (Laketon) SF009

Notes to the Financial Statements

(in Canadian \$ thousands)

7. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

FIXED INCOME FUND (LAKETON) SF019

December 31, 2022

Independent Auditor's Report

To the Contractholders of Fixed Income Fund (Laketon) SF019 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Fixed Income Fund (Laketon) SF019

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the Fixed Income Fund (Laketon) SF019 (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

Fixed Income Fund (Laketon) SF019

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ (3,015)	\$ 3,111	\$ 96	\$ 1
Other Currencies	—	(36)	(36)	—
Total	\$ (3,015)	\$ 3,075	\$ 60	\$ 1
As Percent of Net Assets Attributable to Contractholders			—%	

*Includes both monetary and non-monetary instruments

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ 740	\$ 102	\$ 842	\$ 8
Total	\$ 740	\$ 102	\$ 842	\$ 8
As Percent of Net Assets Attributable to Contractholders			0.3%	

*Includes both monetary and non-monetary instruments

D. Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund is exposed to the risk that the value of interest-bearing financial instruments will fluctuate due to changes in the prevailing levels of market interest rates. Due to the nature of short-term fixed income securities with a remaining term-to-maturity of less than one year, these investments are not generally exposed to a significant risk that their value will fluctuate in response to changes in the prevailing levels of market interest rates. The risk is professionally managed at the security and fund level by the Company.

The table below summarizes the Fund's exposure to interest rate risk by remaining term-to-maturity.

2022

	1 year or less	Over 1 year to 5 years	Over 5 years to 10 years	Over 10 years	Total
Bonds	\$ 3,461	\$ 68,950	\$ 99,602	\$ 68,877	\$ 240,890

2021

	1 year or less	Over 1 year to 5 years	Over 5 years to 10 years	Over 10 years	Total
Bonds	\$ 7,412	\$ 85,580	\$ 90,079	\$ 76,683	\$ 259,754

Fixed Income Fund (Laketon) SF019

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

D. Interest Rate Risk (continued)

As at December 31, 2022, had prevailing interest rates increased or decreased by 1% assuming a parallel shift in the yield curve, with all other variables held constant, net assets attributable to contractholders would have decreased or increased, respectively, by approximately \$17,998 (\$19,226 at December 31, 2021) or approximately 6.9% (6.4% at December 31, 2021). The Fund's sensitivity to interest rate changes was estimated using the weighted average duration of the bond portfolio. In practice, the actual results may differ and the difference could be significant.

E. Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund's greatest concentration of credit risk is in debt securities, such as bonds. The fair value of debt instruments includes consideration of the creditworthiness of the debt issuer. The carrying amount of debt instruments represents the maximum credit risk exposure as at December 31, 2022. The amount of credit risk to any one issuer may be determined from the information reported in the Schedule of Investment Portfolio. The Fund may invest in short-term fixed income securities issued or guaranteed primarily by the Government of Canada or any Canadian provincial government, obligations of Canadian chartered banks or trust companies, and commercial paper with approved credit ratings. The risk of default on these short-term fixed income securities is considered low. The Company monitors credit risk and credit ratings on a regular basis. All new counterparties to financial instruments are subject to an approval process.

There was no change in fair values of financial liabilities as a result of changes in credit risks during 2022 or 2021.

All transactions in listed securities are settled and paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker.

Credit ratings disclosed below are obtained from independent rating agencies including DBRS, Standard & Poor's, Moody's Investors Service and Fitch Ratings. The lowest rating provided by the agencies is used.

Debt securities by credit rating are as follows:

	2022		2021	
	Percent of Total Bonds (%)	Percent of Total Net Assets Attributable to Contractholders (%)	Percent of Total Bonds (%)	Percent of Total Net Assets Attributable to Contractholders (%)
AAA	4.5	4.2	11.2	9.7
AA	28.3	26.1	22.3	19.2
A	33.4	30.9	25.8	22.1
BBB	27.6	25.6	32.7	28.1
BB and lower	5.9	5.4	7.3	6.3
NR *	0.3	0.3	0.7	0.6
Total	100.0	92.5	100.0	86.0

*Bonds disclosed as NR are mortgage backed securities or privately placed bonds or bonds that have not been rated by a rating agency.

Fixed Income Fund (Laketon) SF019

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

F. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$120 (\$243 at December 31, 2021) or approximately 0.0% (0.1% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

G. Fair Value Classification

The following table presents information about the Fund's assets and liabilities measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

	2022			
	Assets and Liabilities Measured at Fair Value			
<u>Assets measured at fair value</u>	Level 1	Level 2	Level 3	Total
Bonds	\$ —	\$ 240,805	\$ 85	\$ 240,890
Stocks	11,971	—	—	11,971
Derivatives	121	46	—	167
Total assets measured at fair value	\$ 12,092	\$ 240,851	\$ 85	\$ 253,028
Liabilities measured at fair value				
Derivatives ⁽¹⁾	\$ —	\$ 894	\$ —	\$ 894
Net assets attributable to contractholders measured at fair value	\$ 12,092	\$ 239,957	\$ 85	\$ 252,134

⁽¹⁾ Excludes collateral pledged to counterparties of \$1,162.

	2021			
	Assets and Liabilities Measured at Fair Value			
<u>Assets measured at fair value</u>	Level 1	Level 2	Level 3	Total
Bonds	\$ —	\$ 259,722	\$ 32	\$ 259,754
Stocks	24,302	—	—	24,302
Derivatives	—	92	—	92
Total assets measured at fair value	\$ 24,302	\$ 259,814	\$ 32	\$ 284,148
Liabilities measured at fair value				
Derivatives ⁽¹⁾	\$ 10	\$ 123	\$ —	\$ 133
Net assets attributable to contractholders measured at fair value	\$ 24,292	\$ 259,691	\$ 32	\$ 284,015

⁽¹⁾ Excludes collateral pledged to counterparties of \$714.

There were no significant transfers between Level 1 and Level 2 during 2022 or 2021.

Fixed Income Fund (Laketon) SF019

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Fixed Income Fund (Laketon) SF019

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Fixed Income Fund (Laketon) SF019

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Fixed Income Fund (Laketon) SF019

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Bonds and Stocks

Bonds and stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

Fixed Income Fund (Laketon) SF019

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Derivatives

Derivatives are classified and measured at fair value. Derivatives are valued using market transactions and other market evidence whenever possible, including market based inputs to models, broker or dealer quotations or alternative pricing sources with reasonable levels of transparency. When models are used, the selection of a particular model to value a derivative depends on the contractual terms of, and specific risks inherent in, the instrument, as well as the availability of pricing information in the market. The Company generally uses similar models to value similar instruments. Valuation models require a variety of inputs, including contractual terms, market prices and rates, yield curves, credit curves, measures volatility, prepayment rates and correlations of such inputs.

f) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

g) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Interest income on debt securities - included in the change in fair value of such investments and recorded on the accrual basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Fixed Income Fund (Laketon) SF019

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

h) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

i) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

j) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

k) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

Fixed Income Fund (Laketon) SF019

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

l) Income Allocation

Net gain (loss) on investments, which includes dividend income, interest income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

m) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

n) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Fixed Income Fund (Laketon) SF019

Notes to the Financial Statements

3. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Fixed Income Fund (Laketon) SF019

Notes to the Financial Statements

(in Canadian \$ thousands)

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

7. DERIVATIVE FINANCIAL INSTRUMENTS

Derivative contracts, including forward currency, futures and equity swap contracts, are valued at the gain or loss that would arise as a result of closing the position at the reporting date. Options are recorded at fair value as at the reporting date. The Fund may use derivative contracts to hedge against losses caused by changes in securities prices, interest rates, exchange rates and/or other risks. The Fund may also use derivative contracts for non-hedging purposes in order to invest indirectly in financial markets or to gain exposure to other currencies, provided the use of such derivatives is consistent with the Fund's investment objectives and strategies. Foreign currency risk and exposure may be direct or indirect and can include all or a portion of the currency exposure of an existing investment or group of investments. Any such gain or loss on derivative contracts is recorded as part of net gain (loss) on investments.

As at the reporting date, the unrealized gain (loss) on derivative contracts is reflected on the Statement of Financial Position of the Fund.

The Fund manages derivative credit risk through collateral arrangements where required. The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are implemented by the Fund regarding the acceptability of types of collateral and the valuation parameters. The Fund Manager monitors the value of the collateral and requests additional collateral when needed.

Fixed Income Fund (Laketon) SF019

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	96.75	91.49	79.49	80.90	36.21

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY
MONEY MARKET FUND (LAKETON) SF029

December 31, 2022

Independent Auditor's Report

To the Contractholders of Money Market Fund (Laketon) SF029 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Money Market Fund (Laketon) SF029

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the Money Market Fund (Laketon) SF029 (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund is exposed to the risk that the value of interest-bearing financial instruments will fluctuate due to changes in the prevailing levels of market interest rates. Due to the nature of short-term fixed income securities with a remaining term-to-maturity of less than one year, these investments are not generally exposed to a significant risk that their value will fluctuate in response to changes in the prevailing levels of market interest rates. The risk is professionally managed at the security and fund level by the Company.

The table below summarizes the Fund's exposure to interest rate risk by remaining term-to-maturity.

2022					
	1 year or less ⁽¹⁾	Over 1 year to 5 years	Over 5 years to 10 years	Over 10 years	Total
Bonds	\$ 465,241	\$ 18,000	\$ —	\$ —	\$ 483,241

2021					
	1 year or less ⁽¹⁾	Over 1 year to 5 years	Over 5 years to 10 years	Over 10 years	Total
Bonds	\$ 296,231	\$ 5,043	\$ —	\$ —	\$ 301,274

⁽¹⁾ For presentation purposes, short-term notes are included in Bonds on the Statement of Financial Position.

Money Market Fund (Laketon) SF029

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Interest Rate Risk (continued)

As at December 31, 2022 and 2021, a 1% increase or 1% decrease in the prevailing interest rates, with all other variables held constant, would have no impact on the total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

D. Fair Value Classification

The following table presents information about the Fund's assets measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

<u>Assets measured at fair value</u>	2022			
	Assets Measured at Fair Value			Total
	Level 1	Level 2	Level 3	
Bonds	\$ —	\$ 483,241	\$ —	\$ 483,241
Total assets measured at fair value	\$ —	\$ 483,241	\$ —	\$ 483,241

<u>Assets measured at fair value</u>	2021			
	Assets Measured at Fair Value			Total
	Level 1	Level 2	Level 3	
Bonds	\$ —	\$ 301,274	\$ —	\$ 301,274
Total assets measured at fair value	\$ —	\$ 301,274	\$ —	\$ 301,274

There were no significant transfers between Level 1 and Level 2 during 2022 or 2021.

Money Market Fund (Laketon) SF029

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Money Market Fund (Laketon) SF029

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Money Market Fund (Laketon) SF029

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Money Market Fund (Laketon) SF029

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Bonds

Bonds are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) Cash and Overdrafts

Cash and overdrafts are comprised of cash on deposit and overdrafts in the bank. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

Money Market Fund (Laketon) SF029

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Interest income on debt securities - included in the change in fair value of such investments and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

Money Market Fund (Laketon) SF029

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes interest income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Money Market Fund (Laketon) SF029

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S1C 75/75 Constellation IC Wealth,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S2C 75/75 Constellation IC Wealth,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy,
- Option S3HF PPS 100/100 guarantee policy, and
- Option S3C 75/75 Constellation IC Wealth.

Money Market Fund (Laketon) SF029

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

(in Canadian \$ thousands)

7. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(1) The waiving of direct expenses to the segregated funds is done on a discretionary basis to maintain management expense ratios at competitive levels. There is no obligation on the Company to waive expenses and it may cease to do so at any time. The following waived expenses were part of a one-time event: in 2019, 0.09 percentage points of the waived expenses for Flex and 0.09 percentage points of the waived expenses for Generations/Mosaic; and in 2018, 0.13 percentage points of the waived expenses for Flex and 0.14 percentage points of the waived expenses for Generations/Mosaic.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
GLOBAL EQUITY FUND SF034

December 31, 2022

Independent Auditor's Report

To the Contractholders of Global Equity Fund SF034 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Global Equity Fund SF034

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the Global Equity Fund SF034 (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

Global Equity Fund SF034

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ 83,173	\$ 17	\$ 83,190	\$ 832
Euro	23,368	1	23,369	234
United Kingdom Pound Sterling	14,607	—	14,607	146
Other Currencies	19,230	—	19,230	192
Total	\$ 140,378	\$ 18	\$ 140,396	\$ 1,404
As Percent of Net Assets Attributable to Contractholders			98.6%	1.0%

*Includes both monetary and non-monetary instruments

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ 90,739	\$ 12	\$ 90,751	\$ 908
Euro	23,251	—	23,251	233
United Kingdom Pound Sterling	17,343	—	17,343	173
Other Currencies	21,037	—	21,037	210
Total	\$ 152,370	\$ 12	\$ 152,382	\$ 1,524
As Percent of Net Assets Attributable to Contractholders			97.9%	1.0%

*Includes both monetary and non-monetary instruments

D. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$1,404 (\$1,524 at December 31, 2021) or approximately 1.0% (1.0% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

Global Equity Fund SF034

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

E. Fair Value Classification

The following table presents information about the Fund's assets and liabilities measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

2022				
Assets and Liabilities Measured at Fair Value				
<u>Assets measured at fair value</u>	Level 1	Level 2	Level 3	Total
Stocks	\$ 134,649	\$ 5,729	\$ —	\$ 140,378
Derivatives	—	—	—	—
Total assets measured at fair value	\$ 134,649	\$ 5,729	\$ —	\$ 140,378
<u>Liabilities measured at fair value</u>				
Derivatives	\$ —	\$ —	\$ —	\$ —
Net assets attributable to contractholders measured at fair value	\$ 134,649	\$ 5,729	\$ —	\$ 140,378

2021				
Assets and Liabilities Measured at Fair Value				
<u>Assets measured at fair value</u>	Level 1	Level 2	Level 3	Total
Stocks	\$ 126,257	\$ 26,113	\$ —	\$ 152,370
Derivatives	—	—	—	—
Total assets measured at fair value	\$ 126,257	\$ 26,113	\$ —	\$ 152,370
<u>Liabilities measured at fair value</u>				
Derivatives	\$ —	\$ —	\$ —	\$ —
Net assets attributable to contractholders measured at fair value	\$ 126,257	\$ 26,113	\$ —	\$ 152,370

In accordance with the Fund's valuation policy, the Fund applies fair value adjustment factors to the quoted market prices for certain non-North American equities when North American intraday stock market movements exceed predetermined tolerances. The adjustment factors are applied in order to estimate the impact on fair values of events occurring between the close of the non-North American stock markets and the close of business for the Fund. If fair value adjustment factors are applied, non-North American equities are classified as Level 2. Consequently, non-North American equities are frequently transferred between Level 1 (unadjusted quoted market prices) and Level 2 (adjusted market prices). As at December 31, 2022, these securities were classified as Level 2 (Level 2 at December 31, 2021).

