The Canada Life Assurance Company is the sole issuer of the individual variable annuity policy described in the information folder.

This fund facts booklet forms part of the information folder. Both the information folder and fund facts booklet must be received.

Any part of your contribution allocated to a segregated fund is invested at the risk of the policyowner and may increase or decrease in value.

Fund Facts

This fund facts booklet, which forms part of the Canada Life Segregated Fund Policies information folder, contains individual fund facts for the segregated funds available under the individual variable annuity policy. You can choose to invest in one or more of the funds available in this booklet.

The individual *fund facts* describe the key features of each segregated fund including its risk level, past performance, suitability, guarantees, and what fees and charges may apply.

The individual *fund facts* is not complete without the following description of *What if I change my mind?* and *For more information*.

What if I change my mind?

You can change your mind and cancel the segregated fund policy, the initial pre-authorized chequing premium or any lump-sum premium you apply to the policy by telling us in writing within two business days of the earlier of the date you received confirmation of the transaction or five business days after it was mailed to you.

Your cancellation request has to be in writing, which can include email, fax or letter. The amount returned will be the lesser of the amount of the premium being cancelled or the value of the applicable units acquired on the day we process your request. The amount returned only applies to the specific transaction and will include a refund of any sales charges or other fees you paid.

Fees and expenses

What you have to pay depends on the guarantee level you decide on – 75/75 guarantee, 75/100 guarantee or 100/100 guarantee – the segregated fund you hold, the market value of your total holdings and the amount of the advisory and management service (AMS) fee.

If you select a reset option additional fees apply.

These fees will be charged by redeeming units from each segregated fund.

Investment management fee

For each segregated fund you hold in your policy you will pay an investment management fee plus applicable taxes. The investment management fee varies depending on the guarantee level, segregated fund chosen and the market value of your total holdings.

The investment management fee bands will be set out in the preferred series 2 fee agreement.

Operating expense fee

For each segregated fund you hold in your policy you are responsible for paying all respective operating expenses related to preferred series 2 plus applicable taxes. The current annualized operating expense fee for each segregated fund will be set out in the preferred series 2 fee agreement. As operating expenses change, we may change the operating expense fee rate, from time to time without notice to you.

Advisory and management service (AMS) fee

For each segregated fund you hold in your policy you will pay an AMS fee plus applicable taxes. The AMS fee is negotiated between you and your advisor subject to our then-current administrative rules. The AMS fee must be between 0.50 per cent and 1.25 per cent and will be set out in the preferred series 2 fee agreement.

For more information about the fees, see *Fees and expenses* section in the information folder.

Investment segmentation

Are there any guarantees?

This fund is being offered under an insurance contract. It comes with guarantees that may protect your investment if the markets go down. The insurance cost for the guarantee is included in the investment management fee. For details, please refer to the information folder and contract.

Who is this fund for?

A person who is investing for the medium to longer term, wants exposure to multi-managers in one fund with a target of no more than 25 per cent invested in equities and is comfortable with low risk.

How has the fund performed?

This section tells you how the fund has performed over the past 10 years, prior to the deduction of fees for a policyowner who chose the 75/75 guarantee policy. This option does not deduct a MER but you pay fees that you agree to in your fee agreement directly. These fees reduce returns. See the *Ongoing expenses* section below for details.

It's important to note that this doesn't tell you how the fund will perform in the future. Also, your actual return will depend on the guarantee policy you choose and your personal tax situation.

Average return

A person who invested \$1,000 in the fund on December 31, 2012 would have \$1,497.69 on December 31, 2022. This works out to an average of 4.12% a year.

Year-by-year returns (%)

This chart shows how the fund has performed in each of the past 10 years. In the past 10 years, the fund was up in value 9 years and down in value 1 year.

How risky is it?

The risk rating for this fund is *Low*.

The value of your investments can go down. Please see the *Fund risks* section of the information folder for further details.

Conservative Profile

How much does it cost?

The following table shows the fees and expenses you could pay to invest in or redeem units of the fund.

1. Sales charges

Sales charge option	What you pay	How it works
Preferred series 2 FEL option	Up to 2% of the amount you invest.	<ul style="list-style-type: none"> You and your financial security advisor determine the rate. The fee is deducted from the amount you invest. It is paid as a commission.

2. Ongoing expenses

Normally the MER includes the investment management fee, operating expenses and the cost for the guarantee. These fees are normally deducted from the fund. The preferred series 2 FEL option is only available if you pay fees by redeeming units from your policy. The preferred series 2 fee agreement shows the fees you pay. These fees reduce the return you get on your investment. The advisory and management service fee is negotiable and the fee ranges between 0.50% and 1.25%.

Available additional guarantee options are subject to the following fees. You have to pay for these as set out below. For details about how the guarantees work, please see the applicable section of your information folder and contract.

Guarantee policy	Death benefit guarantee reset option (%)	Maturity guarantee reset option (%)
Maturity / death benefit (%)	Additional costs	
75 / 75	n/a	n/a
75 / 100	0.11	n/a
100 / 100	0.11	0.05

Trailing commission

No trailing commission.

3. Other fees

You may have to pay other fees when you redeem or switch units of the fund.

Fee	What you pay
Short-term trading fee	Up to 2% of the value of units you redeem or switch within 90 days of investing in the fund.
Switch fee	You may make up to 12 free switches in each calendar year and after that you may be charged a fee.

What if I change my mind?

You can change your mind and cancel the segregated fund policy, the initial pre-authorized chequing premium or any lump-sum premium you apply to the policy by telling us in writing within two business days of the earlier of the date you received confirmation of the transaction or five business days after it is mailed to you.

Your cancellation request has to be in writing, which can include email or letter. The amount returned will be the lesser of the amount of the premium being cancelled or the value of the applicable units acquired on the day we process your request. The amount returned only applies to the specific transaction and will include a refund of any sales charges or other fees you paid.

Available additional guarantee options are subject to the following fees. You have to pay for these as set out below. For details about how the guarantees work, please see the applicable section of your information folder and contract.

Guarantee policy	Death benefit guarantee reset option (%)	Maturity guarantee reset option (%)
Maturity / death benefit (%)	Additional costs	
75 / 75	n/a	n/a
75 / 100	0.11	n/a
100 / 100	0.11	0.21

Trailing commission

No trailing commission.

3. Other fees

You may have to pay other fees when you redeem or switch units of the fund.

Fee	What you pay
Short-term trading fee	Up to 2% of the value of units you redeem or switch within 90 days of investing in the fund.
Switch fee	You may make up to 12 free switches in each calendar year and after that you may be charged a fee.

What if I change my mind?

You can change your mind and cancel the segregated fund policy, the initial pre-authorized chequing premium or any lump-sum premium you apply to the policy by telling us in writing within two business days of the earlier of the date you received confirmation of the transaction or five business days after it is mailed to you.

Your cancellation request has to be in writing, which can include email or letter. The amount returned will be the lesser of the amount of the premium being cancelled or the value of the applicable units acquired on the day we process your request. The amount returned only applies to the specific transaction and will include a refund of any sales charges or other fees you paid.

Are there any guarantees?

This fund is being offered under an insurance contract. It comes with guarantees that may protect your investment if the markets go down. The insurance cost for the guarantee is included in the investment management fee. For details, please refer to the information folder and contract.

Who is this fund for?

A person who is investing for the medium to longer term, wants exposure to multi-managers in one fund with a target of 100 per cent invested in equities and is comfortable with moderate risk.

How has the fund performed?

This section tells you how the fund has performed over the past 10 years, prior to the deduction of fees for a policyowner who chose the 75/75 guarantee policy. This option does not deduct a MER but you pay fees that you agree to in your fee agreement directly. These fees reduce returns. See the *Ongoing expenses* section below for details.