Global Equity Fund SF034

(in Canadian \$, except number of units outstanding)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance. Portfolio units are allocated to each category as described in note 3 and are not included on this page.

Global Equity Fund SF034

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Global Equity Fund SF034

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Global Equity Fund SF034

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Global Equity Fund SF034

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) **Stocks**

Stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) **Cash, Short-term Deposits and Overdrafts**

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

Global Equity Fund SF034

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Derivatives

Derivatives are classified and measured at fair value. Derivatives are valued using market transactions and other market evidence whenever possible, including market based inputs to models, broker or dealer quotations or alternative pricing sources with reasonable levels of transparency. When models are used, the selection of a particular model to value a derivative depends on the contractual terms of, and specific risks inherent in, the instrument, as well as the availability of pricing information in the market. The Company generally uses similar models to value similar instruments. Valuation models require a variety of inputs, including contractual terms, market prices and rates, yield curves, credit curves, measures volatility, prepayment rates and correlations of such inputs.

f) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

g) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Global Equity Fund SF034

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

h) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

i) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

j) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

k) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

Global Equity Fund SF034

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

l) Income Allocation

Net gain (loss) on investments, which includes dividend income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

m) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

n) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Global Equity Fund SF034

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Global Equity Fund SF034

Notes to the Financial Statements

(in Canadian \$ thousands)

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

7. DERIVATIVE FINANCIAL INSTRUMENTS

Derivative contracts, including forward currency, futures and equity swap contracts, are valued at the gain or loss that would arise as a result of closing the position at the reporting date. Options are recorded at fair value as at the reporting date. The Fund may use derivative contracts to hedge against losses caused by changes in securities prices, interest rates, exchange rates and/or other risks. The Fund may also use derivative contracts for non-hedging purposes in order to invest indirectly in financial markets or to gain exposure to other currencies, provided the use of such derivatives is consistent with the Fund's investment objectives and strategies. Foreign currency risk and exposure may be direct or indirect and can include all or a portion of the currency exposure of an existing investment or group of investments. Any such gain or loss on derivative contracts is recorded as part of net gain (loss) on investments.

As at the reporting date, the unrealized gain (loss) on derivative contracts is reflected on the Statement of Financial Position of the Fund.

The Fund manages derivative credit risk through collateral arrangements where required. The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are implemented by the Fund regarding the acceptability of types of collateral and the valuation parameters. The Fund Manager monitors the value of the collateral and requests additional collateral when needed.

Global Equity Fund SF034

Notes to the Financial Statements

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Setanta Asset Management Limited. All investment transactions with the corresponding underlying funds are at quoted market prices.

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	10.45	20.55	31.19	12.24	19.21

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY
MANAGED FUND (LAKETON) SF035

December 31, 2022

Independent Auditor's Report

To the Contractholders of Managed Fund (Laketon) SF035 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Managed Fund (Laketon) SF035

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the Managed Fund (Laketon) SF035 (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

Managed Fund (Laketon) SF035

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ 22,716	\$ 795	\$ 23,511	\$ 235
Euro	3,504	(4)	3,500	35
Other Currencies	5,258	49	5,307	53
Total	\$ 31,478	\$ 840	\$ 32,318	\$ 323
As Percent of Net Assets Attributable to Contractholders			29.7%	0.3%

*Includes both monetary and non-monetary instruments

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ 17,762	\$ 377	\$ 18,139	\$ 181
Euro	5,893	4	5,897	59
United Kingdom Pound Sterling	4,840	—	4,840	49
Swiss Franc	1,863	—	1,863	19
Other Currencies	4,717	—	4,717	47
Total	\$ 35,075	\$ 381	\$ 35,456	\$ 355
As Percent of Net Assets Attributable to Contractholders			26.4%	0.3%

*Includes both monetary and non-monetary instruments

D. Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund is exposed to the risk that the value of interest-bearing financial instruments will fluctuate due to changes in the prevailing levels of market interest rates. Due to the nature of short-term fixed income securities with a remaining term-to-maturity of less than one year, these investments are not generally exposed to a significant risk that their value will fluctuate in response to changes in the prevailing levels of market interest rates. The risk is professionally managed at the security and fund level by the Company.

Managed Fund (Laketon) SF035

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

D. Interest Rate Risk (continued)

The table below summarizes the Fund's exposure to interest rate risk by remaining term-to-maturity.

2022						
	1 year or less	Over 1 year to 5 years	Over 5 years to 10 years	Over 10 years	Total	
Bonds	\$ 1,145	\$ 15,892	\$ 20,118	\$ 13,537	\$	50,692
2021						
	1 year or less	Over 1 year to 5 years	Over 5 years to 10 years	Over 10 years	Total	
Bonds	\$ 1,653	\$ 12,600	\$ 15,847	\$ 13,813	\$	43,913

As at December 31, 2022, had prevailing interest rates increased or decreased by 1% assuming a parallel shift in the yield curve, with all other variables held constant, net assets attributable to contractholders would have decreased or increased, respectively, by approximately \$3,613 (\$3,436 at December 31, 2021) or approximately 3.3% (2.6% at December 31, 2021). The Fund's sensitivity to interest rate changes was estimated using the weighted average duration of the bond portfolio. In practice, the actual results may differ and the difference could be significant.

E. Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund's greatest concentration of credit risk is in debt securities, such as bonds. The fair value of debt instruments includes consideration of the creditworthiness of the debt issuer. The carrying amount of debt instruments represents the maximum credit risk exposure as at December 31, 2022. The amount of credit risk to any one issuer may be determined from the information reported in the Schedule of Investment Portfolio. The Fund may invest in short-term fixed income securities issued or guaranteed primarily by the Government of Canada or any Canadian provincial government, obligations of Canadian chartered banks or trust companies, and commercial paper with approved credit ratings. The risk of default on these short-term fixed income securities is considered low. The Company monitors credit risk and credit ratings on a regular basis. All new counterparties to financial instruments are subject to an approval process.

There was no change in fair values of financial liabilities as a result of changes in credit risks during 2022 or 2021.

All transactions in listed securities are settled and paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker.

Managed Fund (Laketon) SF035

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

E. Credit Risk (continued)

Credit ratings disclosed below are obtained from independent rating agencies including DBRS, Standard & Poor's, Moody's Investors Service and Fitch Ratings. The lowest rating provided by the agencies is used.

Debt securities by credit rating are as follows:

	2022		2021	
	Percent of Total Bonds (%)	Percent of Total Net Assets Attributable to Contractholders (%)	Percent of Total Bonds (%)	Percent of Total Net Assets Attributable to Contractholders (%)
AAA	5.5	2.6	11.0	3.6
AA	23.8	11.1	20.6	6.7
A	35.2	16.4	26.1	8.5
BBB	28.6	13.3	33.8	11.0
BB and lower	6.7	3.1	7.7	2.5
NR *	0.2	0.1	0.8	0.3
Total	100.0	46.6	100.0	32.6

*Bonds disclosed as NR are mortgage backed securities or privately placed bonds or bonds that have not been rated by a rating agency.

F. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$561 (\$886 at December 31, 2021) or approximately 0.5% (0.7% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

Managed Fund (Laketon) SF035

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

G. Fair Value Classification

The following table presents information about the Fund's assets and liabilities measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

	2022			
	Assets and Liabilities Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Assets measured at fair value				
Bonds	\$ —	\$ 50,677	\$ 15	\$ 50,692
Stocks	56,109	—	—	56,109
Derivatives	26	6	—	32
Total assets measured at fair value	\$ 56,135	\$ 50,683	\$ 15	\$ 106,833
Liabilities measured at fair value				
Derivatives ⁽¹⁾	\$ —	\$ 155	\$ —	\$ 155
Net assets attributable to contractholders measured at fair value	\$ 56,135	\$ 50,528	\$ 15	\$ 106,678

⁽¹⁾ Excludes collateral pledged to counterparties of \$256.

	2021			
	Assets and Liabilities Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Assets measured at fair value				
Bonds	\$ —	\$ 43,907	\$ 6	\$ 43,913
Stocks	81,877	6,684	—	88,561
Derivatives	—	14	—	14
Total assets measured at fair value	\$ 81,877	\$ 50,605	\$ 6	\$ 132,488
Liabilities measured at fair value				
Derivatives ⁽¹⁾	\$ 10	\$ 11	\$ —	\$ 21
Net assets attributable to contractholders measured at fair value	\$ 81,867	\$ 50,594	\$ 6	\$ 132,467

⁽¹⁾ Excludes collateral pledged to counterparties of \$206.

In accordance with the Fund's valuation policy, the Fund applies fair value adjustment factors to the quoted market prices for certain non-North American equities when North American intraday stock market movements exceed predetermined tolerances. The adjustment factors are applied in order to estimate the impact on fair values of events occurring between the close of the non-North American stock markets and the close of business for the Fund. If fair value adjustment factors are applied, non-North American equities are classified as Level 2. Consequently, non-North American equities are frequently transferred between Level 1 (unadjusted quoted market prices) and Level 2 (adjusted market prices). As at December 31, 2022, these securities were classified as Level 1 (Level 2 at December 31, 2021).

Managed Fund (Laketon) SF035

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

G. Fair Value Classification (continued)

The following table presents additional information about assets measured at fair value on a recurring basis and for which the Fund has utilized Level 3 inputs to determine fair value:

	2022	2021
	Bonds	Bonds
Balance, beginning of year	\$ 6	\$ —
Total gain (loss) included in net assets from operations attributable to contractholders	—	—
Purchases	9	—
Sales	—	—
Settlements	—	—
Transfers into Level 3	—	6
Transfers out of Level 3	—	—
Balance, end of year	\$ 15	\$ 6
Total gain (loss) for the year included in net gain (loss) on investments for Level 3 assets held at the end of year	\$ —	\$ —

Managed Fund (Laketon) SF035

(in Canadian \$, except number of units outstanding)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Managed Fund (Laketon) SF035

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Managed Fund (Laketon) SF035

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Managed Fund (Laketon) SF035

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Managed Fund (Laketon) SF035

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Bonds and Stocks

Bonds and stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

Managed Fund (Laketon) SF035

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Derivatives

Derivatives are classified and measured at fair value. Derivatives are valued using market transactions and other market evidence whenever possible, including market based inputs to models, broker or dealer quotations or alternative pricing sources with reasonable levels of transparency. When models are used, the selection of a particular model to value a derivative depends on the contractual terms of, and specific risks inherent in, the instrument, as well as the availability of pricing information in the market. The Company generally uses similar models to value similar instruments. Valuation models require a variety of inputs, including contractual terms, market prices and rates, yield curves, credit curves, measures volatility, prepayment rates and correlations of such inputs.

f) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

g) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Interest income on debt securities - included in the change in fair value of such investments and recorded on the accrual basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Managed Fund (Laketon) SF035

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

h) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

i) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

j) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

k) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

Managed Fund (Laketon) SF035

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

l) Income Allocation

Net gain (loss) on investments, which includes dividend income, interest income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

m) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

n) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Managed Fund (Laketon) SF035

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Managed Fund (Laketon) SF035

Notes to the Financial Statements

(in Canadian \$ thousands)

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

7. DERIVATIVE FINANCIAL INSTRUMENTS

Derivative contracts, including forward currency, futures and equity swap contracts, are valued at the gain or loss that would arise as a result of closing the position at the reporting date. Options are recorded at fair value as at the reporting date. The Fund may use derivative contracts to hedge against losses caused by changes in securities prices, interest rates, exchange rates and/or other risks. The Fund may also use derivative contracts for non-hedging purposes in order to invest indirectly in financial markets or to gain exposure to other currencies, provided the use of such derivatives is consistent with the Fund's investment objectives and strategies. Foreign currency risk and exposure may be direct or indirect and can include all or a portion of the currency exposure of an existing investment or group of investments. Any such gain or loss on derivative contracts is recorded as part of net gain (loss) on investments.

As at the reporting date, the unrealized gain (loss) on derivative contracts is reflected on the Statement of Financial Position of the Fund.

The Fund manages derivative credit risk through collateral arrangements where required. The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are implemented by the Fund regarding the acceptability of types of collateral and the valuation parameters. The Fund Manager monitors the value of the collateral and requests additional collateral when needed.

Managed Fund (Laketon) SF035

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	87.70	77.92	48.28	60.07	48.54

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

INTERNATIONAL BOND FUND (LAKETON) SF036

December 31, 2022

Independent Auditor's Report

To the Contractholders of International Bond Fund (Laketon) SF036 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

International Bond Fund (Laketon) SF036

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the International Bond Fund (Laketon) SF036 (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

International Bond Fund (Laketon) SF036

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders

*Includes both monetary and non-monetary instruments

D. Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund is exposed to the risk that the value of interest-bearing financial instruments will fluctuate due to changes in the prevailing levels of market interest rates. Due to the nature of short-term fixed income securities with a remaining term-to-maturity of less than one year, these investments are not generally exposed to a significant risk that their value will fluctuate in response to changes in the prevailing levels of market interest rates. The risk is professionally managed at the security and fund level by the Company.

International Bond Fund (Laketon) SF036

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

D. Interest Rate Risk (continued)

The table below summarizes the Fund's exposure to interest rate risk by remaining term-to-maturity.

2022					
	1 year or less	Over 1 year to 5 years	Over 5 years to 10 years	Over 10 years	Total
Bonds	\$ 11,924	\$ 25,131	\$ 31,036	\$ 22,773	\$ 90,864

2021					
	1 year or less	Over 1 year to 5 years	Over 5 years to 10 years	Over 10 years	Total
Bonds	\$ 3,206	\$ 35,969	\$ 35,378	\$ 27,383	\$ 101,936

As at December 31, 2022, had prevailing interest rates increased or decreased by 1% assuming a parallel shift in the yield curve, with all other variables held constant, net assets attributable to contractholders would have decreased or increased, respectively, by approximately \$5,301 (\$6,583 at December 31, 2021) or approximately 5.6% (6.0% at December 31, 2021). The Fund's sensitivity to interest rate changes was estimated using the weighted average duration of the bond portfolio. In practice, the actual results may differ and the difference could be significant.

E. Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund's greatest concentration of credit risk is in debt securities, such as bonds. The fair value of debt instruments includes consideration of the creditworthiness of the debt issuer. The carrying amount of debt instruments represents the maximum credit risk exposure as at December 31, 2022. The amount of credit risk to any one issuer may be determined from the information reported in the Schedule of Investment Portfolio. The Fund may invest in short-term fixed income securities issued or guaranteed primarily by the Government of Canada or any Canadian provincial government, obligations of Canadian chartered banks or trust companies, and commercial paper with approved credit ratings. The risk of default on these short-term fixed income securities is considered low. The Company monitors credit risk and credit ratings on a regular basis. All new counterparties to financial instruments are subject to an approval process.