It's important to note that this doesn't tell you how the fund will perform in the future. Also, your actual return will depend on the guarantee policy you choose and your personal tax situation.

Average return

A person who invested \$1,000 in the fund on December 31, 2012 would have \$2,475.01 on December 31, 2022. This works out to an average of 9.49% a year.

Year-by-year returns (%)

This chart shows how the fund has performed in each of the past 10 years. In the past 10 years, the fund was up in value 8 years and down in value 2 years.

How risky is it?

The risk rating for this fund is *Moderate*.

The value of your investments can go down. Please see the *Fund risks* section of the information folder for further details.

How much does it cost?

The following table shows the fees and expenses you could pay to invest in or redeem units of the fund.

1. Sales charges

Sales charge option	What you pay	How it works
Preferred series 2 FEL option	Up to 2% of the amount you invest.	<ul style="list-style-type: none"> You and your financial security advisor determine the rate. The fee is deducted from the amount you invest. It is paid as a commission.

2. Ongoing expenses

Normally the MER includes the investment management fee, operating expenses and the cost for the guarantee. These fees are normally deducted from the fund. The preferred series 2 FEL option is only available if you pay fees by redeeming units from your policy. The preferred series 2 fee agreement shows the fees you pay. These fees reduce the return you get on your investment. The advisory and management service fee is negotiable and the fee ranges between 0.50% and 1.25%.

Available additional guarantee options are subject to the following fees. You have to pay for these as set out below. For details about how the guarantees work, please see the applicable section of your information folder and contract.

Guarantee policy	Death benefit guarantee reset option (%)	Maturity guarantee reset option (%)
Maturity / death benefit (%)	Additional costs	
75 / 75	n/a	n/a
75 / 100	0.11	n/a
100 / 100	0.11	0.11

Trailing commission

No trailing commission.

3. Other fees

You may have to pay other fees when you redeem or switch units of the fund.

Fee	What you pay
Short-term trading fee	Up to 2% of the value of units you redeem or switch within 90 days of investing in the fund.
Switch fee	You may make up to 12 free switches in each calendar year and after that you may be charged a fee.

What if I change my mind?

You can change your mind and cancel the segregated fund policy, the initial pre-authorized chequing premium or any lump-sum premium you apply to the policy by telling us in writing within two business days of the earlier of the date you received confirmation of the transaction or five business days after it is mailed to you.

Your cancellation request has to be in writing, which can include email or letter. The amount returned will be the lesser of the amount of the premium being cancelled or the value of the applicable units acquired on the day we process your request. The amount returned only applies to the specific transaction and will include a refund of any sales charges or other fees you paid.

Are there any guarantees?

This fund is being offered under an insurance contract. It comes with guarantees that may protect your investment if the markets go down. The insurance cost for the guarantee is included in the investment management fee. For details, please refer to the information folder and contract.

Who is this fund for?

A person planning for retirement around 2045 and want exposure to multi-managers in one fund that evolves to a more conservative asset mix over time and are comfortable with moderate risk.

How has the fund performed?

This section tells you how the fund has performed over the past 10 years, prior to the deduction of fees for a policyowner who chose the 75/75 guarantee policy. This option does not deduct a MER but you pay fees that you agree to in your fee agreement directly. These fees reduce returns. See the *Ongoing expenses* section below for details.

It's important to note that this doesn't tell you how the fund will perform in the future. Also, your actual return will depend on the guarantee policy you choose and your personal tax situation.

Average return

A person who invested \$1,000 in the fund on December 31, 2012 would have \$2,336.61 on December 31, 2022. This works out to an average of 8.86% a year.

Year-by-year returns (%)

This chart shows how the fund has performed in each of the past 10 years. In the past 10 years, the fund was up in value 8 years and down in value 2 years.

How risky is it?

The risk rating for this fund is *Moderate*.

The value of your investments can go down. Please see the *Fund risks* section of the information folder for further details.

2045 Profile

How much does it cost?

The following table shows the fees and expenses you could pay to invest in or redeem units of the fund.

1. Sales charges

Sales charge option	What you pay	How it works
Preferred series 2 FEL option	Up to 2% of the amount you invest.	<ul style="list-style-type: none"> You and your financial security advisor determine the rate. The fee is deducted from the amount you invest. It is paid as a commission.

2. Ongoing expenses

Normally the MER includes the investment management fee, operating expenses and the cost for the guarantee. These fees are normally deducted from the fund. The preferred series 2 FEL option is only available if you pay fees by redeeming units from your policy. The preferred series 2 fee agreement shows the fees you pay. These fees reduce the return you get on your investment. The advisory and management service fee is negotiable and the fee ranges between 0.50% and 1.25%.

Available additional guarantee options are subject to the following fees. You have to pay for these as set out below. For details about how the guarantees work, please see the applicable section of your information folder and contract.

Guarantee policy	Death benefit guarantee reset option (%)	Maturity guarantee reset option (%)
Maturity / death benefit (%)	Additional costs	
75 / 75	n/a	n/a
75 / 100	0.16	n/a
100 / 100	0.16	0.21

Trailing commission

No trailing commission.

3. Other fees

You may have to pay other fees when you redeem or switch units of the fund.

Fee	What you pay
Short-term trading fee	Up to 2% of the value of units you redeem or switch within 90 days of investing in the fund.
Switch fee	You may make up to 12 free switches in each calendar year and after that you may be charged a fee.

What if I change my mind?

You can change your mind and cancel the segregated fund policy, the initial pre-authorized chequing premium or any lump-sum premium you apply to the policy by telling us in writing within two business days of the earlier of the date you received confirmation of the transaction or five business days after it is mailed to you.

Your cancellation request has to be in writing, which can include email or letter. The amount returned will be the lesser of the amount of the premium being cancelled or the value of the applicable units acquired on the day we process your request. The amount returned only applies to the specific transaction and will include a refund of any sales charges or other fees you paid.

How much does it cost?

The following table shows the fees and expenses you could pay to invest in or redeem units of the fund.

1. Sales charges

Sales charge option	What you pay	How it works
Preferred series 2 FEL option	Up to 2% of the amount you invest.	<ul style="list-style-type: none"> You and your financial security advisor determine the rate. The fee is deducted from the amount you invest. It is paid as a commission.

2. Ongoing expenses

Normally the MER includes the investment management fee, operating expenses and the cost for the guarantee. These fees are normally deducted from the fund. The preferred series 2 FEL option is only available if you pay fees by redeeming units from your policy. The preferred series 2 fee agreement shows the fees you pay. These fees reduce the return you get on your investment. The advisory and management service fee is negotiable and the fee ranges between 0.50% and 1.25%.

Available additional guarantee options are subject to the following fees. You have to pay for these as set out below. For details about how the guarantees work, please see the applicable section of your information folder and contract.

Guarantee policy	Death benefit guarantee reset option (%)	Maturity guarantee reset option (%)
Maturity / death benefit (%)	Additional costs

3. Other fees

You may have to pay other fees when you redeem or switch units of the fund.

Fee	What you pay
Short-term trading fee	Up to 2% of the value of units you redeem or switch within 90 days of investing in the fund.
Switch fee	You may make up to 12 free switches in each calendar year and after that you may be charged a fee.

What if I change my mind?

You can change your mind and cancel the segregated fund policy, the initial pre-authorized chequing premium or any lump-sum premium you apply to the policy by telling us in writing within two business days of the earlier of the date you received confirmation of the transaction or five business days after it is mailed to you.

Your cancellation request has to be in writing, which can include email or letter. The amount returned will be the lesser of the amount of the premium being cancelled or the value of the applicable units acquired on the day we process your request. The amount returned only applies to the specific transaction and will include a refund of any sales charges or other fees you paid.

Are there any guarantees?