There was no change in fair values of financial liabilities as a result of changes in credit risks during 2022 or 2021.

All transactions in listed securities are settled and paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker.

Credit ratings disclosed below are obtained from independent rating agencies including DBRS, Standard & Poor's, Moody's Investors Service and Fitch Ratings. The lowest rating provided by the agencies is used.

International Bond Fund (Laketon) SF036

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

E. Credit Risk (continued)

Debt securities by credit rating are as follows:

	2022		2021	
	Percent of Total Bonds (%)	Percent of Total Net Assets Attributable to Contractholders (%)	Percent of Total Bonds (%)	Percent of Total Net Assets Attributable to Contractholders (%)
AAA	26.8	25.4	25.7	24.1
AA	8.5	8.1	9.7	9.0
A	28.4	27.1	26.2	24.5
BBB	31.0	29.6	32.5	30.4
BB and lower	2.7	2.6	3.8	3.6
NR *	2.6	2.5	2.1	1.9
Total	100.0	95.3	100.0	93.5

*Bonds disclosed as NR are mortgage backed securities or privately placed bonds or bonds that have not been rated by a rating agency.

F. Fair Value Classification

The following table presents information about the Fund's assets measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

Assets measured at fair value	2022			
	Level 1	Level 2	Level 3	Total
Bonds	\$ —	\$ 90,864	\$ —	\$ 90,864
Total assets measured at fair value	\$ —	\$ 90,864	\$ —	\$ 90,864

Assets measured at fair value	2021			
	Level 1	Level 2	Level 3	Total
Bonds	\$ —	\$ 101,936	\$ —	\$ 101,936
Total assets measured at fair value	\$ —	\$ 101,936	\$ —	\$ 101,936

There were no significant transfers between Level 1 and Level 2 during 2022 or 2021.

International Bond Fund (Laketon) SF036

(in Canadian \$, except number of units outstanding)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance. Portfolio units are allocated to each category as described in note 3 and are not included on this page.

International Bond Fund (Laketon) SF036

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

International Bond Fund (Laketon) SF036

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

International Bond Fund (Laketon) SF036

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

International Bond Fund (Laketon) SF036

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Bonds

Bonds are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

International Bond Fund (Laketon) SF036

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Interest income on debt securities - included in the change in fair value of such investments and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

International Bond Fund (Laketon) SF036

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes interest income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

International Bond Fund (Laketon) SF036

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

International Bond Fund (Laketon) SF036

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

International Bond Fund (Laketon) SF036

Notes to the Financial Statements

(in Canadian \$ thousands)

7. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Canada Life Asset Management Limited. All investment transactions with the corresponding underlying funds are at quoted market prices.

Portfolio Turnover Rate	11.31	51.97	34.73	29.60	27.18

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY
EUROPEAN EQUITY FUND S-037ST

December 31, 2022

Independent Auditor's Report

To the Contractholders of European Equity Fund S-037ST (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

European Equity Fund S-037ST

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the European Equity Fund S-037ST (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

European Equity Fund S-037ST

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
Euro	\$ 5,416	\$ —	\$ 5,416	\$ 54
United Kingdom Pound Sterling	3,819	—	3,819	38
United States Dollar	1,529	—	1,529	15
Swiss Franc	1,354	—	1,354	14
Other Currencies	383	—	383	4
Total	\$ 12,501	\$ —	\$ 12,501	\$ 125
As Percent of Net Assets Attributable to Contractholders			98.1%	1.0%

*Includes both monetary and non-monetary instruments

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
Euro	\$ 7,201	\$ 3	\$ 7,204	\$ 72
United Kingdom Pound Sterling	6,104	3	6,107	61
United States Dollar	1,729	6	1,735	17
Swiss Franc	1,610	—	1,610	16
Other Currencies	785	—	785	8
Total	\$ 17,429	\$ 12	\$ 17,441	\$ 174
As Percent of Net Assets Attributable to Contractholders			97.2%	1.0%

*Includes both monetary and non-monetary instruments

D. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$125 (\$174 at December 31, 2021) or approximately 1.0% (1.0% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

European Equity Fund S-037ST

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

E. Fair Value Classification

The following table presents information about the Fund's assets and liabilities measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

		2022			
		Assets and Liabilities Measured at Fair Value			
		Level 1	Level 2	Level 3	Total
Assets measured at fair value					
Stocks	\$	12,501	\$ —	\$ —	\$ 12,501
Derivatives		—	—	—	—
Total assets measured at fair value	\$	12,501	\$ —	\$ —	\$ 12,501
Liabilities measured at fair value					
Derivatives	\$	—	\$ —	\$ —	\$ —
Net assets attributable to contractholders measured at fair value	\$	12,501	\$ —	\$ —	\$ 12,501

		2021			
		Assets and Liabilities Measured at Fair Value			
		Level 1	Level 2	Level 3	Total
Assets measured at fair value					
Stocks	\$	12,959	\$ 4,470	\$ —	\$ 17,429
Derivatives		—	—	—	—
Total assets measured at fair value	\$	12,959	\$ 4,470	\$ —	\$ 17,429
Liabilities measured at fair value					
Derivatives	\$	—	\$ —	\$ —	\$ —
Net assets attributable to contractholders measured at fair value	\$	12,959	\$ 4,470	\$ —	\$ 17,429

In accordance with the Fund's valuation policy, the Fund applies fair value adjustment factors to the quoted market prices for certain non-North American equities when North American intraday stock market movements exceed predetermined tolerances. The adjustment factors are applied in order to estimate the impact on fair values of events occurring between the close of the non-North American stock markets and the close of business for the Fund. If fair value adjustment factors are applied, non-North American equities are classified as Level 2. Consequently, non-North American equities are frequently transferred between Level 1 (unadjusted quoted market prices) and Level 2 (adjusted market prices). As at December 31, 2022, these securities were classified as Level 1 (Level 2 at December 31, 2021).

European Equity Fund S-037ST

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

European Equity Fund S-037ST

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

European Equity Fund S-037ST

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

European Equity Fund S-037ST

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) **Stocks**

Stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) **Cash, Short-term Deposits and Overdrafts**

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

European Equity Fund S-037ST

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Derivatives

Derivatives are classified and measured at fair value. Derivatives are valued using market transactions and other market evidence whenever possible, including market based inputs to models, broker or dealer quotations or alternative pricing sources with reasonable levels of transparency. When models are used, the selection of a particular model to value a derivative depends on the contractual terms of, and specific risks inherent in, the instrument, as well as the availability of pricing information in the market. The Company generally uses similar models to value similar instruments. Valuation models require a variety of inputs, including contractual terms, market prices and rates, yield curves, credit curves, measures volatility, prepayment rates and correlations of such inputs.

f) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

g) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

European Equity Fund S-037ST

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

h) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

i) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

j) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

k) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

European Equity Fund S-037ST

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

l) Income Allocation

Net gain (loss) on investments, which includes dividend income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

m) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

n) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

European Equity Fund S-037ST

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

European Equity Fund S-037ST

Notes to the Financial Statements

(in Canadian \$ thousands)

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

7. DERIVATIVE FINANCIAL INSTRUMENTS

Derivative contracts, including forward currency, futures and equity swap contracts, are valued at the gain or loss that would arise as a result of closing the position at the reporting date. Options are recorded at fair value as at the reporting date. The Fund may use derivative contracts to hedge against losses caused by changes in securities prices, interest rates, exchange rates and/or other risks. The Fund may also use derivative contracts for non-hedging purposes in order to invest indirectly in financial markets or to gain exposure to other currencies, provided the use of such derivatives is consistent with the Fund's investment objectives and strategies. Foreign currency risk and exposure may be direct or indirect and can include all or a portion of the currency exposure of an existing investment or group of investments. Any such gain or loss on derivative contracts is recorded as part of net gain (loss) on investments.

As at the reporting date, the unrealized gain (loss) on derivative contracts is reflected on the Statement of Financial Position of the Fund.

The Fund manages derivative credit risk through collateral arrangements where required. The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are implemented by the Fund regarding the acceptability of types of collateral and the valuation parameters. The Fund Manager monitors the value of the collateral and requests additional collateral when needed.

European Equity Fund S-037ST

Notes to the Financial Statements

(in Canadian \$ thousands)

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Setanta Asset Management Limited. All investment transactions with the corresponding underlying funds are at quoted market prices.

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	5.50	4.36	6.88	5.11	24.57

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
FAR EAST EQUITY FUND S-038MF

December 31, 2022

Independent Auditor's Report

To the Contractholders of Far East Equity Fund S-038MF (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Far East Equity Fund S-038MF

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the Far East Equity Fund S-038MF (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

Far East Equity Fund S-038MF

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
Hong Kong Dollar	\$ 6,715	\$ 6	\$ 6,721	\$ 67
Australian Dollar	3,020	24	3,044	31
New Taiwan Dollar	2,197	—	2,197	22
United States Dollar	2,182	7	2,189	22
Other Currencies	4,029	—	4,029	40
Total	\$ 18,143	\$ 37	\$ 18,180	\$ 182
As Percent of Net Assets Attributable to Contractholders			99.9%	1.0%

*Includes both monetary and non-monetary instruments

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
Hong Kong Dollar	\$ 7,588	\$ 15	\$ 7,603	\$ 76
United States Dollar	4,360	—	4,360	44
New Taiwan Dollar	3,770	103	3,873	39
Australian Dollar	3,522	24	3,546	35
Other Currencies	5,074	36	5,110	51
Total	\$ 24,314	\$ 178	\$ 24,492	\$ 245
As Percent of Net Assets Attributable to Contractholders			100.2%	1.0%

*Includes both monetary and non-monetary instruments

D. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$181 (\$243 at December 31, 2021) or approximately 1.0% (1.0% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

Far East Equity Fund S-038MF

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

E. Fair Value Classification

The following table presents information about the Fund's assets and liabilities measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

		2022			
		Assets and Liabilities Measured at Fair Value			
<u>Assets measured at fair value</u>	Level 1	Level 2	Level 3	Total	
Stocks	\$ 16,030	\$ 2,113	\$ —	\$ 18,143	
Derivatives	—	—	—	—	
Total assets measured at fair value	\$ 16,030	\$ 2,113	\$ —	\$ 18,143	
<u>Liabilities measured at fair value</u>					
Derivatives	\$ —	\$ —	\$ —	\$ —	
Net assets attributable to contractholders measured at fair value	\$ 16,030	\$ 2,113	\$ —	\$ 18,143	

		2021			
		Assets and Liabilities Measured at Fair Value			
<u>Assets measured at fair value</u>	Level 1	Level 2	Level 3	Total	
Stocks	\$ 16,726	\$ 7,588	\$ —	\$ 24,314	
Derivatives	—	—	—	—	
Total assets measured at fair value	\$ 16,726	\$ 7,588	\$ —	\$ 24,314	
<u>Liabilities measured at fair value</u>					
Derivatives	\$ —	\$ —	\$ —	\$ —	
Net assets attributable to contractholders measured at fair value	\$ 16,726	\$ 7,588	\$ —	\$ 24,314	

In accordance with the Fund's valuation policy, the Fund applies fair value adjustment factors to the quoted market prices for certain non-North American equities when North American intraday stock market movements exceed predetermined tolerances. The adjustment factors are applied in order to estimate the impact on fair values of events occurring between the close of the non-North American stock markets and the close of business for the Fund. If fair value adjustment factors are applied, non-North American equities are classified as Level 2. Consequently, non-North American equities are frequently transferred between Level 1 (unadjusted quoted market prices) and Level 2 (adjusted market prices). As at December 31, 2022, these securities were classified as Level 2 (Level 2 at December 31, 2021).

Far East Equity Fund S-038MF

(in Canadian \$, except number of units outstanding)

Far East Equity Fund S-038MF

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Far East Equity Fund S-038MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Far East Equity Fund S-038MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Far East Equity Fund S-038MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) **Stocks**

Stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) **Cash, Short-term Deposits and Overdrafts**

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

Far East Equity Fund S-038MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Derivatives

Derivatives are classified and measured at fair value. Derivatives are valued using market transactions and other market evidence whenever possible, including market based inputs to models, broker or dealer quotations or alternative pricing sources with reasonable levels of transparency. When models are used, the selection of a particular model to value a derivative depends on the contractual terms of, and specific risks inherent in, the instrument, as well as the availability of pricing information in the market. The Company generally uses similar models to value similar instruments. Valuation models require a variety of inputs, including contractual terms, market prices and rates, yield curves, credit curves, measures volatility, prepayment rates and correlations of such inputs.

f) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

g) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Far East Equity Fund S-038MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

h) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

i) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

j) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

k) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

Far East Equity Fund S-038MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

l) Income Allocation

Net gain (loss) on investments, which includes dividend income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

m) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

n) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Far East Equity Fund S-038MF

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Far East Equity Fund S-038MF

Notes to the Financial Statements

(in Canadian \$ thousands)

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

7. DERIVATIVE FINANCIAL INSTRUMENTS

Derivative contracts, including forward currency, futures and equity swap contracts, are valued at the gain or loss that would arise as a result of closing the position at the reporting date. Options are recorded at fair value as at the reporting date. The Fund may use derivative contracts to hedge against losses caused by changes in securities prices, interest rates, exchange rates and/or other risks. The Fund may also use derivative contracts for non-hedging purposes in order to invest indirectly in financial markets or to gain exposure to other currencies, provided the use of such derivatives is consistent with the Fund's investment objectives and strategies. Foreign currency risk and exposure may be direct or indirect and can include all or a portion of the currency exposure of an existing investment or group of investments. Any such gain or loss on derivative contracts is recorded as part of net gain (loss) on investments.

As at the reporting date, the unrealized gain (loss) on derivative contracts is reflected on the Statement of Financial Position of the Fund.

The Fund manages derivative credit risk through collateral arrangements where required. The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are implemented by the Fund regarding the acceptability of types of collateral and the valuation parameters. The Fund Manager monitors the value of the collateral and requests additional collateral when needed.

Far East Equity Fund S-038MF

Notes to the Financial Statements

(in Canadian \$ thousands)

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Canada Life Asset Management Limited. All investment transactions with the corresponding underlying funds are at quoted market prices.