This fund is being offered under an insurance contract. It comes with guarantees that may protect your investment if the markets go down. The insurance cost for the guarantee is included in the investment management fee. For details, please refer to the information folder and contract.

Who is this fund for?

A person who is investing for the medium to longer term, wants exposure to multi-managers in one fund with a balance of fixed income and equity funds and is comfortable with low to moderate risk.

How has the fund performed?

This section tells you how the fund has performed over the past 10 years, prior to the deduction of fees for a policyowner who chose the 75/75 guarantee policy. This option does not deduct a MER but you pay fees that you agree to in your fee agreement directly. These fees reduce returns. See the *Ongoing expenses* section below for details.

It's important to note that this doesn't tell you how the fund will perform in the future. Also, your actual return will depend on the guarantee policy you choose and your personal tax situation.

Average return

A person who invested \$1,000 in the fund on December 31, 2012 would have \$1,859.27 on December 31, 2022. This works out to an average of 6.40% a year.

Year-by-year returns (%)

This chart shows how the fund has performed in each of the past 10 years. In the past 10 years, the fund was up in value 8 years and down in value 2 years.

How risky is it?

The risk rating for this fund is *Low to moderate*.

The value of your investments can go down. Please see the *Fund risks* section of the information folder for further details.

How much does it cost?

The following table shows the fees and expenses you could pay to invest in or redeem units of the fund.

1. Sales charges

Sales charge option	What you pay	How it works
Preferred series 2 FEL option	Up to 2% of the amount you invest.	<ul style="list-style-type: none"> You and your financial security advisor determine the rate. The fee is deducted from the amount you invest. It is paid as a commission.

2. Ongoing expenses

Normally the MER includes the investment management fee, operating expenses and the cost for the guarantee. These fees are normally deducted from the fund. The preferred series 2 FEL option is only available if you pay fees by redeeming units from your policy. The preferred series 2 fee agreement shows the fees you pay. These fees reduce the return you get on your investment. The advisory and management service fee is negotiable and the fee ranges between 0.50% and 1.25%.

Available additional guarantee options are subject to the following fees. You have to pay for these as set out below. For details about how the guarantees work, please see the applicable section of your information folder and contract.

Guarantee policy	Death benefit guarantee reset option (%)	Maturity guarantee reset option (%)
Maturity / death benefit (%)	Additional costs	
75 / 75	n/a	n/a
75 / 100	0.11	n/a
100 / 100	0.11	0.11

Trailing commission

No trailing commission.

3. Other fees

You may have to pay other fees when you redeem or switch units of the fund.

Fee	What you pay
Short-term trading fee	Up to 2% of the value of units you redeem or switch within 90 days of investing in the fund.
Switch fee	You may make up to 12 free switches in each calendar year and after that you may be charged a fee.

What if I change my mind?

You can change your mind and cancel the segregated fund policy, the initial pre-authorized chequing premium or any lump-sum premium you apply to the policy by telling us in writing within two business days of the earlier of the date you received confirmation of the transaction or five business days after it is mailed to you.

Your cancellation request has to be in writing, which can include email or letter. The amount returned will be the lesser of the amount of the premium being cancelled or the value of the applicable units acquired on the day we process your request. The amount returned only applies to the specific transaction and will include a refund of any sales charges or other fees you paid.

Are there any guarantees?

This fund is being offered under an insurance contract. It comes with guarantees that may protect your investment if the markets go down. The insurance cost for the guarantee is included in the investment management fee. For details, please refer to the information folder and contract.

Who is this fund for?

A person who is investing for the medium to longer term, wants fixed income and equity funds in one fund, with a target of no more than 40 per cent invested in fixed income and is comfortable with low to moderate risk.

How has the fund performed?

This section tells you how the fund has performed over the past 10 years, prior to the deduction of fees for a policyowner who chose the 75/75 guarantee policy. This option does not deduct a MER but you pay fees that you agree to in your fee agreement directly. These fees reduce returns. See the *Ongoing expenses* section below for details.

It's important to note that this doesn't tell you how the fund will perform in the future. Also, your actual return will depend on the guarantee policy you choose and your personal tax situation.

Average return

A person who invested \$1,000 in the fund on December 31, 2012 would have \$2,033.92 on December 31, 2022. This works out to an average of 7.36% a year.

Year-by-year returns (%)

This chart shows how the fund has performed in each of the past 10 years. In the past 10 years, the fund was up in value 8 years and down in value 2 years.

How risky is it?

The risk rating for this fund is *Low to moderate*.

The value of your investments can go down. Please see the *Fund risks* section of the information folder for further details.

This fund is being offered under an insurance contract. It comes with guarantees that may protect your investment if the markets go down. The insurance cost for the guarantee is included in the investment management fee. For details, please refer to the information folder and contract.

Who is this fund for?

A person who is investing for the medium to longer term and seeking potential for interest income in their portfolio and is comfortable with low risk. Since the fund invests in bonds, its value is affected by changes in interest rates.

How has the fund performed?

This section tells you how the fund has performed over the past 10 years, prior to the deduction of fees for a policyowner who chose the 75/75 guarantee policy. This option does not deduct a MER but you pay fees that you agree to in your fee agreement directly. These fees reduce returns. See the *Ongoing expenses* section below for details.

It's important to note that this doesn't tell you how the fund will perform in the future. Also, your actual return will depend on the guarantee policy you choose and your personal tax situation.

Average return

A person who invested \$1,000 in the fund on December 31, 2012 would have \$1,209.73 on December 31, 2022. This works out to an average of 1.92% a year.

Year-by-year returns (%)

This chart shows how the fund has performed in each of the past 10 years. In the past 10 years, the fund was up in value 7 years and down in value 3 years.

How risky is it?

The risk rating for this fund is *Low*.

The value of your investments can go down. Please see the *Fund risks* section of the information folder for further details.

Canadian Core Bond

How much does it cost?

The following table shows the fees and expenses you could pay to invest in or redeem units of the fund.

1. Sales charges

Sales charge option	What you pay	How it works
Preferred series 2 FEL option	Up to 2% of the amount you invest.	<ul style="list-style-type: none"> You and your financial security advisor determine the rate. The fee is deducted from the amount you invest. It is paid as a commission.

2. Ongoing expenses

Normally the MER includes the investment management fee, operating expenses and the cost for the guarantee. These fees are normally deducted from the fund. The preferred series 2 FEL option is only available if you pay fees by redeeming units from your policy. The preferred series 2 fee agreement shows the fees you pay. These fees reduce the return you get on your investment. The advisory and management service fee is negotiable and the fee ranges between 0.50% and 1.25%.

Available additional guarantee options are subject to the following fees. You have to pay for these as set out below. For details about how the guarantees work, please see the applicable section of your information folder and contract.

Guarantee policy	Death benefit guarantee reset option (%)	Maturity guarantee reset option (%)
Maturity / death benefit (%)	Additional costs	
75 / 75	n/a	n/a
75 / 100	0.11	n/a
100 / 100	0.11	0.05

Trailing commission

No trailing commission.

3. Other fees

You may have to pay other fees when you redeem or switch units of the fund.

Fee	What you pay
Short-term trading fee	Up to 2% of the value of units you redeem or switch within 90 days of investing in the fund.
Switch fee	You may make up to 12 free switches in each calendar year and after that you may be charged a fee.

What if I change my mind?

You can change your mind and cancel the segregated fund policy, the initial pre-authorized chequing premium or any lump-sum premium you apply to the policy by telling us in writing within two business days of the earlier of the date you received confirmation of the transaction or five business days after it is mailed to you.

Your cancellation request has to be in writing, which can include email or letter. The amount returned will be the lesser of the amount of the premium being cancelled or the value of the applicable units acquired on the day we process your request. The amount returned only applies to the specific transaction and will include a refund of any sales charges or other fees you paid.

Switch fee	You may make up to 12 free switches in each calendar year and after that you may be charged a fee.

What if I change my mind?

You can change your mind and cancel the segregated fund policy, the initial pre-authorized chequing premium or any lump-sum premium you apply to the policy by telling us in writing within two business days of the earlier of the date you received confirmation of the transaction or five business days after it is mailed to you.

Your cancellation request has to be in writing, which can include email or letter. The amount returned will be the lesser of the amount of the premium being cancelled or the value of the applicable units acquired on the day we process your request. The amount returned only applies to the specific transaction and will include a refund of any sales charges or other fees you paid.

Investment segmentation

Are there any guarantees?

This fund is being offered under an insurance contract. It comes with guarantees that may protect your investment if the markets go down. The insurance cost for the guarantee is included in the investment management fee. For details, please refer to the information folder and contract.

Who is this fund for?

A person who is investing for the medium to longer term and seeking potential for interest income in their portfolio and is comfortable with low to moderate risk. Since the fund invests in bonds, its value is affected by changes in interest rates.

How has the fund performed?

This section tells you how the fund has performed over the past 9 years, prior to the deduction of fees for a policyowner who chose the 75/75 guarantee policy. This option does not deduct a MER but you pay fees that you agree to in your fee agreement directly. These fees reduce returns. See the *Ongoing expenses* section below for details.

It's important to note that this doesn't tell you how the fund will perform in the future. Also, your actual return will depend on the guarantee policy you choose and your personal tax situation.

Average return

A person who invested \$1,000 in the fund on July 8, 2013 would have \$1,226.94 on December 31, 2022. This works out to an average of 2.18% a year.

Year-by-year returns (%)

This chart shows how the fund has performed in each of the past 9 years. In the past 9 years, the fund was up in value 6 years and down in value 3 years.

How risky is it?

The risk rating for this fund is *Low to moderate*.

The value of your investments can go down. Please see the *Fund risks* section of the information folder for further details.

Long Term Bond

How much does it cost?

The following table shows the fees and expenses you could pay to invest in or redeem units of the fund.

1. Sales charges

Sales charge option	What you pay	How it works
Preferred series 2 FEL option	Up to 2% of the amount you invest.	<ul style="list-style-type: none"> You and your financial security advisor determine the rate. The fee is deducted from the amount you invest. It is paid as a commission.

2. Ongoing expenses

Normally the MER includes the investment management fee, operating expenses and the cost for the guarantee. These fees are normally deducted from the fund. The preferred series 2 FEL option is only available if you pay fees by redeeming units from your policy. The preferred series 2 fee agreement shows the fees you pay. These fees reduce the return you get on your investment. The advisory and management service fee is negotiable and the fee ranges between 0.50% and 1.25%.

Available additional guarantee options are subject to the following fees. You have to pay for these as set out below. For details about how the guarantees work, please see the applicable section of your information folder and contract.

Guarantee policy	Death benefit guarantee reset option (%)	Maturity guarantee reset option (%)
Maturity / death benefit (%)	Additional costs

How has the fund performed?

This section tells you how the fund has performed over the past 9 years, prior to the deduction of fees for a policyowner who chose the 75/75 guarantee policy. This option does not deduct a MER but you pay fees that you agree to in your fee agreement directly. These fees reduce returns. See the *Ongoing expenses* section below for details.

It's important to note that this doesn't tell you how the fund will perform in the future. Also, your actual return will depend on the guarantee policy you choose and your personal tax situation.

Average return

A person who invested \$1,000 in the fund on July 8, 2013 would have \$1,422.16 on December 31, 2022. This works out to an average of 3.78% a year.

Year-by-year returns (%)

This chart shows how the fund has performed in each of the past 9 years. In the past 9 years, the fund was up in value 6 years and down in value 3 years.

Are there any guarantees?

This fund is being offered under an insurance contract. It comes with guarantees that may protect your investment if the markets go down. The insurance cost for the guarantee is included in the investment management fee. For details, please refer to the information folder and contract.

Who is this fund for?

A person who is investing for the medium to longer term and seeking potential for interest income in their portfolio and is comfortable with low to moderate risk. Since the fund invests in bonds, its value is affected by changes in interest rates.

Notes

In September 2019, the manager changed from Putnam Investments Canada ULC to Mackenzie Investments. The performance prior to that date was achieved under the previous investment manager. No other changes were made to the segregated fund.

How risky is it?

The risk rating for this fund is *Low to moderate*.

The value of your investments can go down. Please see the *Fund risks* section of the information folder for further details.

How much does it cost?

The following table shows the fees and expenses you could pay to invest in or redeem units of the fund.

1. Sales charges

Sales charge option	What you pay	How it works
Preferred series 2 FEL option	Up to 2% of the amount you invest.	<ul style="list-style-type: none"> You and your financial security advisor determine the rate. The fee is deducted from the amount you invest. It is paid as a commission.

2. Ongoing expenses

Normally the MER includes the investment management fee, operating expenses and the cost for the guarantee. These fees are normally deducted from the fund. The preferred series 2 FEL option is only available if you pay fees by redeeming units from your policy. The preferred series 2 fee agreement shows the fees you pay. These fees reduce the return you get on your investment. The advisory and management service fee is negotiable and the fee ranges between 0.50% and 1.25%.

Available additional guarantee options are subject to the following fees. You have to pay for these as set out below. For details about how the guarantees work, please see the applicable section of your information folder and contract.

Guarantee policy	Death benefit guarantee reset option (%)	Maturity guarantee reset option (%)
Maturity / death benefit (%)	Additional costs	
75 / 75	n/a	n/a
75 / 100	0.11	n/a
100 / 100	0.11	0.05

Trailing commission

No trailing commission.

3. Other fees

You may have to pay other fees when you redeem or switch units of the fund.

Fee	What you pay
Short-term trading fee	Up to 2% of the value of units you redeem or switch within 90 days of investing in the fund.
Switch fee	You may make up to 12 free switches in each calendar year and after that you may be charged a fee.

What if I change my mind?

You can change your mind and cancel the segregated fund policy, the initial pre-authorized chequing premium or any lump-sum premium you apply to the policy by telling us in writing within two business days of the earlier of the date you received confirmation of the transaction or five business days after it is mailed to you.

Your cancellation request has to be in writing, which can include email or letter. The amount returned will be the lesser of the amount of the premium being cancelled or the value of the applicable units acquired on the day we process your request. The amount returned only applies to the specific transaction and will include a refund of any sales charges or other fees you paid.

Normally the MER includes the investment management fee, operating expenses and the cost for the guarantee. These fees are normally deducted from the fund. The preferred series 2 FEL option is only available if you pay fees by redeeming units from your policy. The preferred series 2 fee agreement shows the fees you pay. These fees reduce the return you get on your investment. The advisory and management service fee is negotiable and the fee ranges between 0.50% and 1.25%.

Available additional guarantee options are subject to the following fees. You have to pay for these as set out below. For details about how the guarantees work, please see the applicable section of your information folder and contract.

Guarantee policy	Death benefit guarantee reset option (%)	Maturity guarantee reset option (%)
Maturity / death benefit (%)	Additional costs	
75 / 75	n/a	n/a
75 / 100	0.11	n/a
100 / 100	0.11	0.11

Trailing commission

No trailing commission.

3. Other fees

You may have to pay other fees when you redeem or switch units of the fund.

Fee	What you pay
Short-term trading fee	Up to 2% of the value of units you redeem or switch within 90 days of investing in the fund.
Switch fee	You may make up to 12 free switches in each calendar year and after that you may be charged a fee.

What if I change my mind?

You can change your mind and cancel the segregated fund policy, the initial pre-authorized chequing premium or any lump-sum premium you apply to the policy by telling us in writing within two business days of the earlier of the date you received confirmation of the transaction or five business days after it is mailed to you.