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	23.23	18.68	57.67	64.16	82.34

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
ENHANCED DIVIDEND FUND (LAKETON) SF039

December 31, 2022

Independent Auditor's Report

To the Contractholders of Enhanced Dividend Fund (Laketon) SF039 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Enhanced Dividend Fund (Laketon) SF039

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the Enhanced Dividend Fund (Laketon) SF039 (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

Enhanced Dividend Fund (Laketon) SF039

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ —	\$ 838	\$ 838	\$ 8
Total	\$ —	\$ 838	\$ 838	\$ 8
As Percent of Net Assets Attributable to Contractholders				0.1%

*Includes both monetary and non-monetary instruments

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ —	\$ 1,411	\$ 1,411	\$ 14
Total	\$ —	\$ 1,411	\$ 1,411	\$ 14
As Percent of Net Assets Attributable to Contractholders				0.1%

*Includes both monetary and non-monetary instruments

D. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$12,946 (\$12,504 at December 31, 2021) or approximately 1.0% (1.0% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

Enhanced Dividend Fund (Laketon) SF039

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

E. Fair Value Classification

The following table presents information about the Fund's assets measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

<u>Assets measured at fair value</u>	2022			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 1,294,632	\$ —	\$ —	\$ 1,294,632
Total assets measured at fair value	\$ 1,294,632	\$ —	\$ —	\$ 1,294,632

<u>Assets measured at fair value</u>	2021			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 1,250,425	\$ —	\$ —	\$ 1,250,425
Total assets measured at fair value	\$ 1,250,425	\$ —	\$ —	\$ 1,250,425

There were no significant transfers between Level 1 and Level 2 during 2022 or 2021.

Enhanced Dividend Fund (Laketon) SF039

(in Canadian \$, except number of units outstanding)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance. Portfolio units are allocated to each category as described in note 3 and are not included on this page.

Enhanced Dividend Fund (Laketon) SF039

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Enhanced Dividend Fund (Laketon) SF039

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Enhanced Dividend Fund (Laketon) SF039

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Enhanced Dividend Fund (Laketon) SF039

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) **Stocks**

Stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) **Cash, Short-term Deposits and Overdrafts**

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

Enhanced Dividend Fund (Laketon) SF039

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

Enhanced Dividend Fund (Laketon) SF039

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes dividend income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Enhanced Dividend Fund (Laketon) SF039

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Enhanced Dividend Fund (Laketon) SF039

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

Group units are available to Canadian Group Registered and Non-Registered Plans, Group Registered Retirement Savings Plans, Deferred Profit Sharing Plans, and certain Money Purchase Plans.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

The NAV per unit for group contractholders has not been shown because it will vary for each sub-class within the group contractholder class based on negotiated expense levels and other factors.

Enhanced Dividend Fund (Laketon) SF039

Notes to the Financial Statements

(in Canadian \$ thousands)

7. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	13.75	7.48	12.65	7.69	5.82

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY
GLOBAL EQUITY FUND (TRIMARK) SF051

December 31, 2022

Independent Auditor's Report

To the Contractholders of Global Equity Fund (Trimark) SF051 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Global Equity Fund (Trimark) SF051

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Global Equity Fund (Trimark) SF051 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Global Equity Fund (Trimark) SF051

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Global Equity Fund (Trimark) SF051

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Global Equity Fund (Trimark) SF051

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Global Equity Fund (Trimark) SF051

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Global Equity Fund (Trimark) SF051

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Global Equity Fund (Trimark) SF051

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Global Equity Fund (Trimark) SF051

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Global Equity Fund (Trimark) SF051

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.

Global Equity Fund (Trimark) SF051

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Global Equity Fund (Trimark) SF051

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	4.72	4.11	23.78	10.67	7.04

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

Independent Auditor's Report

To the Contractholders of Canadian Equity Fund (Trimark) SF052 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Canadian Equity Fund (Trimark) SF052

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Canadian Equity Fund (Trimark) SF052 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Canadian Equity Fund (Trimark) SF052

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Canadian Equity Fund (Trimark) SF052

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Canadian Equity Fund (Trimark) SF052

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Canadian Equity Fund (Trimark) SF052

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Canadian Equity Fund (Trimark) SF052

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Canadian Equity Fund (Trimark) SF052

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Canadian Equity Fund (Trimark) SF052

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Canadian Equity Fund (Trimark) SF052

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.

Canadian Equity Fund (Trimark) SF052

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Canadian Equity Fund (Trimark) SF052

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾

Portfolio Turnover Rate (%) ⁽³⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	1.93	3.41	3.60	6.12	13.14

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
BALANCED FUND (TRIMARK) SF054

December 31, 2022

Independent Auditor's Report

To the Contractholders of Balanced Fund (Trimark) SF054 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Balanced Fund (Trimark) SF054

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Balanced Fund (Trimark) SF054 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Balanced Fund (Trimark) SF054

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Balanced Fund (Trimark) SF054

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Balanced Fund (Trimark) SF054

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Balanced Fund (Trimark) SF054

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Balanced Fund (Trimark) SF054

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Balanced Fund (Trimark) SF054

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Balanced Fund (Trimark) SF054

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Balanced Fund (Trimark) SF054

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.

Balanced Fund (Trimark) SF054

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Balanced Fund (Trimark) SF054

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾

For the years ended December 31	2022	2021	2020	2019	2018

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	10.35	2.86	5.23	7.00	13.25

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
INDEXED CANADIAN BOND FUND (TDQC) SF079

December 31, 2022

Independent Auditor's Report

To the Contractholders of Indexed Canadian Bond Fund (TDQC) SF079 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Indexed Canadian Bond Fund (TDQC) SF079

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Indexed Canadian Bond Fund (TDQC) SF079 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Indexed Canadian Bond Fund (TDQC) SF079

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Indexed Canadian Bond Fund (TDQC) SF079

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Indexed Canadian Bond Fund (TDQC) SF079

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Indexed Canadian Bond Fund (TDQC) SF079

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Indexed Canadian Bond Fund (TDQC) SF079

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Indexed Canadian Bond Fund (TDQC) SF079

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Indexed Canadian Bond Fund (TDQC) SF079

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Indexed Canadian Bond Fund (TDQC) SF079

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Portfolio Turnover Rate	0.98	1.13	6.69	38.47	7.98

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

Independent Auditor's Report

To the Contractholders of Canadian Equity Fund (AGF) SF101 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Canadian Equity Fund (AGF) SF101

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Canadian Equity Fund (AGF) SF101 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Canadian Equity Fund (AGF) SF101

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Canadian Equity Fund (AGF) SF101

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Canadian Equity Fund (AGF) SF101

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Canadian Equity Fund (AGF) SF101

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Canadian Equity Fund (AGF) SF101

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Canadian Equity Fund (AGF) SF101

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Canadian Equity Fund (AGF) SF101

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Canadian Equity Fund (AGF) SF101

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.

Canadian Equity Fund (AGF) SF101

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Canadian Equity Fund (AGF) SF101

Supplemental Information *(unaudited)*

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾

For the years ended December 31	2022	2021	2020	2019	2018
Generations/Mosaic	3.65	3.66	3.66	3.66	3.68

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	2.32	0.58	1.66	5.29	2.08

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
CANADIAN EQUITY GROWTH FUND S-102MF

December 31, 2022

Independent Auditor's Report

To the Contractholders of Canadian Equity Growth Fund S-102MF (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Canadian Equity Growth Fund S-102MF

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Canadian Equity Growth Fund S-102MF (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Canadian Equity Growth Fund S-102MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Canadian Equity Growth Fund S-102MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Canadian Equity Growth Fund S-102MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Canadian Equity Growth Fund S-102MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Canadian Equity Growth Fund S-102MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Canadian Equity Growth Fund S-102MF

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Canadian Equity Growth Fund S-102MF

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Canadian Equity Growth Fund S-102MF

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Canada Life Investment Management Ltd. All investment transactions with the corresponding underlying funds are at quoted market prices.

Canadian Equity Growth Fund S-102MF

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Canadian Equity Growth Fund S-102MF

Portfolio Turnover Rate	7.88	82.72	9.43	14.31	132.84

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY
CANADIAN EQUITY FUND (BISSETT) SF103

December 31, 2022

Independent Auditor's Report

To the Contractholders of Canadian Equity Fund (Bissett) SF103 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Canadian Equity Fund (Bissett) SF103

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Canadian Equity Fund (Bissett) SF103 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Canadian Equity Fund (Bissett) SF103

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Canadian Equity Fund (Bissett) SF103

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Canadian Equity Fund (Bissett) SF103

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used. Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Canadian Equity Fund (Bissett) SF103

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Canadian Equity Fund (Bissett) SF103

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Canadian Equity Fund (Bissett) SF103

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Canadian Equity Fund (Bissett) SF103

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Canadian Equity Fund (Bissett) SF103

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.

Canadian Equity Fund (Bissett) SF103

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Canadian Equity Fund (Bissett) SF103

Supplemental Information *(unaudited)*

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	0.21	2.21	16.25	4.83	17.22

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY
BALANCED FUND (BISSETT) SF104

December 31, 2022

Independent Auditor's Report

To the Contractholders of Balanced Fund (Bissett) SF104 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Balanced Fund (Bissett) SF104

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Balanced Fund (Bissett) SF104 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Balanced Fund (Bissett) SF104

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Balanced Fund (Bissett) SF104

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Balanced Fund (Bissett) SF104

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Balanced Fund (Bissett) SF104

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Balanced Fund (Bissett) SF104

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Balanced Fund (Bissett) SF104

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Balanced Fund (Bissett) SF104

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Balanced Fund (Bissett) SF104

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Canada Life Investment Management Ltd. All investment transactions with the corresponding underlying funds are at quoted market prices.

Balanced Fund (Bissett) SF104

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Balanced Fund (Bissett) SF104

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾

For the years ended December 31	2022	2021	2020	2019	2018

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	5.71	97.52	0.04	0.50	1.00

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
SMALL CAP EQUITY FUND (BISSETT) SF105

December 31, 2022

Independent Auditor's Report

To the Contractholders of Small Cap Equity Fund (Bissett) SF105 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Small Cap Equity Fund (Bissett) SF105

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Small Cap Equity Fund (Bissett) SF105 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Small Cap Equity Fund (Bissett) SF105

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Small Cap Equity Fund (Bissett) SF105

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Small Cap Equity Fund (Bissett) SF105

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Small Cap Equity Fund (Bissett) SF105

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Small Cap Equity Fund (Bissett) SF105

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Small Cap Equity Fund (Bissett) SF105

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Small Cap Equity Fund (Bissett) SF105

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Small Cap Equity Fund (Bissett) SF105

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.

Small Cap Equity Fund (Bissett) SF105

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Portfolio Turnover Rate	0.60	1.13	1.36	0.61	1.89

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY
INTERNATIONAL EQUITY FUND (TEMPLETON) SF118

December 31, 2022

Independent Auditor's Report

To the Contractholders of International Equity Fund (Templeton) SF118 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

International Equity Fund (Templeton) SF118

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The International Equity Fund (Templeton) SF118 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

International Equity Fund (Templeton) SF118

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

International Equity Fund (Templeton) SF118

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

International Equity Fund (Templeton) SF118

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

International Equity Fund (Templeton) SF118

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

International Equity Fund (Templeton) SF118

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

International Equity Fund (Templeton) SF118

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

International Equity Fund (Templeton) SF118

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

International Equity Fund (Templeton) SF118

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.

International Equity Fund (Templeton) SF118

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

International Equity Fund (Templeton) SF118

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	1.68	3.99	14.06	4.62	19.19

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
GOVERNMENT BOND FUND S-167G

December 31, 2022

Independent Auditor's Report

To the Contractholders of Government Bond Fund S-167G (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Government Bond Fund S-167G

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the Government Bond Fund S-167G (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

Government Bond Fund S-167G

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

The Fund had no significant exposure to foreign currency as at December 31, 2022.

2021						
Currency	Investments	Cash, Short-term Deposits and Overdrafts		Total*	Impact on Net Assets Attributable to Contractholders	
United States Dollar	\$ —	\$ 13	\$ 13	\$ 13	\$ —	
Total	\$ —	\$ 13	\$ 13	\$ 13	\$ —	
As Percent of Net Assets Attributable to Contractholders				0.1%		

*includes both monetary and non-monetary instruments

D. Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund is exposed to the risk that the value of interest-bearing financial instruments will fluctuate due to changes in the prevailing levels of market interest rates. Due to the nature of short-term fixed income securities with a remaining term-to-maturity of less than one year, these investments are not generally exposed to a significant risk that their value will fluctuate in response to changes in the prevailing levels of market interest rates. The risk is professionally managed at the security and fund level by the Company.

The table below summarizes the Fund's exposure to interest rate risk by remaining term-to-maturity.

2022						
	1 year or less	Over 1 year to 5 years	Over 5 years to 10 years	Over 10 years	Total	
Bonds	\$ 760	\$ 11,013	\$ 2,401	\$ —	\$ 14,174	

2021						
	1 year or less	Over 1 year to 5 years	Over 5 years to 10 years	Over 10 years	Total	
Bonds	\$ 3,734	\$ 13,318	\$ 1,011	\$ —	\$ 18,063	

As at December 31, 2022, had prevailing interest rates increased or decreased by 1% assuming a parallel shift in the yield curve, with all other variables held constant, net assets attributable to contractholders would have decreased or increased, respectively, by approximately \$382 (\$402 at December 31, 2021) or approximately 2.5% (2.1% at December 31, 2021). The Fund's sensitivity to interest rate changes was estimated using the weighted average duration of the bond portfolio. In practice, the actual results may differ and the difference could be significant.

Government Bond Fund S-167G

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

E. Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund's greatest concentration of credit risk is in debt securities, such as bonds. The fair value of debt instruments includes consideration of the creditworthiness of the debt issuer. The carrying amount of debt instruments represents the maximum credit risk exposure as at December 31, 2022. The amount of credit risk to any one issuer may be determined from the information reported in the Schedule of Investment Portfolio. The Fund may invest in short-term fixed income securities issued or guaranteed primarily by the Government of Canada or any Canadian provincial government, obligations of Canadian chartered banks or trust companies, and commercial paper with approved credit ratings. The risk of default on these short-term fixed income securities is considered low. The Company monitors credit risk and credit ratings on a regular basis. All new counterparties to financial instruments are subject to an approval process.

There was no change in fair values of financial liabilities as a result of changes in credit risks during 2022 or 2021.

All transactions in listed securities are settled and paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker.

Credit ratings disclosed below are obtained from independent rating agencies including DBRS, Standard & Poor's, Moody's Investors Service and Fitch Ratings. The lowest rating provided by the agencies is used.

Debt securities by credit rating are as follows:

	2022		2021	
	Percent of Total Bonds (%)	Percent of Total Net Assets Attributable to Contractholders (%)	Percent of Total Bonds (%)	Percent of Total Net Assets Attributable to Contractholders (%)
AAA	57.8	53.7	62.3	58.8
AA	26.2	24.4	26.2	24.7
A	16.0	14.9	11.5	10.8
Total	100.0	93.0	100.0	94.3

F. Fair Value Classification

The following table presents information about the Fund's assets and liabilities measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

Government Bond Fund S-167G

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Government Bond Fund S-167G

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Government Bond Fund S-167G

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Government Bond Fund S-167G

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Bonds

Bonds are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

Government Bond Fund S-167G

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Derivatives

Derivatives are classified and measured at fair value. Derivatives are valued using market transactions and other market evidence whenever possible, including market based inputs to models, broker or dealer quotations or alternative pricing sources with reasonable levels of transparency. When models are used, the selection of a particular model to value a derivative depends on the contractual terms of, and specific risks inherent in, the instrument, as well as the availability of pricing information in the market. The Company generally uses similar models to value similar instruments. Valuation models require a variety of inputs, including contractual terms, market prices and rates, yield curves, credit curves, measures volatility, prepayment rates and correlations of such inputs.

f) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

g) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Interest income on debt securities - included in the change in fair value of such investments and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Government Bond Fund S-167G

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

h) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

i) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

j) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

k) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

Government Bond Fund S-167G

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

l) Income Allocation

Net gain (loss) on investments, which includes interest income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

m) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

n) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Government Bond Fund S-167G

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Government Bond Fund S-167G

Notes to the Financial Statements

(in Canadian \$ thousands)

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

7. DERIVATIVE FINANCIAL INSTRUMENTS

Derivative contracts, including forward currency, futures and equity swap contracts, are valued at the gain or loss that would arise as a result of closing the position at the reporting date. Options are recorded at fair value as at the reporting date. The Fund may use derivative contracts to hedge against losses caused by changes in securities prices, interest rates, exchange rates and/or other risks. The Fund may also use derivative contracts for non-hedging purposes in order to invest indirectly in financial markets or to gain exposure to other currencies, provided the use of such derivatives is consistent with the Fund's investment objectives and strategies. Foreign currency risk and exposure may be direct or indirect and can include all or a portion of the currency exposure of an existing investment or group of investments. Any such gain or loss on derivative contracts is recorded as part of net gain (loss) on investments.

As at the reporting date, the unrealized gain (loss) on derivative contracts is reflected on the Statement of Financial Position of the Fund.

The Fund manages derivative credit risk through collateral arrangements where required. The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are implemented by the Fund regarding the acceptability of types of collateral and the valuation parameters. The Fund Manager monitors the value of the collateral and requests additional collateral when needed.

Government Bond Fund S-167G

Notes to the Financial Statements

(in Canadian \$ thousands)

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	41.24	80.51	100.63	77.09	29.14

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY
HARBOUR CANADIAN FUND (CI) SF175

December 31, 2022

Independent Auditor's Report

To the Contractholders of Harbour Canadian Fund (CI) SF175 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Harbour Canadian Fund (CI) SF175

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Harbour Canadian Fund (CI) SF175 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Harbour Canadian Fund (CI) SF175

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Harbour Canadian Fund (CI) SF175

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Harbour Canadian Fund (CI) SF175

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Harbour Canadian Fund (CI) SF175

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Harbour Canadian Fund (CI) SF175

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Harbour Canadian Fund (CI) SF175

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Harbour Canadian Fund (CI) SF175

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Harbour Canadian Fund (CI) SF175

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.

Harbour Canadian Fund (CI) SF175

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Harbour Canadian Fund (CI) SF175

Supplemental Information (unaudited)

PSThe following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾

For the years ended December 31	2022	2021	2020	2019	2018
Generations/Mosaic	3.50	3.53	3.52	3.53	3.54
Generations I	3.12	3.31	3.30	3.31	3.32

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	103.43	15.27	9.30	2.42	1.84

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
TRUE NORTH FUND (FIDELITY) SF176

December 31, 2022

Independent Auditor's Report

To the Contractholders of True North Fund (Fidelity) SF176 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

True North Fund (Fidelity) SF176

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The True North Fund (Fidelity) SF176 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

True North Fund (Fidelity) SF176

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

True North Fund (Fidelity) SF176

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

True North Fund (Fidelity) SF176

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

True North Fund (Fidelity) SF176

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

True North Fund (Fidelity) SF176

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

True North Fund (Fidelity) SF176

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

True North Fund (Fidelity) SF176

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

True North Fund (Fidelity) SF176

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

True North Fund (Fidelity) SF176

Supplemental Information (unaudited)

Portfolio Turnover Rate	8.16	10.05	4.65	2.52	1.43

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY
CANADIAN EQUITY FUND (HOWSON TATTERSALL) SF177

December 31, 2022

Independent Auditor's Report

To the Contractholders of Canadian Equity Fund (Howson Tattersall) SF177 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Canadian Equity Fund (Howson Tattersall) SF177

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Canadian Equity Fund (Howson Tattersall) SF177 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Canadian Equity Fund (Howson Tattersall) SF177

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Canadian Equity Fund (Howson Tattersall) SF177

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Canadian Equity Fund (Howson Tattersall) SF177

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Canadian Equity Fund (Howson Tattersall) SF177

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Canadian Equity Fund (Howson Tattersall) SF177

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Canadian Equity Fund (Howson Tattersall) SF177

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Canadian Equity Fund (Howson Tattersall) SF177

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Canadian Equity Fund (Howson Tattersall) SF177

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

Canadian Equity Fund (Howson Tattersall) SF177

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Canadian Equity Fund (Howson Tattersall) SF177

Supplemental Information *(unaudited)*

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾

For the years ended December 31	2022	2021	2020	2019	2018
Generations/Mosaic	3.66	3.65	3.62	3.60	3.60

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	3.51	0.93	4.29	22.59	8.96

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY

U.S. VALUE FUND S-178LL

December 31, 2022

Independent Auditor's Report

To the Contractholders of U.S. Value Fund S-178LL (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

U.S. Value Fund S-178LL

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the U.S. Value Fund S-178LL (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

U.S. Value Fund S-178LL

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders	
United States Dollar	\$ 146,516	\$ 1,525	\$ 148,041	\$ 1,480	
Total	\$ 146,516	\$ 1,525	\$ 148,041	\$ 1,480	
As Percent of Net Assets Attributable to Contractholders				99.4%	1.0%

*includes both monetary and non-monetary instruments

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders	
United States Dollar	\$ 148,231	\$ 502	\$ 148,733	\$ 1,487	
Total	\$ 148,231	\$ 502	\$ 148,733	\$ 1,487	
As Percent of Net Assets Attributable to Contractholders				98.2%	1.0%

*includes both monetary and non-monetary instruments

D. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$1,465 (\$1,482 at December 31, 2021) or approximately 1.0% (1.0% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

U.S. Value Fund S-178LL

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

E. Fair Value Classification

The following table presents information about the Fund's assets measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

<u>Assets measured at fair value</u>	2022			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 146,516	\$ —	\$ —	\$ 146,516
Total assets measured at fair value	\$ 146,516	\$ —	\$ —	\$ 146,516

<u>Assets measured at fair value</u>	2021			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 148,231	\$ —	\$ —	\$ 148,231
Total assets measured at fair value	\$ 148,231	\$ —	\$ —	\$ 148,231

There were no significant transfers between Level 1 and Level 2 during 2022 or 2021.

U.S. Value Fund S-178LL

(in Canadian \$, except number of units outstanding)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance. Portfolio units are allocated to each category as described in note 3 and are not included on this page.

U.S. Value Fund S-178LL

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

U.S. Value Fund S-178LL

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

U.S. Value Fund S-178LL

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

U.S. Value Fund S-178LL

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) **Stocks**

Stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) **Cash, Short-term Deposits and Overdrafts**

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

U.S. Value Fund S-178LL

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

U.S. Value Fund S-178LL

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes dividend income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

U.S. Value Fund S-178LL

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

U.S. Value Fund S-178LL

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

U.S. Value Fund S-178LL

Notes to the Financial Statements

(in Canadian \$ thousands)

7. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	109.18	161.36	100.74	100.97	90.70

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
INTERNATIONAL EQUITY FUND (CI) SF182

December 31, 2022

Independent Auditor's Report

To the Contractholders of International Equity Fund (CI) SF182 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

International Equity Fund (CI) SF182

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The International Equity Fund (CI) SF182 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

International Equity Fund (CI) SF182

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

International Equity Fund (CI) SF182

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

International Equity Fund (CI) SF182

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

International Equity Fund (CI) SF182

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

International Equity Fund (CI) SF182

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

International Equity Fund (CI) SF182

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

International Equity Fund (CI) SF182

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

International Equity Fund (CI) SF182

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.

International Equity Fund (CI) SF182

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

International Equity Fund (CI) SF182

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾

For the years ended December 31	2022	2021	2020	2019	2018
Generations/Mosaic	3.71	3.70	3.71	3.70	3.70
Generations I	3.28	3.48	3.49	3.48	3.48
Generations II	3.64	3.81	3.82	3.81	3.81
Generations Core	3.04	3.26	3.28	3.26	3.28
75/75 guarantee policy	3.05	3.27	3.27	3.25	3.27
75/100 guarantee policy	3.30	3.48	3.49	3.48	3.49
100/100 guarantee policy	3.64	3.81	3.81	3.81	3.81
PS1 75/75 guarantee policy	2.63	2.81	2.81	2.80	2.81
PS1 75/100 guarantee policy	2.96	3.13	3.13	3.13	3.14
PS1 100/100 guarantee policy	—	—	—	—	3.56

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	104.10	10.86	23.86	4.55	10.23

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
GLOBAL FUTURE FUND S-183MF

December 31, 2022

Independent Auditor's Report

To the Contractholders of Global Future Fund S-183MF (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Global Future Fund S-183MF

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Global Future Fund S-183MF (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Global Future Fund S-183MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Global Future Fund S-183MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Global Future Fund S-183MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Global Future Fund S-183MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Global Future Fund S-183MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Global Future Fund S-183MF

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Global Future Fund S-183MF

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Global Future Fund S-183MF

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

Global Future Fund S-183MF

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Global Future Fund S-183MF

Portfolio Turnover Rate	91.83	83.72	4.10	8.16	6.99

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY
INTERNATIONAL PORTFOLIO FUND (FIDELITY) SF184

December 31, 2022

Independent Auditor's Report

To the Contractholders of International Portfolio Fund (Fidelity) SF184 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

International Portfolio Fund (Fidelity) SF184

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The International Portfolio Fund (Fidelity) SF184 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

International Portfolio Fund (Fidelity) SF184

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

International Portfolio Fund (Fidelity) SF184

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

International Portfolio Fund (Fidelity) SF184

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

International Portfolio Fund (Fidelity) SF184

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

International Portfolio Fund (Fidelity) SF184

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

International Portfolio Fund (Fidelity) SF184

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

International Portfolio Fund (Fidelity) SF184

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

International Portfolio Fund (Fidelity) SF184

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.

International Portfolio Fund (Fidelity) SF184

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

International Portfolio Fund (Fidelity) SF184

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	6.17	7.27	13.08	9.97	12.59

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
DIVIDEND FUND S-189LL

December 31, 2022

Independent Auditor's Report

To the Contractholders of Dividend Fund S-189LL (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Dividend Fund S-189LL

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the Dividend Fund S-189LL (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

Dividend Fund S-189LL

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders	
United States Dollar	\$ 16,547	\$ 214	\$ 16,761	\$ 168	
Total	\$ 16,547	\$ 214	\$ 16,761	\$ 168	
As Percent of Net Assets Attributable to Contractholders				5.4%	0.1%

*Includes both monetary and non-monetary instruments

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders	
United States Dollar	\$ 15,187	\$ 1,677	\$ 16,864	\$ 169	
Total	\$ 15,187	\$ 1,677	\$ 16,864	\$ 169	
As Percent of Net Assets Attributable to Contractholders				7.2%	0.1%

*Includes both monetary and non-monetary instruments

D. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$2,977 (\$2,299 at December 31, 2021) or approximately 1.0% (1.0% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

Dividend Fund S-189LL

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

E. Fair Value Classification

The following table presents information about the Fund's assets measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

<u>Assets measured at fair value</u>	2022			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 297,726	\$ —	\$ —	\$ 297,726
Total assets measured at fair value	\$ 297,726	\$ —	\$ —	\$ 297,726

<u>Assets measured at fair value</u>	2021			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 229,880	\$ —	\$ —	\$ 229,880
Total assets measured at fair value	\$ 229,880	\$ —	\$ —	\$ 229,880

There were no significant transfers between Level 1 and Level 2 during 2022 or 2021.

Dividend Fund S-189LL

(in Canadian \$, except number of units outstanding)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance. Portfolio units are allocated to each category as described in note 3 and are not included on this page.

Dividend Fund S-189LL

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Dividend Fund S-189LL

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Dividend Fund S-189LL

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) **Stocks**

Stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) **Cash, Short-term Deposits and Overdrafts**

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

Dividend Fund S-189LL

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

Dividend Fund S-189LL

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes dividend income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Dividend Fund S-189LL

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Dividend Fund S-189LL

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

Dividend Fund S-189LL

Notes to the Financial Statements

(in Canadian \$ thousands)

7. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	43.24	26.04	24.32	21.24	21.73

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY
HARBOUR GROWTH & INCOME FUND (CI) SF190

December 31, 2022

Independent Auditor's Report

To the Contractholders of Harbour Growth & Income Fund (CI) SF190 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Harbour Growth & Income Fund (CI) SF190

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Harbour Growth & Income Fund (CI) SF190 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Harbour Growth & Income Fund (CI) SF190

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Harbour Growth & Income Fund (CI) SF190

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Harbour Growth & Income Fund (CI) SF190

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Harbour Growth & Income Fund (CI) SF190

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Harbour Growth & Income Fund (CI) SF190

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Harbour Growth & Income Fund (CI) SF190

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Harbour Growth & Income Fund (CI) SF190

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Harbour Growth & Income Fund (CI) SF190

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- d) The Fund invests in assets or underlying funds managed by Canada Life Investment Management Ltd. All investment transactions with the corresponding underlying funds are at quoted market prices.

Harbour Growth & Income Fund (CI) SF190

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Harbour Growth & Income Fund (CI) SF190

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	4.16	93.84	0.86	1.74	1.60

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY
CANADIAN ASSET ALLOCATION FUND (FIDELITY) SF191

December 31, 2022

Independent Auditor's Report

To the Contractholders of Canadian Asset Allocation Fund (Fidelity) SF191 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Canadian Asset Allocation Fund (Fidelity) SF191

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Canadian Asset Allocation Fund (Fidelity) SF191 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Canadian Asset Allocation Fund (Fidelity) SF191

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Canadian Asset Allocation Fund (Fidelity) SF191

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Canadian Asset Allocation Fund (Fidelity) SF191

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Canadian Asset Allocation Fund (Fidelity) SF191

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Canadian Asset Allocation Fund (Fidelity) SF191

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Canadian Asset Allocation Fund (Fidelity) SF191

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Canadian Asset Allocation Fund (Fidelity) SF191

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Canadian Asset Allocation Fund (Fidelity) SF191

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.