Your cancellation request has to be in writing, which can include email or letter. The amount returned will be the lesser of the amount of the premium being cancelled or the value of the applicable units acquired on the day we process your request. The amount returned only applies to the specific transaction and will include a refund of any sales charges or other fees you paid.

Are there any guarantees?

This fund is being offered under an insurance contract. It comes with guarantees that may protect your investment if the markets go down. The insurance cost for the guarantee is included in the investment management fee. For details, please refer to the information folder and contract.

Who is this fund for?

A person who is investing for the medium to longer term and seeking exposure to stocks and bonds and is comfortable with low to moderate risk. Since the fund invests in stocks and bonds its value is affected by changes in interest rates and by stock prices, which can rise and fall in a short period of time.

How has the fund performed?

This section tells you how the fund has performed over the past 10 years, prior to the deduction of fees for a policyowner who chose the 75/75 guarantee policy. This option does not deduct a MER but you pay fees that you agree to in your fee agreement directly. These fees reduce returns. See the *Ongoing expenses* section below for details.

It's important to note that this doesn't tell you how the fund will perform in the future. Also, your actual return will depend on the guarantee policy you choose and your personal tax situation.

Average return

A person who invested \$1,000 in the fund on December 31, 2012 would have \$1,854.30 on December 31, 2022. This works out to an average of 6.37% a year.

Year-by-year returns (%)

This chart shows how the fund has performed in each of the past 10 years. In the past 10 years, the fund was up in value 8 years and down in value 2 years.

How risky is it?

The risk rating for this fund is *Low to moderate*.

The value of your investments can go down. Please see the *Fund risks* section of the information folder for further details.

How has the fund performed?

This section tells you how the fund has performed over the past 10 years, prior to the deduction of fees for a policyowner who chose the 75/75 guarantee policy. This option does not deduct a MER but you pay fees that you agree to in your fee agreement directly. These fees reduce returns. See the *Ongoing expenses* section below for details.

It's important to note that this doesn't tell you how the fund will perform in the future. Also, your actual return will depend on the guarantee policy you choose and your personal tax situation.

Average return

A person who invested \$1,000 in the fund on December 31, 2012 would have \$1,887.49 on December 31, 2022. This works out to an average of 6.56% a year.

Year-by-year returns (%)

This chart shows how the fund has performed in each of the past 10 years. In the past 10 years, the fund was up in value 9 years and down in value 1 year.

Are there any guarantees?

This fund is being offered under an insurance contract. It comes with guarantees that may protect your investment if the markets go down. The insurance cost for the guarantee is included in the investment management fee. For details, please refer to the information folder and contract.

How risky is it?

The risk rating for this fund is *Low to moderate*.

The value of your investments can go down. Please see the *Fund risks* section of the information folder for further details.

Who is this fund for?

A person who is investing for the medium to longer term and seeking exposure to Canadian and foreign bonds and Canadian and foreign income-oriented stocks and is comfortable with low to moderate risk. Since the fund invests in stocks and bonds its value is affected by changes in interest rates and by stock prices, which can rise and fall in a short period of time.

Notes

Effective November 2016 the investment objective changed from investing primarily in fixed-income securities and stocks in Canada to anywhere in the world. The performance before that date was achieved under a previous manager and investment objective. No other changes were made to the segregated fund.

How much does it cost?

The following table shows the fees and expenses you could pay to invest in or redeem units of the fund.

1. Sales charges

Sales charge option	What you pay	How it works
Preferred series 2 FEL option	Up to 2% of the amount you invest.	<ul style="list-style-type: none"> You and your financial security advisor determine the rate. The fee is deducted from the amount you invest. It is paid as a commission.

2. Ongoing expenses

Normally the MER includes the investment management fee, operating expenses and the cost for the guarantee. These fees are normally deducted from the fund. The preferred series 2 FEL option is only available if you pay fees by redeeming units from your policy. The preferred series 2 fee agreement shows the fees you pay. These fees reduce the return you get on your investment. The advisory and management service fee is negotiable and the fee ranges between 0.50% and 1.25%.

Available additional guarantee options are subject to the following fees. You have to pay for these as set out below. For details about how the guarantees work, please see the applicable section of your information folder and contract.

Guarantee policy	Death benefit guarantee reset option (%)	Maturity guarantee reset option (%)
Maturity / death benefit (%)	Additional costs	
75 / 75	n/a	n/a
75 / 100	0.11	n/a
100 / 100	0.11	0.11

Trailing commission

No trailing commission.

3. Other fees

You may have to pay other fees when you redeem or switch units of the fund.

Fee	What you pay
Short-term trading fee	Up to 2% of the value of units you redeem or switch within 90 days of investing in the fund.
Switch fee	You may make up to 12 free switches in each calendar year and after that you may be charged a fee.

What if I change my mind?

You can change your mind and cancel the segregated fund policy, the initial pre-authorized chequing premium or any lump-sum premium you apply to the policy by telling us in writing within two business days of the earlier of the date you received confirmation of the transaction or five business days after it is mailed to you.

Your cancellation request has to be in writing, which can include email or letter. The amount returned will be the lesser of the amount of the premium being cancelled or the value of the applicable units acquired on the day we process your request. The amount returned only applies to the specific transaction and will include a refund of any sales charges or other fees you paid.

Are there any guarantees?

This fund is being offered under an insurance contract. It comes with guarantees that may protect your investment if the markets go down. The insurance cost for the guarantee is included in the investment management fee. For details, please refer to the information folder and contract.

Who is this fund for?

A person who is investing for the longer term, seeking the growth potential of stocks and is comfortable with moderate risk. Since the fund invests in stocks its value is affected by stock prices, which can rise and fall in a short period of time.

How has the fund performed?

This section tells you how the fund has performed over the past 10 years, prior to the deduction of fees for a policyowner who chose the 75/75 guarantee policy. This option does not deduct a MER but you pay fees that you agree to in your fee agreement directly. These fees reduce returns. See the *Ongoing expenses* section below for details.

It's important to note that this doesn't tell you how the fund will perform in the future. Also, your actual return will depend on the guarantee policy you choose and your personal tax situation.

Average return

A person who invested \$1,000 in the fund on December 31, 2012 would have \$2,154.37 on December 31, 2022. This works out to an average of 7.98% a year.

Year-by-year returns (%)

This chart shows how the fund has performed in each of the past 10 years. In the past 10 years, the fund was up in value 6 years and down in value 4 years.

How risky is it?

The risk rating for this fund is *Moderate*.

The value of your investments can go down. Please see the *Fund risks* section of the information folder for further details.

How much does it cost?

The following table shows the fees and expenses you could pay to invest in or redeem units of the fund.

1. Sales charges

Sales charge option	What you pay	How it works
Preferred series 2 FEL option	Up to 2% of the amount you invest.	<ul style="list-style-type: none"> You and your financial security advisor determine the rate. The fee is deducted from the amount you invest. It is paid as a commission.

2. Ongoing expenses

Normally the MER includes the investment management fee, operating expenses and the cost for the guarantee. These fees are normally deducted from the fund. The preferred series 2 FEL option is only available if you pay fees by redeeming units from your policy. The preferred series 2 fee agreement shows the fees you pay. These fees reduce the return you get on your investment. The advisory and management service fee is negotiable and the fee ranges between 0.50% and 1.25%.

Available additional guarantee options are subject to the following fees. You have to pay for these as set out below. For details about how the guarantees work, please see the applicable section of your information folder and contract.

Guarantee policy	Death benefit guarantee reset option (%)	Maturity guarantee reset option (%)
Maturity / death benefit (%)	Additional costs	
75 / 75	n/a	n/a
75 / 100	0.11	n/a
100 / 100	0.11	0.21

Trailing commission

No trailing commission.