Canadian Asset Allocation Fund (Fidelity) SF191

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Canadian Asset Allocation Fund (Fidelity) SF191

Supplemental Information *(unaudited)*

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾

For the years ended December 31	2022	2021	2020	2019	2018
Generations/Mosaic	3.18	3.19	3.21	3.19	3.20

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	0.38	1.72	0.40	0.35	0.67

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY
BALANCED FUND (GREYSTONE) SF208

December 31, 2022

Independent Auditor's Report

To the Contractholders of Balanced Fund (Greystone) SF208 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Balanced Fund (Greystone) SF208

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Balanced Fund (Greystone) SF208 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Balanced Fund (Greystone) SF208

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Balanced Fund (Greystone) SF208

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Balanced Fund (Greystone) SF208

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Balanced Fund (Greystone) SF208

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Balanced Fund (Greystone) SF208

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Balanced Fund (Greystone) SF208

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Balanced Fund (Greystone) SF208

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Balanced Fund (Greystone) SF208

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.

Balanced Fund (Greystone) SF208

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Balanced Fund (Greystone) SF208

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾

Portfolio Turnover Rate	7.33	5.13	3.95	9.31	18.76

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
AMERICAN GROWTH FUND (AGF) SF247

December 31, 2022

Independent Auditor's Report

To the Contractholders of American Growth Fund (AGF) SF247 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

American Growth Fund (AGF) SF247

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The American Growth Fund (AGF) SF247 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

American Growth Fund (AGF) SF247

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

American Growth Fund (AGF) SF247

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

American Growth Fund (AGF) SF247

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

American Growth Fund (AGF) SF247

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

American Growth Fund (AGF) SF247

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

American Growth Fund (AGF) SF247

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

American Growth Fund (AGF) SF247

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

American Growth Fund (AGF) SF247

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.

American Growth Fund (AGF) SF247

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Portfolio Turnover Rate	3.46	4.65	12.96	3.33	5.27

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY
CANADIAN GROWTH & INCOME FUND (AGF) SF249

December 31, 2022

Independent Auditor's Report

To the Contractholders of Canadian Growth & Income Fund (AGF) SF249 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Canadian Growth & Income Fund (AGF) SF249

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Canadian Growth & Income Fund (AGF) SF249 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Canadian Growth & Income Fund (AGF) SF249

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Canadian Growth & Income Fund (AGF) SF249

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Canadian Growth & Income Fund (AGF) SF249

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Canadian Growth & Income Fund (AGF) SF249

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Canadian Growth & Income Fund (AGF) SF249

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Canadian Growth & Income Fund (AGF) SF249

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Canadian Growth & Income Fund (AGF) SF249

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Canadian Growth & Income Fund (AGF) SF249

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Canada Life Investment Management Ltd. All investment transactions with the corresponding underlying funds are at quoted market prices.

Canadian Growth & Income Fund (AGF) SF249

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Canadian Growth & Income Fund (AGF) SF249

Supplemental Information *(unaudited)*

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	13.49	109.43	5.74	16.17	16.82

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
CANADIAN EQUITY FUND S-285LL

December 31, 2022

Independent Auditor's Report

To the Contractholders of Canadian Equity Fund S-285LL (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Canadian Equity Fund S-285LL

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the Canadian Equity Fund S-285LL (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

Canadian Equity Fund S-285LL

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ —	\$ 100	\$ 100	\$ 1
Total	\$ —	\$ 100	\$ 100	\$ 1
As Percent of Net Assets Attributable to Contractholders			—%	

**Includes both monetary and non-monetary instruments*

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ —	\$ 6	\$ 6	\$ —
Total	\$ —	\$ 6	\$ 6	\$ —
As Percent of Net Assets Attributable to Contractholders			—%	

**Includes both monetary and non-monetary instruments*

D. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$1,112 (\$1,030 at December 31, 2021) or approximately 1.0% (1.0% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

Canadian Equity Fund S-285LL

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

E. Fair Value Classification

The following table presents information about the Fund's assets measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

<u>Assets measured at fair value</u>	2022			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 111,240	\$ —	\$ —	\$ 111,240
Total assets measured at fair value	\$ 111,240	\$ —	\$ —	\$ 111,240

<u>Assets measured at fair value</u>	2021			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 103,028	\$ —	\$ —	\$ 103,028
Total assets measured at fair value	\$ 103,028	\$ —	\$ —	\$ 103,028

There were no significant transfers between Level 1 and Level 2 during 2022 or 2021.

Canadian Equity Fund S-285LL

(in Canadian \$, except number of units outstanding)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance. Portfolio units are allocated to each category as described in note 3 and are not included on this page.

Canadian Equity Fund S-285LL

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Canadian Equity Fund S-285LL

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Canadian Equity Fund S-285LL

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Canadian Equity Fund S-285LL

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) **Stocks**

Stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) **Cash, Short-term Deposits and Overdrafts**

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

Canadian Equity Fund S-285LL

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

Canadian Equity Fund S-285LL

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes dividend income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Canadian Equity Fund S-285LL

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Canadian Equity Fund S-285LL

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

Canadian Equity Fund S-285LL

Notes to the Financial Statements

(in Canadian \$ thousands)

7. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	7.89	47.94	7.08	20.30	42.82

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
U.S. GROWTH LEADERS FUND S-286MF

December 31, 2022

Independent Auditor's Report

To the Contractholders of U.S. Growth Leaders Fund S-286MF (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

U.S. Growth Leaders Fund S-286MF

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The U.S. Growth Leaders Fund S-286MF (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

U.S. Growth Leaders Fund S-286MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

U.S. Growth Leaders Fund S-286MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

U.S. Growth Leaders Fund S-286MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

U.S. Growth Leaders Fund S-286MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

U.S. Growth Leaders Fund S-286MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

U.S. Growth Leaders Fund S-286MF

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

U.S. Growth Leaders Fund S-286MF

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

U.S. Growth Leaders Fund S-286MF

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Canada Life Investment Management Ltd. All investment transactions with the corresponding underlying funds are at quoted market prices.

U.S. Growth Leaders Fund S-286MF

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

U.S. Growth Leaders Fund S-286MF

Portfolio Turnover Rate	5.86	64.74	9.37	7.97	3.95

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY
CANADIAN GROWTH FUND (AIM) SF289

December 31, 2022

Independent Auditor's Report

To the Contractholders of Canadian Growth Fund (AIM) SF289 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Canadian Growth Fund (AIM) SF289

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Canadian Growth Fund (AIM) SF289 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Canadian Growth Fund (AIM) SF289

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Canadian Growth Fund (AIM) SF289

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Canadian Growth Fund (AIM) SF289

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Canadian Growth Fund (AIM) SF289

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Canadian Growth Fund (AIM) SF289

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Canadian Growth Fund (AIM) SF289

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Canadian Growth Fund (AIM) SF289

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Canadian Growth Fund (AIM) SF289

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.

Canadian Growth Fund (AIM) SF289

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Canadian Growth Fund (AIM) SF289

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾

For the years ended December 31	2022	2021	2020	2019	2018
Generations/Mosaic	3.66	3.66	3.66	3.66	3.68

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	1.58	1.23	0.96	3.51	9.15

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY
MID CAP CANADA FUND S-346G

December 31, 2022

Independent Auditor's Report

To the Contractholders of Mid Cap Canada Fund S-346G (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Mid Cap Canada Fund S-346G

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the Mid Cap Canada Fund S-346G (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

Mid Cap Canada Fund S-346G

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

The Fund had no significant exposure to foreign currency as at December 31, 2022.

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ 2,809	\$ 29	\$ 2,838	\$ 28
Total	\$ 2,809	\$ 29	\$ 2,838	\$ 28
As Percent of Net Assets Attributable to Contractholders			2.3%	

*Includes both monetary and non-monetary instruments

D. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$1,111 (\$1,206 at December 31, 2021) or approximately 1.0% (1.0% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

Mid Cap Canada Fund S-346G

(in Canadian \$ thousands)

E. Fair Value Classification

The following table presents information about the Fund's assets measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

<u>Assets measured at fair value</u>	2022			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 111,112	\$ —	\$ —	\$ 111,112
Total assets measured at fair value	\$ 111,112	\$ —	\$ —	\$ 111,112

<u>Assets measured at fair value</u>	2021			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 120,567	\$ —	\$ —	\$ 120,567
Total assets measured at fair value	\$ 120,567	\$ —	\$ —	\$ 120,567

There were no significant transfers between Level 1 and Level 2 during 2022 or 2021.

Mid Cap Canada Fund S-346G

(in Canadian \$, except number of units outstanding)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance. Portfolio units are allocated to each category as described in note 3 and are not included on this page.

Mid Cap Canada Fund S-346G

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Mid Cap Canada Fund S-346G

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Mid Cap Canada Fund S-346G

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Mid Cap Canada Fund S-346G

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) **Stocks**

Stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) **Cash, Short-term Deposits and Overdrafts**

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

Mid Cap Canada Fund S-346G

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

Mid Cap Canada Fund S-346G

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes dividend income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Mid Cap Canada Fund S-346G

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Mid Cap Canada Fund S-346G

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

7. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	37.48	31.83	35.74	32.02	35.00

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

THE CANADA LIFE ASSURANCE COMPANY
CANADIAN EQUITY VALUE FUND S-347C

December 31, 2022

Independent Auditor's Report

To the Contractholders of Canadian Equity Value Fund S-347C (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Canadian Equity Value Fund S-347C

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the Canadian Equity Value Fund S-347C (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

Canadian Equity Value Fund S-347C

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ —	\$ 3	\$ 3	\$ —
Total	\$ —	\$ 3	\$ 3	\$ —
As Percent of Net Assets Attributable to Contractholders				—%

*Includes both monetary and non-monetary instruments

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ —	\$ 2	\$ 2	\$ —
Total	\$ —	\$ 2	\$ 2	\$ —
As Percent of Net Assets Attributable to Contractholders				—%

*Includes both monetary and non-monetary instruments

D. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$97 (\$279 at December 31, 2021) or approximately 1.0% (1.0% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

Canadian Equity Value Fund S-347C

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

E. Fair Value Classification

The following table presents information about the Fund's assets measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

<u>Assets measured at fair value</u>	2022			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 9,683	\$ —	\$ —	\$ 9,683
Total assets measured at fair value	\$ 9,683	\$ —	\$ —	\$ 9,683

<u>Assets measured at fair value</u>	2021			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Stocks	\$ 27,948	\$ —	\$ —	\$ 27,948
Total assets measured at fair value	\$ 27,948	\$ —	\$ —	\$ 27,948

There were no significant transfers between Level 1 and Level 2 during 2022 or 2021.

Canadian Equity Value Fund S-347C

(in Canadian \$, except number of units outstanding)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance. Portfolio units are allocated to each category as described in note 3 and are not included on this page.

Canadian Equity Value Fund S-347C

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Canadian Equity Value Fund S-347C

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Canadian Equity Value Fund S-347C

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Canadian Equity Value Fund S-347C

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) **Stocks**

Stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) **Cash, Short-term Deposits and Overdrafts**

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

Canadian Equity Value Fund S-347C

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

Canadian Equity Value Fund S-347C

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes dividend income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Canadian Equity Value Fund S-347C

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Canadian Equity Value Fund S-347C

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

Canadian Equity Value Fund S-347C

Notes to the Financial Statements

7. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

Canadian Equity Value Fund S-347C

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Management Expense Ratio (%) ⁽¹⁾

For the years ended December 31	2022	2021	2020	2019	2018
Generations/Mosaic	3.02	3.02	3.02	3.02	3.03
Generations I	2.85	2.85	2.85	2.88	2.92
Generations II	3.22	3.24	3.21	3.23	3.25
Generations Core	2.69	2.68	2.68	2.69	2.75
75/75 guarantee policy	2.69	2.68	2.68	2.68	2.74
75/100 guarantee policy	2.86	2.86	2.85	2.88	2.91
100/100 guarantee policy	3.22	3.22	3.24	3.22	3.25
PS1 75/75 guarantee policy	2.22	2.22	2.22	2.25	2.29
PS1 75/100 guarantee policy	2.44	2.44	2.44	2.47	2.51
PS1 100/100 guarantee policy	—	—	—	2.80	—

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	113.22	31.96	50.20	20.42	57.49

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
CANADIAN RESOURCE FUND S-348MF

December 31, 2022

Independent Auditor's Report

To the Contractholders of Canadian Resource Fund S-348MF (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Canadian Resource Fund S-348MF

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Canadian Resource Fund S-348MF (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Canadian Resource Fund S-348MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Canadian Resource Fund S-348MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Canadian Resource Fund S-348MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Canadian Resource Fund S-348MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Canadian Resource Fund S-348MF

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Canadian Resource Fund S-348MF

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying mutual funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Distributions of income from the underlying investment funds are shown as net gain (loss) on investments on the Statement of Comprehensive Income.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Canadian Resource Fund S-348MF

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Canadian Resource Fund S-348MF

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Canada Life Investment Management Ltd. All investment transactions with the corresponding underlying funds are at quoted market prices.

Canadian Resource Fund S-348MF

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 1 classification.

Canadian Resource Fund S-348MF

Supplemental Information (unaudited)

The following tables show selected key financial information about the Fund and are intended to help users of the financial statements understand the Fund's financial performance.

Portfolio Turnover Rate	22.86	110.65	15.75	4.07	7.84

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The Company has waived a portion of the fees for the Preferred Series 1 and Preferred Partner Series guarantee policies. There is no obligation for the Company to continue waiving these fees and it may cease to do so at any time without notice.

(3) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

REAL ESTATE FUND (GWLRA) SF353

December 31, 2022

Independent Auditor's Report

To the Contractholders of Real Estate Fund (GWLRA) SF353 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Real Estate Fund (GWLRA) SF353

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Real Estate Fund (GWLRA) SF353 (the Fund) is offered by The Canada Life Assurance Company (Canada Life or the Company).

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Real Estate Fund (GWLRA) SF353

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Real Estate Fund (GWLRA) SF353

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Real Estate Fund (GWLRA) SF353

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in note 9 on Financial Instrument Risk Management.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Investment Fund Units

Investment fund units are recorded at fair value, which is the closing net asset value (NAV) per unit of the underlying fund.

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

e) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

f) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

Real Estate Fund (GWLRA) SF353

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

g) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

h) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

Real Estate Fund (GWLRA) SF353

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Amounts Due to/from Outside Parties

Due to/from outside parties mainly consists of net operating and commodity tax balances due to outside parties related to the ongoing operations of the Fund's Real Estate investments.

Amounts due to/from outside parties are held at fair value which approximates their cost.

j) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

k) Income Allocation

Net gain (loss) on investments, which includes realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the NAV per unit.

l) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

Real Estate Fund (GWLRA) SF353

Notes to the Financial Statements

(in Canadian \$ thousands)

3. INVESTMENT FUND UNITS

Investment fund units of the Fund invest solely in underlying segregated funds.

As the Fund's assets are invested in underlying investment funds, the Fund indirectly pays management fees and operating expenses of the underlying funds. All such charges are included in the management expense ratio of the segregated funds.

Investment activity of the underlying fund indirectly exposes the Fund to financial risk. See note 9 on Financial Instrument Risk Management.