3. Other fees

You may have to pay other fees when you redeem or switch units of the fund.

Fee	What you pay
Short-term trading fee	Up to 2% of the value of units you redeem or switch within 90 days of investing in the fund.
Switch fee	You may make up to 12 free switches in each calendar year and after that you may be charged a fee.

What if I change my mind?

You can change your mind and cancel the segregated fund policy, the initial pre-authorized chequing premium or any lump-sum premium you apply to the policy by telling us in writing within two business days of the earlier of the date you received confirmation of the transaction or five business days after it is mailed to you.

Your cancellation request has to be in writing, which can include email or letter. The amount returned will be the lesser of the amount of the premium being cancelled or the value of the applicable units acquired on the day we process your request. The amount returned only applies to the specific transaction and will include a refund of any sales charges or other fees you paid.

3. Other fees

You may have to pay other fees when you redeem or switch units of the fund.

Fee	What you pay
Short-term trading fee	Up to 2% of the value of units you redeem or switch within 90 days of investing in the fund.
Switch fee	You may make up to 12 free switches in each calendar year and after that you may be charged a fee.

What if I change my mind?

You can change your mind and cancel the segregated fund policy, the initial pre-authorized chequing premium or any lump-sum premium you apply to the policy by telling us in writing within two business days of the earlier of the date you received confirmation of the transaction or five business days after it is mailed to you.

Your cancellation request has to be in writing, which can include email or letter. The amount returned will be the lesser of the amount of the premium being cancelled or the value of the applicable units acquired on the day we process your request. The amount returned only applies to the specific transaction and will include a refund of any sales charges or other fees you paid.

Are there any guarantees?

This fund is being offered under an insurance contract. It comes with guarantees that may protect your investment if the markets go down. The insurance cost for the guarantee is included in the investment management fee. For details, please refer to the information folder and contract.

Who is this fund for?

A person who is investing for the longer term, seeking the growth potential of stocks and is comfortable with moderate risk. Since the fund invests in stocks its value is affected by stock prices, which can rise and fall in a short period of time.

Notes

In May 2013 Connor, Clark & Lunn Investment Management Ltd. assumed portfolio management responsibilities from Invesco Canada Ltd. The performance before that date was achieved under the previous investment manager. No other changes were made to the segregated fund.

How has the fund performed?

This section tells you how the fund has performed over the past 10 years, prior to the deduction of fees for a policyowner who chose the 75/75 guarantee policy. This option does not deduct a MER but you pay fees that you agree to in your fee agreement directly. These fees reduce returns. See the *Ongoing expenses* section below for details.

It's important to note that this doesn't tell you how the fund will perform in the future. Also, your actual return will depend on the guarantee policy you choose and your personal tax situation.

Average return

A person who invested \$1,000 in the fund on December 31, 2012 would have \$2,820.37 on December 31, 2022. This works out to an average of 10.93% a year.

Year-by-year returns (%)

This chart shows how the fund has performed in each of the past 10 years. In the past 10 years, the fund was up in value 7 years and down in value 3 years.

How risky is it?

The risk rating for this fund is *Moderate*.

The value of your investments can go down. Please see the *Fund risks* section of the information folder for further details.

How much does it cost?

The following table shows the fees and expenses you could pay to invest in or redeem units of the fund.

1. Sales charges

Sales charge option	What you pay	How it works
Preferred series 2 FEL option	Up to 2% of the amount you invest.	<ul style="list-style-type: none"> You and your financial security advisor determine the rate. The fee is deducted from the amount you invest. It is paid as a commission.

2. Ongoing expenses

Normally the MER includes the investment management fee, operating expenses and the cost for the guarantee. These fees are normally deducted from the fund. The preferred series 2 FEL option is only available if you pay fees by redeeming units from your policy. The preferred series 2 fee agreement shows the fees you pay. These fees reduce the return you get on your investment. The advisory and management service fee is negotiable and the fee ranges between 0.50% and 1.25%.

Available additional guarantee options are subject to the following fees. You have to pay for these as set out below. For details about how the guarantees work, please see the applicable section of your information folder and contract.

How much does it cost?

The following table shows the fees and expenses you could pay to invest in or redeem units of the fund.

1. Sales charges

Sales charge option	What you pay	How it works
Preferred series 2 FEL option	Up to 2% of the amount you invest.	<ul style="list-style-type: none"> You and your financial security advisor determine the rate. The fee is deducted from the amount you invest. It is paid as a commission.

2. Ongoing expenses

Normally the MER includes the investment management fee, operating expenses and the cost for the guarantee. These fees are normally deducted from the fund. The preferred series 2 FEL option is only available if you pay fees by redeeming units from your policy. The preferred series 2 fee agreement shows the fees you pay. These fees reduce the return you get on your investment. The advisory and management service fee is negotiable and the fee ranges between 0.50% and 1.25%.

Available additional guarantee options are subject to the following fees. You have to pay for these as set out below. For details about how the guarantees work, please see the applicable section of your information folder and contract.

Guarantee policy	Death benefit guarantee reset option (%)	Maturity guarantee reset option (%)
Maturity / death benefit (%)	Additional costs	
75 / 75	n/a	n/a
75 / 100	0.16	n/a
100 / 100	0.16	0.21

Trailing commission

No trailing commission.

3. Other fees

You may have to pay other fees when you redeem or switch units of the fund.

Fee	What you pay
Short-term trading fee	Up to 2% of the value of units you redeem or switch within 90 days of investing in the fund.
Switch fee	You may make up to 12 free switches in each calendar year and after that you may be charged a fee.

What if I change my mind?

You can change your mind and cancel the segregated fund policy, the initial pre-authorized chequing premium or any lump-sum premium you apply to the policy by telling us in writing within two business days of the earlier of the date you received confirmation of the transaction or five business days after it is mailed to you.

Your cancellation request has to be in writing, which can include email or letter. The amount returned will be the lesser of the amount of the premium being cancelled or the value of the applicable units acquired on the day we process your request. The amount returned only applies to the specific transaction and will include a refund of any sales charges or other fees you paid.

Are there any guarantees?

This fund is being offered under an insurance contract. It comes with guarantees that may protect your investment if the markets go down. The insurance cost for the guarantee is included in the investment management fee. For details, please refer to the information folder and contract.

Who is this fund for?

A person who is investing for the longer term, seeking the growth potential of stocks and is comfortable with moderate risk. Since the fund invests in stocks its value is affected by stock prices, which can rise and fall in a short period of time.

Notes

Effective October 2023, this fund's risk rating has changed from "Moderate to high" to "Moderate". No other changes were made to the segregated fund.

How has the fund performed?

This section tells you how the fund has performed over the past 10 years, prior to the deduction of fees for a policyowner who chose the 75/75 guarantee policy. This option does not deduct a MER but you pay fees that you agree to in your fee agreement directly. These fees reduce returns. See the *Ongoing expenses* section below for details.

It's important to note that this doesn't tell you how the fund will perform in the future. Also, your actual return will depend on the guarantee policy you choose and your personal tax situation.

Average return

A person who invested \$1,000 in the fund on December 31, 2012 would have \$3,168.44 on December 31, 2022. This works out to an average of 12.22% a year.

Year-by-year returns (%)

This chart shows how the fund has performed in each of the past 10 years. In the past 10 years, the fund was up in value 9 years and down in value 1 year.

How risky is it?

The risk rating for this fund is *Moderate*.

The value of your investments can go down. Please see the *Fund risks* section of the information folder for further details.

How much does it cost?

The following table shows the fees and expenses you could pay to invest in or redeem units of the fund.

1. Sales charges

Sales charge option	What you pay	How it works
Preferred series 2 FEL option	Up to 2% of the amount you invest.	<ul style="list-style-type: none"> You and your financial security advisor determine the rate. The fee is deducted from the amount you invest. It is paid as a commission.

2. Ongoing expenses

Normally the MER includes the investment management fee, operating expenses and the cost for the guarantee. These fees are normally deducted from the fund. The preferred series 2 FEL option is only available if you pay fees by redeeming units from your policy. The preferred series 2 fee agreement shows the fees you pay. These fees reduce the return you get on your investment. The advisory and management service fee is negotiable and the fee ranges between 0.50% and 1.25%.

Available additional guarantee options are subject to the following fees. You have to pay for these as set out below. For details about how the guarantees work, please see the applicable section of your information folder and contract.

Guarantee policy	Death benefit guarantee reset option (%)	Maturity guarantee reset option (%)
Maturity / death benefit (%)	Additional costs	
75 / 75	n/a	n/a
75 / 100	0.21	n/a
100 / 100	0.21	0.27

Trailing commission

No trailing commission.

3. Other fees

You may have to pay other fees when you redeem or switch units of the fund.

Fee	What you pay
Short-term trading fee	Up to 2% of the value of units you redeem or switch within 90 days of investing in the fund.
Switch fee	You may make up to 12 free switches in each calendar year and after that you may be charged a fee.

What if I change my mind?

You can change your mind and cancel the segregated fund policy, the initial pre-authorized chequing premium or any lump-sum premium you apply to the policy by telling us in writing within two business days of the earlier of the date you received confirmation of the transaction or five business days after it is mailed to you.

Your cancellation request has to be in writing, which can include email or letter. The amount returned will be the lesser of the amount of the premium being cancelled or the value of the applicable units acquired on the day we process your request. The amount returned only applies to the specific transaction and will include a refund of any sales charges or other fees you paid.

3. Other fees

You may have to pay other fees when you redeem or switch units of the fund.

Fee	What you pay
Short-term trading fee	Up to 2% of the value of units you redeem or switch within 90 days of investing in the fund.
Switch fee	You may make up to 12 free switches in each calendar year and after that you may be charged a fee.

What if I change my mind?

You can change your mind and cancel the segregated fund policy, the initial pre-authorized chequing premium or any lump-sum premium you apply to the policy by telling us in writing within two business days of the earlier of the date you received confirmation of the transaction or five business days after it is mailed to you.

Your cancellation request has to be in writing, which can include email or letter. The amount returned will be the lesser of the amount of the premium being cancelled or the value of the applicable units acquired on the day we process your request. The amount returned only applies to the specific transaction and will include a refund of any sales charges or other fees you paid.

Are there any guarantees?

This fund is being offered under an insurance contract. It comes with guarantees that may protect your investment if the markets go down. The insurance cost for the guarantee is included in the investment management fee. For details, please refer to the information folder and contract.

Who is this fund for?

A person who is investing for the longer term, seeking the growth potential of foreign stocks and is comfortable with moderate risk. Since the fund invests in stocks its value is affected by stock prices, which can rise and fall in a short period of time.

Notes

In September 2014 Putnam Investments Canada ULC assumed portfolio management responsibilities from GLC Asset Management Group Ltd. The performance before that date was achieved under the previous investment manager. No other changes were made to the segregated fund.

How has the fund performed?

This section tells you how the fund has performed over the past 10 years, prior to the deduction of fees for a policyowner who chose the 75/75 guarantee policy. This option does not deduct a MER but you pay fees that you agree to in your fee agreement directly. These fees reduce returns. See the *Ongoing expenses* section below for details.

It's important to note that this doesn't tell you how the fund will perform in the future. Also, your actual return will depend on the guarantee policy you choose and your personal tax situation.

Average return

A person who invested \$1,000 in the fund on December 31, 2012 would have \$2,690.57 on December 31, 2022. This works out to an average of 10.40% a year.

Year-by-year returns (%)

This chart shows how the fund has performed in each of the past 10 years. In the past 10 years, the fund was up in value 7 years and down in value 3 years.

How risky is it?

The risk rating for this fund is *Moderate*.

The value of your investments can go down. Please see the *Fund risks* section of the information folder for further details.

The following table shows the fees and expenses you could pay to invest in or redeem units of the fund.

1. Sales charges

Sales charge option	What you pay	How it works
Preferred series 2 FEL option	Up to 2% of the amount you invest.	<ul style="list-style-type: none"> You and your financial security advisor determine the rate. The fee is deducted from the amount you invest. It is paid as a commission.

2. Ongoing expenses

Normally the MER includes the investment management fee, operating expenses and the cost for the guarantee. These fees are normally deducted from the fund. The preferred series 2 FEL option is only available if you pay fees by redeeming units from your policy. The preferred series 2 fee agreement shows the fees you pay. These fees reduce the return you get on your investment. The advisory and management service fee is negotiable and the fee ranges between 0.50% and 1.25%.

Available additional guarantee options are subject to the following fees. You have to pay for these as set out below. For details about how the guarantees work, please see the applicable section of your information folder and contract.

Guarantee policy	Death benefit guarantee reset option (%)	Maturity guarantee reset option (%)
Maturity / death benefit (%)	Additional costs	
75 / 75	n/a	n/a
75 / 100	0.16	n/a
100 / 100	0.16	0.21

Trailing commission

No trailing commission.

3. Other fees

You may have to pay other fees when you redeem or switch units of the fund.

Fee	What you pay
Short-term trading fee	Up to 2% of the value of units you redeem or switch within 90 days of investing in the fund.
Switch fee	You may make up to 12 free switches in each calendar year and after that you may be charged a fee.

What if I change my mind?

You can change your mind and cancel the segregated fund policy, the initial pre-authorized chequing premium or any lump-sum premium you apply to the policy by telling us in writing within two business days of the earlier of the date you received confirmation of the transaction or five business days after it is mailed to you.

Your cancellation request has to be in writing, which can include email or letter. The amount returned will be the lesser of the amount of the premium being cancelled or the value of the applicable units acquired on the day we process your request. The amount returned only applies to the specific transaction and will include a refund of any sales charges or other fees you paid.

Are there any guarantees?

This fund is being offered under an insurance contract. It comes with guarantees that may protect your investment if the markets go down. The insurance cost for the guarantee is included in the investment management fee. For details, please refer to the information folder and contract.

Who is this fund for?

A person who is investing for the longer term, seeking the growth potential of U.S. stocks and is comfortable with moderate risk. Since the fund invests in stocks its value is affected by stock prices, which can rise and fall in a short period of time.

How has the fund performed?

This section tells you how the fund has performed over the past 10 years, prior to the deduction of fees for a policyowner who chose the 75/75 guarantee policy. This option does not deduct a MER but you pay fees that you agree to in your fee agreement directly. These fees reduce returns. See the *Ongoing expenses* section below for details.

It's important to note that this doesn't tell you how the fund will perform in the future. Also, your actual return will depend on the guarantee policy you choose and your personal tax situation.

Average return

A person who invested \$1,000 in the fund on December 31, 2012 would have \$3,932.49 on December 31, 2022. This works out to an average of 14.67% a year.

Year-by-year returns (%)

This chart shows how the fund has performed in each of the past 10 years. In the past 10 years, the fund was up in value 9 years and down in value 1 year.

How risky is it?

The risk rating for this fund is *Moderate*.

The value of your investments can go down. Please see the *Fund risks* section of the information folder for further details.

This fund is being offered under an insurance contract. It comes with guarantees that may protect your investment if the markets go down. The insurance cost for the guarantee is included in the investment management fee. For details, please refer to the information folder and contract.

Who is this fund for?

A person who is investing for the longer term, seeking the growth potential of U.S. stocks and is comfortable with moderate risk. Since the fund invests in stocks its value is affected by stock prices, which can rise and fall in a short period of time.

How has the fund performed?