Investments in unconsolidated structured entities

The Company has determined that the Fund meets the definition of an investment entity and as such, accounts for its holdings in unlisted open-ended investment funds at FVTPL. The Company has concluded that the underlying funds in which the Fund invests, but do not consolidate, meet the definition of structured entities because: (i) the voting rights in the underlying funds are not dominant rights in deciding who controls them; (ii) each underlying fund's activities are restricted by its prospectus; and (iii) the underlying funds have narrow and well-defined objectives to provide investment opportunities to investors.

4. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Real Estate Fund (GWLRA) SF353

Notes to the Financial Statements

(in Canadian \$ thousands)

4. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

Portfolio units are those units owned by the Asset Allocation Funds. Each Portfolio fund is represented by a separate category.

The categories of units, and the various levels within each, are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

5. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

6. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Real Estate Fund (GWLRA) SF353

Notes to the Financial Statements

(in Canadian \$ thousands)

7. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland
GWL Realty Advisors Inc.	Wholly-owned subsidiary of the Company	Canada

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) As at December 31, 2022, the Company held an investment in the Fund with a value of \$3,076 (\$2,957 at December 31, 2021).
- d) The Fund invests in assets or underlying funds managed by GWL Realty Advisors Inc. All investment transactions with the corresponding underlying funds are at quoted market prices.

Real Estate Fund (GWLRA) SF353

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT

a) Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, the Fund Manager maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations. Financial statements for the underlying funds, which include discussions about their respective risk exposure, are available upon request.

b) Liquidity Risk

Liquidity risk arises when a Fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units. As the Fund primarily invests all of its net assets in the underlying funds, liquidity risk is mitigated by the underlying funds' ability to meet the obligation to fund daily cash redemptions of their redeemable units/shares. In addition, the underlying funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The Fund's investments in all underlying funds are denominated in Canadian dollars. However, the Fund is indirectly exposed to currency risk to the extent that the investments of the underlying funds are denominated or traded in a foreign currency.

d) Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund does not directly hold any interest-bearing financial instruments. The Fund is indirectly exposed to the risk that the value of interest-bearing financial instruments held by the underlying funds will fluctuate due to changes in the prevailing levels of market interest rates.

e) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund has no direct exposure to credit risk. The greatest indirect concentration of credit risk is in debt securities, such as bonds, held by underlying funds. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

f) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. For the instruments held by the Fund, maximum risk of loss is equivalent to their fair value. The Fund Manager moderates this risk through a careful selection of underlying funds within the parameters of the investment strategy.

Real Estate Fund (GWLRA) SF353

Notes to the Financial Statements

(in Canadian \$ thousands)

9. FINANCIAL INSTRUMENT RISK MANAGEMENT (continued)

g) Fair Value Classification

Investment Fund Units are recorded at fair value, which is the closing NAV per unit of the underlying fund. This valuation is considered to be a Level 2 classification. All Investment Fund Units held by the Fund are classified as Level 2. The Fund's investment in the real estate fund: "Canadian Real Estate Investment Fund No. 1", was classified as Level 3 due to transaction restrictions at December 31, 2020.

The following table presents additional information about the Fund's assets measured at fair value on a recurring basis and classified as Level 3:

	2022	2021
Balance, beginning of year	\$ —	\$ 442,014
Total gain (loss) included in net assets from operations attributable to contractholders	—	12,705
Purchases	—	18,728
Sales	—	(71,293)
Settlements	—	—
Transfers into Level 3	—	—
Transfers out of Level 3	—	(402,154)
Balance, end of year	\$ —	\$ —
Total gain (loss) for the year included in net gain (loss) on investments for Level 3 assets held at the end of year	\$ —	\$ —

On January 11, 2021, Canada Life lifted the temporary suspension on contributions to and transfers into its Canadian real estate investment funds, and on April 19, 2021, the temporary suspension on redemptions and transfers out was fully lifted, as confidence over the valuation of the underlying properties returned as a result of increased market activity. As a result of the lifting of these temporary suspensions, the Fund's investment in the real estate fund with a fair value of \$402,154 was transferred on April 19, 2021 from Level 3 to Level 2.

Real Estate Fund (GWLRA) SF353

Supplemental Information (unaudited)

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	4.73	16.75	5.84	7.90	1.08

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

Financial Statements of

THE CANADA LIFE ASSURANCE COMPANY
INCOME OPPORTUNITY FUND (LLIM) SF354

December 31, 2022

Independent Auditor's Report

To the Contractholders of Income Opportunity Fund (LLIM) SF354 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Income Opportunity Fund (LLIM) SF354

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

Introduction

The objective of the Income Opportunity Fund (LLIM) SF354 (the Fund) in managing risk is the creation and protection of contractholder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund can be exposed to liquidity risk, market risk (which includes currency risk, interest rate risk and other price risk) and credit risk arising from the financial instruments it holds.

A. Risk Management

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at December 31, 2022, and groups the securities by asset type, geographic region and/or market segment. The following sections describe the significant risks that are relevant to the Fund.

To assist with managing risk, The Canada Life Assurance Company (Canada Life or the Company) maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and other regulations.

B. Liquidity Risk

Liquidity risk arises when a fund encounters difficulty in meeting its financial obligations as they come due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable units by contractholders. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity to meet the obligation to fund daily cash redemptions of their redeemable units.

Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a fund to sell such securities quickly.

In accordance with the Fund's policy, the Company monitors the Fund's liquidity positions on a regular basis.

C. Currency Risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The classifications used on the Schedule of Investment Portfolio for the financial instruments are based on the country of issue.

Income Opportunity Fund (LLIM) SF354

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

C. Currency Risk (continued)

The table below indicates the foreign currencies to which the Fund had significant exposure as at December 31, 2022 in Canadian dollar terms, including the underlying principal amount of forward currency contracts, if any. The table also illustrates the potential impact to the Fund's net assets attributable to contractholders, all other variables held constant, as a result of a 1% change in these currencies relative to the Canadian dollar. In practice, the actual results may differ from this sensitivity analysis and the difference could be significant.

2022

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ 9,721	\$ 779	\$ 10,500	\$ 105
Euro	1,414	(13)	1,401	14
United Kingdom Pound Sterling	722	—	722	7
Other Currencies	1,447	7	1,454	15
Total	\$ 13,304	\$ 773	\$ 14,077	\$ 141
As Percent of Net Assets Attributable to Contractholders			15.0%	0.2%

*Includes both monetary and non-monetary instruments

2021

Currency	Investments	Cash, Short-term Deposits and Overdrafts	Total*	Impact on Net Assets Attributable to Contractholders
United States Dollar	\$ 51	\$ 52	\$ 103	\$ 1
Total	\$ 51	\$ 52	\$ 103	\$ 1
As Percent of Net Assets Attributable to Contractholders			0.2%	

*Includes both monetary and non-monetary instruments

D. Interest Rate Risk

Interest rate risk arises on interest-bearing financial instruments such as bonds. The Fund is exposed to the risk that the value of interest-bearing financial instruments will fluctuate due to changes in the prevailing levels of market interest rates. Due to the nature of short-term fixed income securities with a remaining term-to-maturity of less than one year, these investments are not generally exposed to a significant risk that their value will fluctuate in response to changes in the prevailing levels of market interest rates. The risk is professionally managed at the security and fund level by the Company.

The table below summarizes the Fund's exposure to interest rate risk by remaining term-to-maturity.

2022

	1 year or less	Over 1 year to 5 years	Over 5 years to 10 years	Over 10 years	Total
Bonds	\$ 421	\$ 18,295	\$ 22,133	\$ 15,550	\$ 56,399

2021

	1 year or less	Over 1 year to 5 years	Over 5 years to 10 years	Over 10 years	Total
Bonds	\$ 852	\$ 9,247	\$ 6,981	\$ 9,666	\$ 26,746

Income Opportunity Fund (LLIM) SF354

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

D. Interest Rate Risk (continued)

As at December 31, 2022, had prevailing interest rates increased or decreased by 1% assuming a parallel shift in the yield curve, with all other variables held constant, net assets attributable to contractholders would have decreased or increased, respectively, by approximately \$4,263 (\$1,966 at December 31, 2021) or approximately 4.5% (4.6% at December 31, 2021). The Fund's sensitivity to interest rate changes was estimated using the weighted average duration of the bond portfolio. In practice, the actual results may differ and the difference could be significant.

E. Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund's greatest concentration of credit risk is in debt securities, such as bonds. The fair value of debt instruments includes consideration of the creditworthiness of the debt issuer. The carrying amount of debt instruments represents the maximum credit risk exposure as at December 31, 2022. The amount of credit risk to any one issuer may be determined from the information reported in the Schedule of Investment Portfolio. The Fund may invest in short-term fixed income securities issued or guaranteed primarily by the Government of Canada or any Canadian provincial government, obligations of Canadian chartered banks or trust companies, and commercial paper with approved credit ratings. The risk of default on these short-term fixed income securities is considered low. The Company monitors credit risk and credit ratings on a regular basis. All new counterparties to financial instruments are subject to an approval process.

There was no change in fair values of financial liabilities as a result of changes in credit risks during 2022 or 2021.

All transactions in listed securities are settled and paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker.

Credit ratings disclosed below are obtained from independent rating agencies including DBRS, Standard & Poor's, Moody's Investors Service and Fitch Ratings. The lowest rating provided by the agencies is used.

Debt securities by credit rating are as follows:

	2022		2021	
	Percent of Total Bonds (%)	Percent of Total Net Assets Attributable to Contractholders (%)	Percent of Total Bonds (%)	Percent of Total Net Assets Attributable to Contractholders (%)
AAA	6.0	3.6	15.4	9.7
AA	35.8	21.5	27.6	17.5
A	32.4	19.5	25.9	16.4
BBB	25.1	15.1	30.8	19.5
BB and lower	0.7	0.4	0.1	0.1
NR *	—	—	0.2	0.1
Total	100.0	60.1	100.0	63.3

*Bonds disclosed as NR are mortgage backed securities or privately placed bonds or bonds that have not been rated by a rating agency.

Income Opportunity Fund (LLIM) SF354

Notes to the Schedule of Investment Portfolio

(in Canadian \$ thousands)

F. Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate, currency or credit risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Fund Manager moderates this risk through careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

For the Fund, the most significant exposure to other price risk arises from its investment in equity securities. As at December 31, 2022, had the prices on the respective stock exchanges for these securities increased or decreased by 1%, with all other variables held constant, assets would have increased (or decreased) by approximately \$271 (\$144 at December 31, 2021) or approximately 0.3% (0.3% at December 31, 2021) of total net assets attributable to contractholders. In practice, the actual results may differ and the difference could be significant.

G. Fair Value Classification

The following table presents information about the Fund's assets and liabilities measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Fund to determine such fair value:

	2022			
	Assets and Liabilities Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Assets measured at fair value				
Bonds	\$ —	\$ 56,399	\$ —	\$ 56,399
Stocks	27,101	—	—	27,101
Derivatives	25	—	—	25
Total assets measured at fair value	\$ 27,126	\$ 56,399	\$ —	\$ 83,525
Liabilities measured at fair value				
Derivatives ⁽¹⁾	\$ —	\$ —	\$ —	\$ —
Net assets attributable to contractholders measured at fair value	\$ 27,126	\$ 56,399	\$ —	\$ 83,525

⁽¹⁾ Excludes collateral pledged to counterparties of \$251.

	2021			
	Assets and Liabilities Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Assets measured at fair value				
Bonds	\$ —	\$ 26,746	\$ —	\$ 26,746
Stocks	14,430	—	—	14,430
Derivatives	—	—	—	—
Total assets measured at fair value	\$ 14,430	\$ 26,746	\$ —	\$ 41,176
Liabilities measured at fair value				
Derivatives ⁽¹⁾	\$ 4	\$ —	\$ —	\$ 4
Net assets attributable to contractholders measured at fair value	\$ 14,426	\$ 26,746	\$ —	\$ 41,172

⁽¹⁾ Excludes collateral pledged to counterparties of \$91.

There were no significant transfers between Level 1 and Level 2 during 2022 or 2021.

Income Opportunity Fund (LLIM) SF354

(in Canadian \$, except number of units outstanding)

Income Opportunity Fund (LLIM) SF354

Notes to the Financial Statements

(in Canadian \$ thousands)

1. THE FUND

The Fund is offered by The Canada Life Assurance Company.

The Company is the sole issuer of the insurance contracts providing for investment in the Fund. The assets of the Fund are owned by the Company and are segregated from the other assets of the Company. The Fund is not a separate legal entity. The Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for the contractholders, who are the ultimate beneficiaries of the Fund. The Fund's investment activities are overseen by the Company.

The Company is a wholly-owned subsidiary of Great-West Lifeco Inc. (Lifeco), a publicly listed company incorporated and domiciled in Canada. Lifeco is a member of the Power Corporation of Canada (Power Corporation) group of companies and is a subsidiary of Power Corporation.

The Fund's registered office is at 100 Osborne Street North, Winnipeg, Manitoba, Canada, R3C 1V3.

The financial statements of the Fund as at and for the year ended December 31, 2022 were approved for issue by the Company on March 16, 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fund have been prepared in compliance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Uniform accounting policies were applied in the preparation of the Fund's financial statements. These accounting policies are based on the IFRS and IFRS Interpretations Committee (IFRIC) interpretations issued and effective at December 31, 2022. The financial statements of the Fund have also been prepared in accordance with the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

a) Use of Estimates, Significant Accounting Judgments and Assumptions

The preparation of the Fund's financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the reported amount of assets and liabilities at the reporting date and the reported amount of revenues and expenses during the reporting period. The valuation of investments is the most significant component of the financial statements subject to estimates. Although some variability is inherent in these judgments and assumptions, the Fund believes that the amounts recorded are reasonable.

When the fair values of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this information is not available, estimation is required in establishing fair values. The estimates include consideration of liquidity and model inputs related to items such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of Financial Position and the level where the financial instruments are disclosed in the fair value hierarchy. Actual results could differ from these estimates.

Income Opportunity Fund (LLIM) SF354

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9, *Financial Instruments*. The Company has assessed the Fund's business model, the manner in which all financial instruments are managed and the requirements of other accounting standards, and has concluded that fair value through profit and loss (FVTPL) provides the most appropriate measurement and presentation of the Fund's financial instruments.

Entities that meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* are required to measure their subsidiaries at FVTPL rather than consolidate them. The criteria that define an investment entity are as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services;
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

In the judgment of management, the Fund meets the definition of an investment entity. This conclusion will be reassessed on a periodic basis, if any changes in criteria or circumstances exist.

Impact of COVID-19 on Estimates, Significant Accounting Judgments and Assumptions

The COVID-19 pandemic has continued to result in uncertainty in global financial markets and the economic environment in which the Fund operates. The duration and impact of the COVID-19 pandemic continues to be unknown at this time, as is the efficacy of the associated fiscal and monetary interventions by governments and central banks.

The results of the Fund reflect management's judgments regarding the impact of prevailing market conditions related to global credit, equities and foreign exchange. Given the uncertainty surrounding the current environment, the actual financial results could differ from the estimates made in preparation of these financial statements.

Income Opportunity Fund (LLIM) SF354

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Fair Value Measurement and Classification

The fair value of financial assets and liabilities have been categorized based upon the following fair value hierarchy:

Level 1: Fair value measurements utilize observable, quoted prices (unadjusted) in active markets for identical assets or liabilities that the Fund has the ability to access. Assets and liabilities utilizing Level 1 inputs include equity securities that are actively traded on an exchange, exchange-traded futures and underlying mutual funds which have available prices in an active market with no redemption restrictions.

Level 2: Fair value measurements utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The fair values for some Level 2 securities were obtained from a pricing service. The pricing service inputs include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, offers and reference data. Level 2 assets and liabilities include those priced using a matrix which is based on credit quality and average life, and generally include some private bonds and equities, most investment-grade and high-yield corporate bonds, most asset-backed securities, most over-the-counter derivatives, and mortgage loans.

Level 3: Fair value measurements utilize one or more significant inputs that are not based on observable market inputs and include situations where there is little, if any, market activity for the asset or liability. The values of the majority of Level 3 securities were obtained from single broker quotes, internal pricing models, or external appraisers. Assets and liabilities utilizing Level 3 inputs generally include certain bonds and private investments.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair values of financial instruments are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3. Additional disclosures relating to transfers between levels and a reconciliation of beginning and ending balances in Level 3 are included in the notes to the Schedule of Investment Portfolio, where applicable.

Income Opportunity Fund (LLIM) SF354

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 3 financial instruments are reviewed on a periodic basis by the Company. The Company considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognized as standard within the industry. The Company estimates the fair value of bonds not traded in active markets by referring to actively traded securities with similar attributes, dealer quotations, matrix pricing methodology, discounted cash flow analyses and/or internal valuation models. This methodology considers such factors as the issuer's industry, the security's rating, term, coupon rate and position in the capital structure of the issuer, as well as, yield curves, credit curves, prepayment rates and other relevant factors. For bonds that are not traded in active markets, valuations are adjusted to reflect illiquidity, and such adjustments generally are based on available market evidence. In the absence of such evidence, management's best estimate is used.

Transfers into Level 3 are due primarily to decreased observability of inputs in valuation methodologies. Transfers out of Level 3 are due primarily to increased observability of inputs in valuation methodologies as evidenced by corroboration of market prices with multiple pricing vendors.

The Fund's fair value hierarchy classification of its assets and liabilities is included in fair value measurements in the notes to the Schedule of Investment Portfolio.

Upon initial recognition, the Fund classifies and measures all financial assets and financial liabilities in the Statement of Financial Position at FVTPL. The financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. The Fund's policy is not to apply hedge accounting.

c) Bonds and Stocks

Bonds and stocks are recorded at fair value determined with reference to closing quoted market prices, where the last traded price falls within the day's bid-ask spread, primarily provided by third party independent pricing sources. Fair values are determined on the basis of the closing price for a security on the recognized exchange on which it is principally traded at each reporting date. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point when the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of unlisted securities is established using quotations determined by a major dealer in a particular security. Should the quoted value for a security, in the opinion of the Fund Manager, be inaccurate, unreliable, or not readily available, the value of the security is estimated using valuation techniques. Valuation techniques include the market approach (using recent arm's-length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

d) Cash, Short-term Deposits and Overdrafts

Cash, short-term deposits and overdrafts are comprised of cash on deposit, short-term deposits and overdrafts with terms to maturity of less than three months at acquisition. Due to the nature of these assets being highly liquid and having short terms to maturity, these items are reported at fair value, which approximates their cost.

Income Opportunity Fund (LLIM) SF354

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Derivatives

Derivatives are classified and measured at fair value. Derivatives are valued using market transactions and other market evidence whenever possible, including market based inputs to models, broker or dealer quotations or alternative pricing sources with reasonable levels of transparency. When models are used, the selection of a particular model to value a derivative depends on the contractual terms of, and specific risks inherent in, the instrument, as well as the availability of pricing information in the market. The Company generally uses similar models to value similar instruments. Valuation models require a variety of inputs, including contractual terms, market prices and rates, yield curves, credit curves, measures volatility, prepayment rates and correlations of such inputs.

f) Classification of Units Issued by the Fund

The units of the Fund are classified as financial liabilities under IFRS as the Fund is contractually obligated to repurchase or redeem them for cash or another financial asset when the units are disposed. The net assets attributable to contractholders are classified as FVTPL.

g) Recognition of Investments and Income

Financial investment purchases and sales are recorded when the Fund becomes a party to the contractual provisions of the instrument on a trade date basis.

Financial assets and financial liabilities at FVTPL are recorded in the Statement of Financial Position at fair value.

The accrual basis of accounting is used to record all types of investment income earned and expenses incurred by the Fund.

The following are included in net gain (loss) on investments on the Statement of Comprehensive Income:

Realized gains (losses) on investments - recorded upon the sale or maturity of an asset and determined using the average cost basis.

Unrealized gains (losses) on investments - calculated as the in-year change in fair value of the investment and determined using the average cost basis.

Interest income on debt securities - included in the change in fair value of such investments and recorded on the accrual basis.

Dividend income - accrued as of the ex-dividend date and recorded on the accrual basis.

After initial measurement, the Fund classifies and measures financial instruments as FVTPL at the reporting date. Changes in the fair value are recorded in net gain (loss) on investments in the Statement of Comprehensive Income.

Income Opportunity Fund (LLIM) SF354

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Foreign currency

The financial statements have been presented in Canadian dollars, which is the currency of the primary economic environment in which the Fund is domiciled and is the Fund's functional currency.

Foreign currency translations are calculated using the exchange rate in effect when the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gains or losses generated by foreign exchange are recorded in the Statement of Comprehensive Income within net gain (loss) on investments.

Miscellaneous income (loss)

Miscellaneous income (loss) generally includes the changes in foreign exchange rates between trade and settlement dates, foreign exchange rates on bank balances, securities lending income, derivative income, and management fee rebates.

h) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

i) Amounts Due to/from Broker

Amounts due to brokers are payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Amounts due from brokers include margin accounts and receivables for securities sold that have been contracted for, but not yet delivered, on the reporting date.

Amounts due to/from brokers are held at fair value which approximates their cost.

Amounts due to/from brokers are settled within a few business days of the reporting date. All securities are purchased and sold in regular way transactions.

j) Amounts Due to/from Outside Parties

Amounts due to outside parties are payables to parties other than related parties of the Fund.

Amounts due from outside parties are receivables due from parties other than related parties of the Fund.

Amounts due to/from outside parties are held at fair value which approximates their cost.

k) Other Expenses

Other expenses consist primarily of securities handling charges. All these expenses are paid to third parties. The accrual basis of accounting is used to record all types of expenses incurred by the Fund.

Income Opportunity Fund (LLIM) SF354

Notes to the Financial Statements

(in Canadian \$ thousands)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

l) Income Allocation

Net gain (loss) on investments, which includes dividend income, interest income, realized gains and losses and unrealized gains and losses, accrues to each contractholder through the increase (decrease) of the net asset value (NAV) per unit.

m) Issue and Redemption of Units

Units attributable to contractholders are redeemable at the contractholders' option at prices based on the Fund's NAV per unit at the time of redemption and are therefore classified as financial liabilities.

Units are issued and redeemed at their NAV per unit established as noted in the information folder of the Fund.

The Fund's obligation for net assets attributable to contractholders is presented at the redemption amount at the reporting date. The deposits and withdrawals of contractholders are adjusted for inter-fund transfers.

n) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Fund are charged to expenses in the year.

3. DESCRIPTION OF UNITS

The capital of the Fund is divided into categories of units.

Individual units are available to individuals for investment in:

- Registered Retirement Savings Plans,
- Registered Savings Plans,
- Tax Free Savings Accounts, and
- Non-Registered Savings Plans through the purchase of an Individual Savings Contract or a Retirement Income Fund.

Individual units are available under these different options:

- Emperor,
- Flex,
- Generations/Mosaic,
- Generations I,
- Generations II,
- Generations Core,
- Prestige/Prestige Plus, and
- Private Collections.

Income Opportunity Fund (LLIM) SF354

Notes to the Financial Statements

(in Canadian \$ thousands)

3. DESCRIPTION OF UNITS (continued)

In addition to the Individual units, units are available for:

- Option S1R 75/75 guarantee policy,
- Option S1HB Preferred Series 1 (PS1) 75/75 guarantee policy,
- Option S1HU Preferred Series 2 (PS2) 75/75 guarantee policy,
- Option S1RF Partner Series (PS) 75/75 guarantee policy,
- Option S1HF Preferred Partner Series (PPS) 75/75 guarantee policy,
- Option S2R 75/100 guarantee policy,
- Option S2HB PS1 75/100 guarantee policy,
- Option S2HU PS2 75/100 guarantee policy,
- Option S2RF PS 75/100 guarantee policy,
- Option S2HF PPS 75/100 guarantee policy,
- Option S3R 100/100 guarantee policy,
- Option S3HB PS1 100/100 guarantee policy,
- Option S3HU PS2 100/100 guarantee policy,
- Option S3RF PS 100/100 guarantee policy, and
- Option S3HF PPS 100/100 guarantee policy.

The categories of units are accounted for separately and any increases or decreases in net assets attributable to contractholders during the year are allocated proportionately to each category.

4. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable units beyond those included in the Fund's offering document. Units are redeemed at the NAV per unit of a Fund on the redemption date. The capital received by a Fund is utilized within the respective investment mandate of the Fund.

5. INCOME TAXES

The Fund is deemed to be a trust under the provisions of the *Income Tax Act* (Canada). Income of a segregated fund is deemed to be payable to the contractholders and therefore the Fund will not have taxable income. In addition, capital gains and losses are deemed to be those of the contractholders and not of the Fund. Realized gains or losses may be reduced by the amount of gains or losses realized by contractholders on the redemption of their investment. As a result, no provision of income tax is required in the financial statements of the Fund.

Foreign investment income is subject to withholding tax deducted at the source of the income in some jurisdictions. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income. The Fund presents the withholding tax separately from the net gain (loss) on investments in the Statement of Comprehensive Income.

Income Opportunity Fund (LLIM) SF354

Notes to the Financial Statements

(in Canadian \$ thousands)

6. NET ASSETS ATTRIBUTABLE TO CONTRACTHOLDERS PER UNIT

The presentation of unit values is broken down by contractholder category.

Net increase (decrease) in net assets from operations attributable to contractholders per unit per category is calculated by dividing the net increase (decrease) in net assets attributable to contractholders from operations as disclosed in the Statement of Comprehensive Income, by the weighted average number of units of each category outstanding during the year.

7. DERIVATIVE FINANCIAL INSTRUMENTS

Derivative contracts, including forward currency, futures and equity swap contracts, are valued at the gain or loss that would arise as a result of closing the position at the reporting date. Options are recorded at fair value as at the reporting date. The Fund may use derivative contracts to hedge against losses caused by changes in securities prices, interest rates, exchange rates and/or other risks. The Fund may also use derivative contracts for non-hedging purposes in order to invest indirectly in financial markets or to gain exposure to other currencies, provided the use of such derivatives is consistent with the Fund's investment objectives and strategies. Foreign currency risk and exposure may be direct or indirect and can include all or a portion of the currency exposure of an existing investment or group of investments. Any such gain or loss on derivative contracts is recorded as part of net gain (loss) on investments.

As at the reporting date, the unrealized gain (loss) on derivative contracts is reflected on the Statement of Financial Position of the Fund.

The Fund manages derivative credit risk through collateral arrangements where required. The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are implemented by the Fund regarding the acceptability of types of collateral and the valuation parameters. The Fund Manager monitors the value of the collateral and requests additional collateral when needed.

Income Opportunity Fund (LLIM) SF354

Notes to the Financial Statements

(in Canadian \$ thousands)

8. RELATED PARTY TRANSACTIONS

Lifeco is the parent of the Company as well as a member of the Power Corporation group of companies. Through this relationship, the Company is related to IGM Financial Inc., a company in the financial services sector, along with its subsidiaries I.G. Investment Management, Ltd. and Mackenzie Financial Corporation.

The financial statements of the Fund may include transactions with the following related parties to the Company:

Related party	Relationship	Incorporated in
Canada Life Investment Management Ltd.	Wholly-owned subsidiary of the Company	Canada
Setanta Asset Management Limited	Indirect wholly-owned subsidiary of the Company	Ireland
Putnam Investments, LLC	Wholly-owned subsidiary of Lifeco	United States
IGM Financial Inc.	Subsidiary of Power Corporation	Canada
Canada Life Asset Management Limited	Indirect wholly-owned subsidiary of the Company	United Kingdom
Irish Life Investment Managers Limited	Indirect wholly-owned subsidiary of the Company	Ireland

- a) The Company provides management, advisory and administrative services to the Fund which includes the services of key management personnel. In respect of these services, the Fund is charged management and other fees that are at market terms and conditions. Management and other fees for Preferred Series 2 categories are charged directly to the contractholder by redeeming units from their policy. Management fees and other fees charged to other categories are calculated at set rates applied against the net assets of the specific category at each valuation date.
- b) The amounts shown as "Due from (to) The Canada Life Assurance Company" represent outstanding management fees, uncleared deposits/withdrawals and investment activity as at the December 31 valuation dates of the Fund.
- c) The Fund invests in assets or underlying funds managed by Mackenzie Financial Corporation, which operates as Mackenzie Investments. All investment transactions with the corresponding underlying funds are at quoted market prices.

Portfolio Turnover Rate (%) ⁽²⁾

For the years ended December 31	2022	2021	2020	2019	2018
Portfolio Turnover Rate	149.22	70.37	31.99	14.08	21.33

(1) The management expense ratio has been calculated as the aggregate of all fees, taxes, charges and other expenses incurred during the year divided by the average daily net asset value of the segregated fund attributable to the particular fee option. All ratios shown are on an annual basis. In circumstances where the particular fund or fee option did not have twelve months of exposure, the ratios have been annualized. Management expense ratios are calculated for Individual Customer, Wealth Solutions clients only. No management expense ratio is calculated for the Preferred Series 2 guarantee policy as such fees are charged directly to the contractholder.

(2) The portfolio turnover rates presented in the financial statements reflects the Canadian Life and Health Insurance Association Inc. (CLHIA) Guideline G2, Individual Variable Insurance Contracts Relating to Segregated Funds 12.3(a)(iii). The portfolio turnover rates indicate how actively the portfolio investments have been bought or sold throughout the year. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year.

Independent Auditor's Report

To the Contractholders of Northstar Fund (Fidelity) SF355 (the "Fund")

Opinion

We have audited the financial statements of the Fund, which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, changes in net assets attributable to contractholders and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and the requirements of Part XII of the Canadian Life and Health Insurance Association Guideline G2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.