This section tells you how the fund has performed over the past 7 years, prior to the deduction of fees for a policyowner who chose the 75/75 guarantee policy. This option does not deduct a MER but you pay fees that you agree to in your fee agreement directly. These fees reduce returns. See the *Ongoing expenses* section below for details.

It's important to note that this doesn't tell you how the fund will perform in the future. Also, your actual return will depend on the guarantee policy you choose and your personal tax situation.

Average return

A person who invested \$1,000 in the fund on January 12, 2015 would have \$1,641.36 on December 31, 2022. This works out to an average of 6.42% a year.

Year-by-year returns (%)

This chart shows how the fund has performed in each of the past 7 years. In the past 7 years, the fund was up in value 4 years and down in value 3 years.

How risky is it?

The risk rating for this fund is *Moderate*.

The value of your investments can go down. Please see the *Fund risks* section of the information folder for further details.

How much does it cost?

The following table shows the fees and expenses you could pay to invest in or redeem units of the fund.

1. Sales charges

Sales charge option	What you pay	How it works
Preferred series 2 FEL option	Up to 2% of the amount you invest.	<ul style="list-style-type: none"> You and your financial security advisor determine the rate. The fee is deducted from the amount you invest. It is paid as a commission.

2. Ongoing expenses

Normally the MER includes the investment management fee, operating expenses and the cost for the guarantee. These fees are normally deducted from the fund. The preferred series 2 FEL option is only available if you pay fees by redeeming units from your policy. The preferred series 2 fee agreement shows the fees you pay. These fees reduce the return you get on your investment. The advisory and management service fee is negotiable and the fee ranges between 0.50% and 1.25%.

Available additional guarantee options are subject to the following fees. You have to pay for these as set out below. For details about how the guarantees work, please see the applicable section of your information folder and contract.

Guarantee policy	Death benefit guarantee reset option (%)	Maturity guarantee reset option (%)
Maturity / death benefit (%)	Additional costs	
75 / 75	n/a	n/a
75 / 100	0.16	n/a
100 / 100	0.16	0.21

Trailing commission

No trailing commission.

3. Other fees

You may have to pay other fees when you redeem or switch units of the fund.

Fee	What you pay
Short-term trading fee	Up to 2% of the value of units you redeem or switch within 90 days of investing in the fund.
Switch fee	You may make up to 12 free switches in each calendar year and after that you may be charged a fee.

What if I change my mind?

You can change your mind and cancel the segregated fund policy, the initial pre-authorized chequing premium or any lump-sum premium you apply to the policy by telling us in writing within two business days of the earlier of the date you received confirmation of the transaction or five business days after it is mailed to you.

Your cancellation request has to be in writing, which can include email or letter. The amount returned will be the lesser of the amount of the premium being cancelled or the value of the applicable units acquired on the day we process your request. The amount returned only applies to the specific transaction and will include a refund of any sales charges or other fees you paid.

Are there any guarantees?

This fund is being offered under an insurance contract. It comes with guarantees that may protect your investment if the markets go down. The insurance cost for the guarantee is included in the investment management fee. For details, please refer to the information folder and contract.

Who is this fund for?

A person who is investing for the longer term, seeking the growth potential of global companies involved in infrastructure-related operations, and is comfortable with moderate risk. Since the fund invests in stocks its value is affected by stock prices, which can rise and fall in a short period of time.

How has the fund performed?

This section tells you how the fund has performed over the past 10 years, prior to the deduction of fees for a policyowner who chose the 75/75 guarantee policy. This option does not deduct a MER but you pay fees that you agree to in your fee agreement directly. These fees reduce returns. See the *Ongoing expenses* section below for details.

It's important to note that this doesn't tell you how the fund will perform in the future. Also, your actual return will depend on the guarantee policy you choose and your personal tax situation.

Average return

A person who invested \$1,000 in the fund on December 31, 2012 would have \$2,258.40 on December 31, 2022. This works out to an average of 8.49% a year.

Year-by-year returns (%)

This chart shows how the fund has performed in each of the past 10 years. In the past 10 years, the fund was up in value 8 years and down in value 2 years.

How risky is it?

The risk rating for this fund is *Moderate*.

The value of your investments can go down. Please see the *Fund risks* section of the information folder for further details.

How much does it cost?

The following table shows the fees and expenses you could pay to invest in or redeem units of the fund.

1. Sales charges

Sales charge option	What you pay	How it works
Preferred series 2 FEL option	Up to 2% of the amount you invest.	<ul style="list-style-type: none"> You and your financial security advisor determine the rate. The fee is deducted from the amount you invest. It is paid as a commission.

2. Ongoing expenses

Normally the MER includes the investment management fee, operating expenses and the cost for the guarantee. These fees are normally deducted from the fund. The preferred series 2 FEL option is only available if you pay fees by redeeming units from your policy. The preferred series 2 fee agreement shows the fees you pay. These fees reduce the return you get on your investment. The advisory and management service fee is negotiable and the fee ranges between 0.50% and 1.25%.

Available additional guarantee options are subject to the following fees. You have to pay for these as set out below. For details about how the guarantees work, please see the applicable section of your information folder and contract.

Guarantee policy	Death benefit guarantee reset option (%)	Maturity guarantee reset option (%)
Maturity / death benefit (%)	Additional costs	
75 / 75	n/a	n/a
75 / 100	0.21	n/a
100 / 100	0.21	0.27

Trailing commission

No trailing commission.

3. Other fees

You may have to pay other fees when you redeem or switch units of the fund.

Fee	What you pay
Short-term trading fee	Up to 2% of the value of units you redeem or switch within 90 days of investing in the fund.
Switch fee	You may make up to 12 free switches in each calendar year and after that you may be charged a fee.

What if I change my mind?

You can change your mind and cancel the segregated fund policy, the initial pre-authorized chequing premium or any lump-sum premium you apply to the policy by telling us in writing within two business days of the earlier of the date you received confirmation of the transaction or five business days after it is mailed to you.

Your cancellation request has to be in writing, which can include email or letter. The amount returned will be the lesser of the amount of the premium being cancelled or the value of the applicable units acquired on the day we process your request. The amount returned only applies to the specific transaction and will include a refund of any sales charges or other fees you paid.

Normally the MER includes the investment management fee, operating expenses and the cost for the guarantee. These fees are normally deducted from the fund. The preferred series 2 FEL option is only available if you pay fees by redeeming units from your policy. The preferred series 2 fee agreement shows the fees you pay. These fees reduce the return you get on your investment. The advisory and management service fee is negotiable and the fee ranges between 0.50% and 1.25%.

Available additional guarantee options are subject to the following fees. You have to pay for these as set out below. For details about how the guarantees work, please see the applicable section of your information folder and contract.

Guarantee policy	Death benefit guarantee reset option (%)	Maturity guarantee reset option (%)
Maturity / death benefit (%)	Additional costs	
75 / 75	n/a	n/a
75 / 100	0.21	n/a
100 / 100	0.21	0.27

Trailing commission

No trailing commission.

3. Other fees

You may have to pay other fees when you redeem or switch units of the fund.

Fee	What you pay
Short-term trading fee	Up to 2% of the value of units you redeem or switch within 90 days of investing in the fund.
Switch fee	You may make up to 12 free switches in each calendar year and after that you may be charged a fee.

What if I change my mind?

You can change your mind and cancel the segregated fund policy, the initial pre-authorized chequing premium or any lump-sum premium you apply to the policy by telling us in writing within two business days of the earlier of the date you received confirmation of the transaction or five business days after it is mailed to you.

Your cancellation request has to be in writing, which can include email or letter. The amount returned will be the lesser of the amount of the premium being cancelled or the value of the applicable units acquired on the day we process your request. The amount returned only applies to the specific transaction and will include a refund of any sales charges or other fees you paid.
